

### **Day Senior Roles in a two senior system:**

One senior will come at 8:30am for rounds and leave after 830pm sign-out. This senior will be responsible for teaching the topic designated for the day and completing the day admission with the intern. After the other senior leaves, they will also be responsible for any remaining tasks needed for census patients until signout.

One senior will be responsible for the hours of 630am to 330/4pm (earlier if doing Farrell patient management). This senior, will help new interns handle logistics and answer questions during pre-rounds (along with the night senior). They will also be responsible for helping with tasks related to the existing census patients (e.g., discharge summaries, orders, teaching on these logistical activities, etc) during rounds and the first part of the afternoon. This senior is responsible for directly communicating a BRIEF sign-out on the patients with the other senior before they leave (goal 10-15 minutes). In light of their day ending relatively earlier, time should be allotted for prepping their teaching topic for the next day when the seniors will switch roles.

\*\*\*Both seniors are expected to have a thorough understanding of ALL the census patients. \*\*\*

#### **Example:**

Monday:

Senior B comes in at 6:30am and helps interns with pre-round questions and tasks. They help with logistics and tasks (including discharge summaries, etc) during rounds and the first half of the afternoon. They signout to Senior A around 330/4pm. They prep for their teaching topic the next day.

Senior A comes in at 8:30am for rounds. They teach the Monday topic on the teaching schedule after rounds. They do the day admission with the intern. They receive signout from Senior B around 330/4pm. They manage the census alone until signout at 830pm.

Tuesday:

Senior A comes in at 6:30am and helps interns with pre-round questions and tasks. They help with logistics and tasks (including discharge summaries, etc) during rounds and the first half of the afternoon. They signout to Senior B around 330/4pm. They prep for their teaching topic the next day.

Senior B comes in at 8:30am for rounds. They teach the Monday topic on the teaching schedule. They do the day admission with the intern. They receive signout from Senior A around 330/4pm. They manage the census alone until signout at 830pm.

....continue to alternate through Friday...

On the Following Monday:

Senior A comes in at 6:30am and helps interns with pre-round questions and tasks. They help with logistics and tasks (including discharge summaries, etc) during rounds and the first half of the afternoon. They signout to Senior B around 330/4pm. They prep for their teaching topic the next day.

Senior B comes in at 8:30am for rounds. They teach the Monday topic on the teaching schedule. They do the day admission with the intern. They receive signout from Senior A around 330/4pm. They manage the census alone until signout at 830pm.

Re: weekends, Senior A and B will also alternate who does the Sunday shift.

i.e., If Senior A is doing the 830a/830p shift on Monday, then Senior B should do the Sunday shift the day before and vice versa.
