1412 A AVENUE W, SUITE A

P: 641-676-3535

F: 641-676-3537

### **PELLA**

604 LIBERTY STREET, SUITE 227

P: 641-621-0230

F: 641-621-0319

### [Free Screening Request Form](#)

We offer a no-obligation, free Kinetic Screen to anyone interested in our services. Our free Kinetic Screen takes 20 minutes and gives you the chance to meet our team and ask any questions you have. During the screen, we'll analyze areas where we can help you move, feel, and function better. When it's finished, you get to decide if Kinetic Edge is the right fit for you. And if we aren't, we'll offer suggestions of others who might be!

Occupational therapists at Kinetic Edge also specialize in pediatric therapy.

Occupational therapy can benefit a wide variety of children. Some examples include kids struggling with learning, picky eaters, children having difficulty **calming down or staying focused**, handwriting difficulties, kids with balance and coordination difficulties, and those with delayed fine motor skills.
