

Summer Programs 2025

Twirl Tots

Every dancer's dream, to be on the stage and in the spotlight, must begin somewhere. Our Twirl Tot classes are the perfect introduction for future dancers to the world of dance! Grownups and dancers learn and play together as they move to the music, practice beginning dance technique, and participate in fun games that promote physical and social development for your little one.

Ages 18 months - 3 years Saturdays July 12 - Aug 9 9-9:45am \$50

Fairy Tale Ballet Camp

Level UP! Summer Conditioning Program

This summer conditioning program allows our dancers to continue training during the off season. Each week students will work on flexibility, control, body alignment and strength needed for skills such as jumps, leaps, turns, and floorwork. This class is strongly recommended for all students, especially those preparing for competition team placements in the fall!

Beginner/Intermediate (Ages 7+) Mondays June 30 - July 28 6-7:30pm \$75

Appropriate for beginning dancers, or those looking to work on the basic technical skills. This class focuses on the breakdown of foundational skills such as splits, single and double pirouettes, chaine and pique turns, jetes, center leaps, and extensions.

Intermediate/Advanced Tuesdays July 1-29 6-7:30pm \$75

This level is for dancers who have learned the basic technical skills already, and wish to perfect those as well as work on new progressions. Dancers will learn the proper technique for more difficult skills, such as calypsos, turning c, turning disk, firebird leaps, axels, double and triple pirouettes and coupe turns, turns in second, floorwork, extensions, and more.

What's the Difference? Summer Mini Intensive

This mini intensive will allow our students to explore three distinct but frequently confused styles of dance - modern, lyrical, and contemporary. Students will take class in the foundational style of ballet each morning, and then explore a different genre each day with a variety of classes, learning both historical techniques and new methods. See a sample schedule below!
