Chara was quite messy, and gave her sister a smirk. "Looks like you'll have to change me, "big sis." she giggled

Frisk reaches her limit and messed as Toriel came out

Frisk internally cheered glad Toriel didn't have plans to bring her out in public when she suddenly started to mess

Frisk tried the accident incantation but in the panic she shot it and it bounced around the room and hit Frisk as she started having an accident

Frisk started to mess and noticed Toriel's hands were glowing and were making the pressure worse
Your kidding me right now

Why *grunt* are you doing this *grunt* I'm c-clearly not a *grunt* baby
Chara said as they continued to mess their diaper

QUOTE

"Look at your diaper little one that clearly says otherwise..." She said watching
Chara fill her diaper.

QUOTE

2

You *grunt* probably *grunt* did something *grunt* to make that happen
Chara said

QUOTE

2

"Nope I didn't do anything." She smiled wondering how much Chara had eaten
watching how her diaper filled up.

QUOTE

2

You're a terrible liar lady Chara said as they finished and sighed in relief

Chara tried her best to hold it but utterly lost as she started to let it all out and the diaper doubled in size as Chara gurgled like a baby without noticing it and when she finished pooping and peeing she blushed feeling embarrassed

QUOTE 12

54

Toriel smiled even though Chara's diaper was past being full Toriel would fill Chara back up with milk. "I'll give you one more chance to get the chance to baby me and Asriel." She would change Chara and would put her in the crib wanting to give her a chance

QUOTE 13

55

Chara hopped out of the crib and slipped and fell on her face as she started to wet again but she quickly held it in with her hands even though they had mittens on them and they got to the door and tried to open it but the mittens made it impossible as Chara slipped again and hit their head completely disorienting her as she started to wet and mess again

QUOTE 14

56

Toriel would smile and would sit there watching she said if she could do it before the diaper was completely full she would win. She had filled it halfway so far.

QUOTE 15

57

Chara started to hold it again as she tried to open the door again actually managing to get it but when she got to the bathroom door there was a baby protector on it. Dang it I can't even get these without them mittens on Chara said as they started to try and get it but couldn't hold it anymore as the diaper filled up completely and Chara couldn't reach the door handle as the diaper held her down

Chara giggles and messed their diaper more

22

Toriel would smile and would pat her messed diaper. "Your a really messy girl Chara..."

27

Hehe I'm a messy little baby hehe Chara giggled

22

She would smile and would go back to the toilet. "Chara where's the key for the lock it's in the bathroom?"

22

I don't know why do you think I couldn't get it open Chara said as they hid the key up their sleeve

22

Toriel would just sit Chara on her lap. "Are you my messy baby?" She asked trying to see if the need had ran out.

22

Chara thought for a moment
Maybe a little bit heh Chara said as they started to mess their diaper more

~How am I
Supposed to

on!

Muffet heard a faint past sound and realized the drugs in the milk worked and made Frisk incontinent but they couldn't tell her that they just had to make it seem like a coincidence

#107

frisk blushed a deep shade of red

#108

Oh deary did you have an accident don't worry Muffet is gonna make it all better well not me exactly she said as she set Frisk on the changing table and pressed a few buttons

#109

frisk was extremely confused

#110

Arms popped out of the changing table and began to change Frisk the crew recording it of course for the commercial

Zach's diaper was soaked.

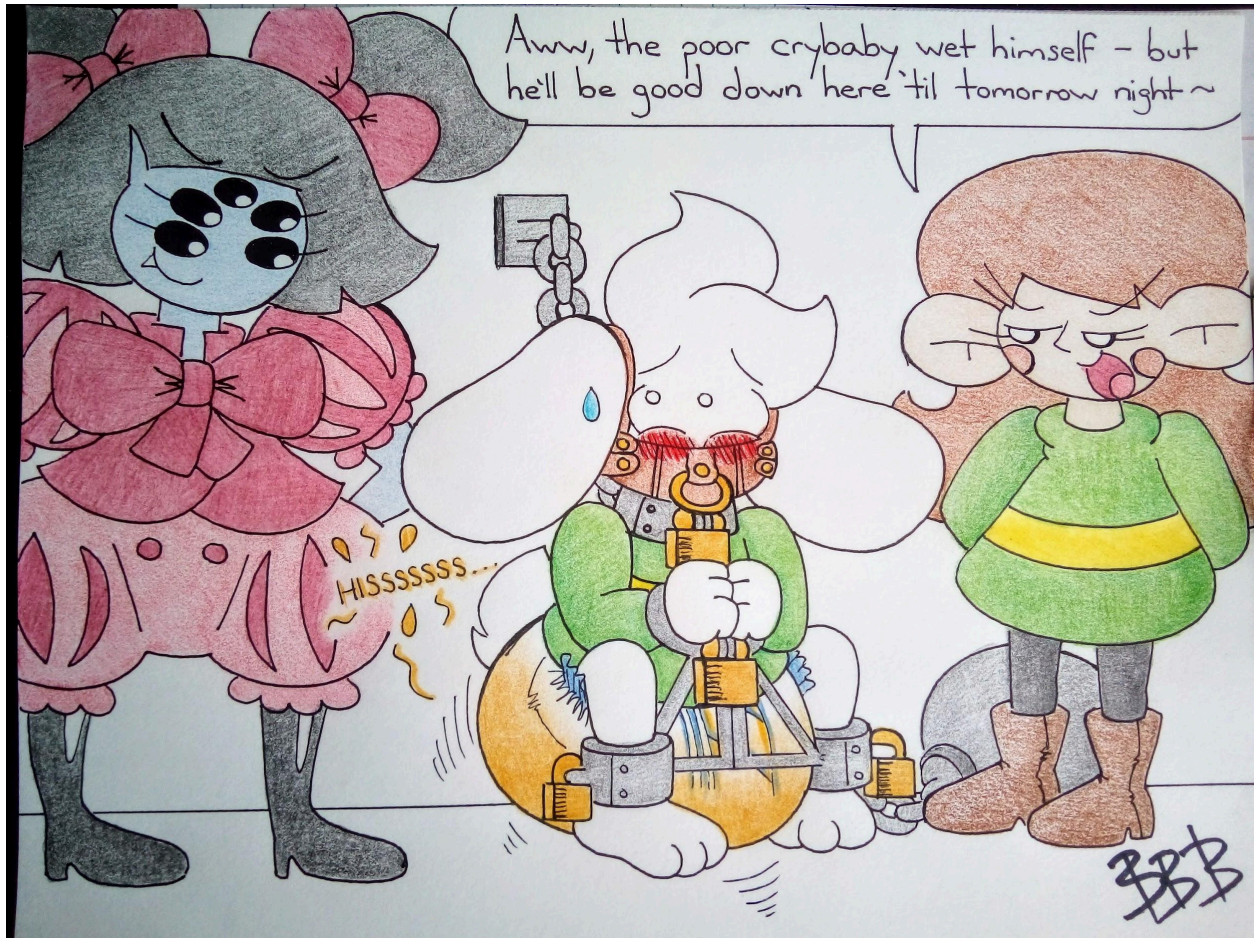

The machine declared her soaked and set her on the changing table and began to change her

Uh oh Muffet said realizing Frisk had done more than wet the diaper this time

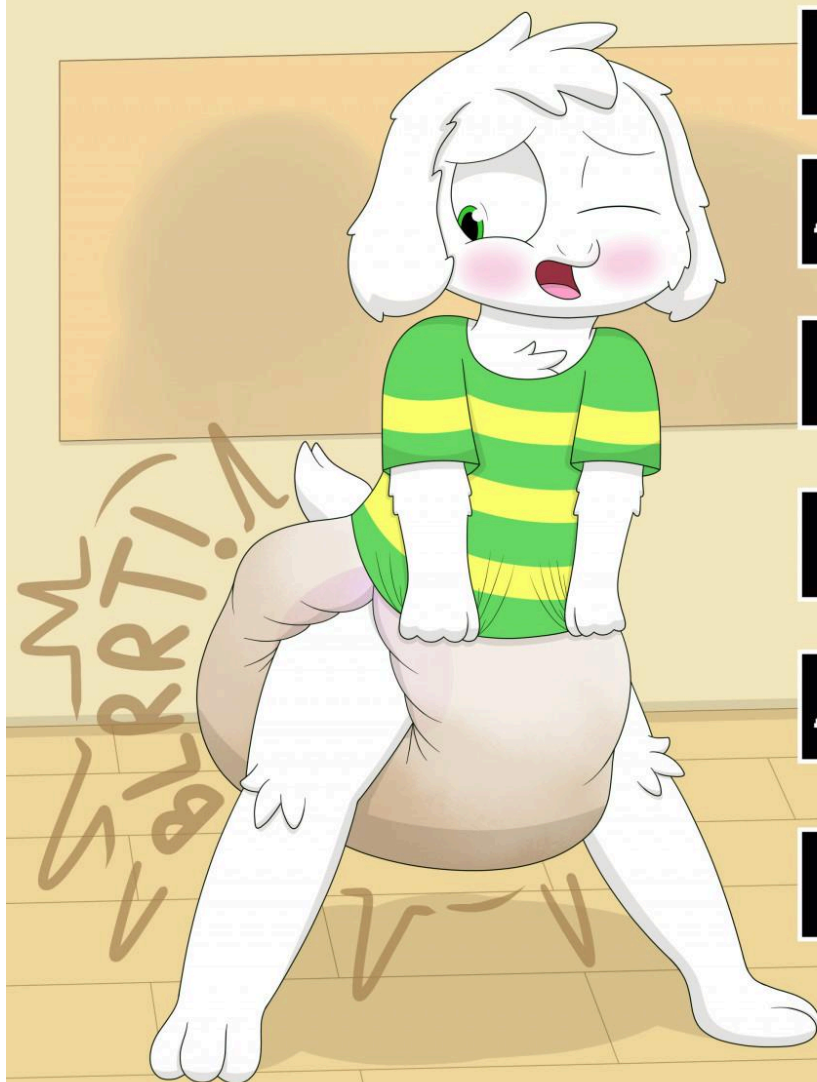

frisk began to use it
Chara was free and tried to snap her out of it

* Oh no! Mmmff...! I can't hold it...!

* Aww, hon, if want to go back to wearing diapers, you can tell me!

* Moooooom! I'm not a baby anymore! I can change myself!

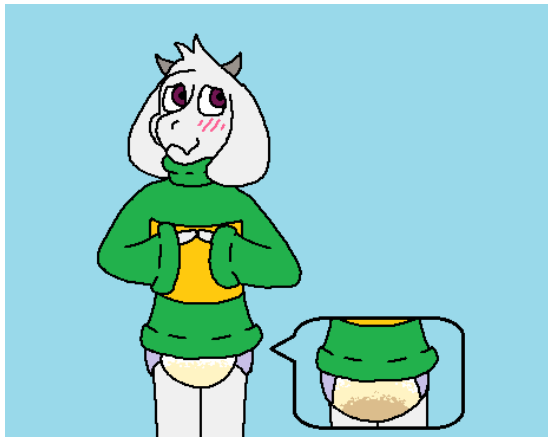

* Wait! I mean I don't need diapers!

* Now, now, sweetie. Do you need mommy to change your stinky diaper?

* ...Yes please...

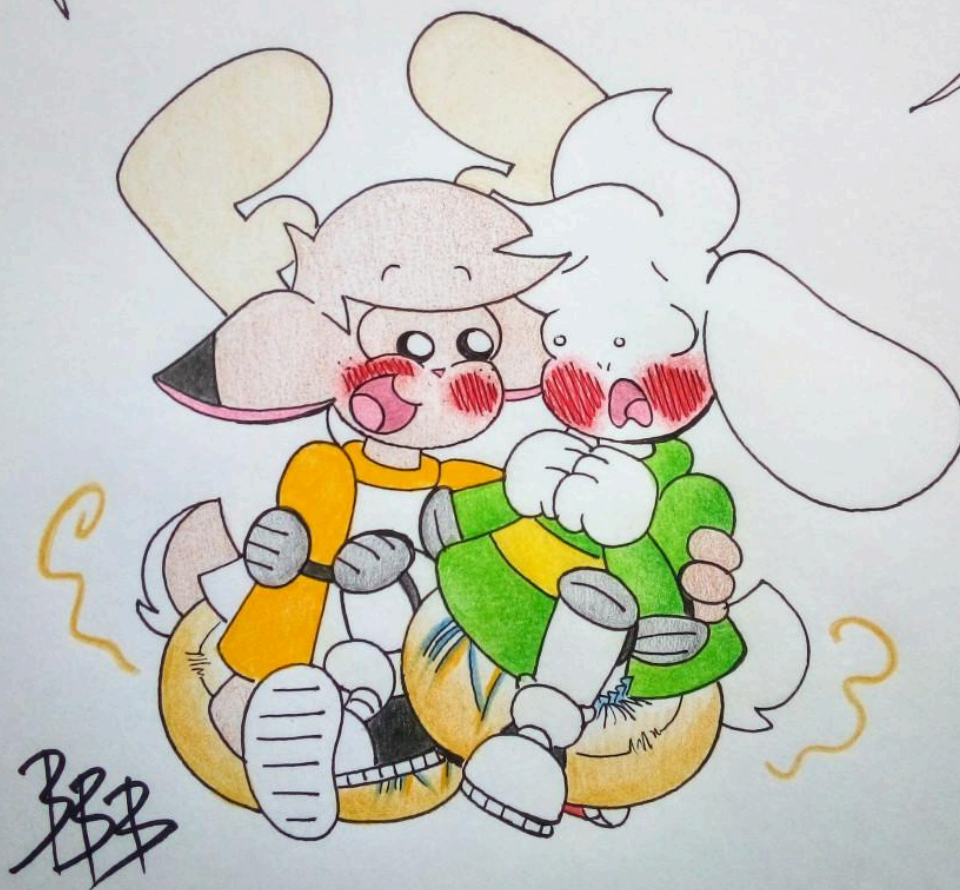

B-But those big, scary cool kids are looking!!

Aw, who cares? We all do it!
Just let it all out and relax, dude~

H-How are you so relaxed about us being seen this way!...

Trust me, dude - The more we wear openly, the more popular it'll get, the cooler Patrice will get to feel!

* Don't worry, hon! Mommy Toriel will change your stinky little diaper!~

Thank you sweetie she then checked his diaper uh oh someone seems to have left a present for mommy

Maybe a little bit Asriel said underexaterating the mess

Cmon let's get the prince's little whoopsie changed

Ariel giggled as he was picked up

He was then placed on the changing table so are you excited for your new baby strolling

Ariel smiled and nodded happily

As the last bites slipped down their gullet, their stomach began to churn, gurgling loudly. Milly's face erupted into a grin as a fresh wave of mess forced its way into the human's already full pants, raising them another couple of inches in their seat. "Oh, perfect! That works on

formula. Just as the last bit trickled down her throat, the little girl's stomach groaned, her eyes widening before a mass of mush pushed its way into the seat of her pants. She reached up towards the human, wrapping her arms around them in a big hug. "Thank you... guess I'm better off as a baby than a 'momster.'" Nuzzling upwards, Milly gave them a big squeeze, holding onto them for nearly a minute before remembering an important bit of information. "Oh! Um... I guess I shouldn't keep you here any longer. If you trigger that trap in the kitchen again, it'll return you to your normal age."

The human wandered off just as soon as Milly released them, making their way back to the kitchen. They returned only moments later, standing back at their original height and age. Looking back in the direction of Milly's room, the human spotted her already hard at work playing with a pair of roughly human dolls, oblivious to the smell coming from her rear. They opened their mouth to warn

She was definitely a little messy

You need not worry, child.

There there, let it all out.

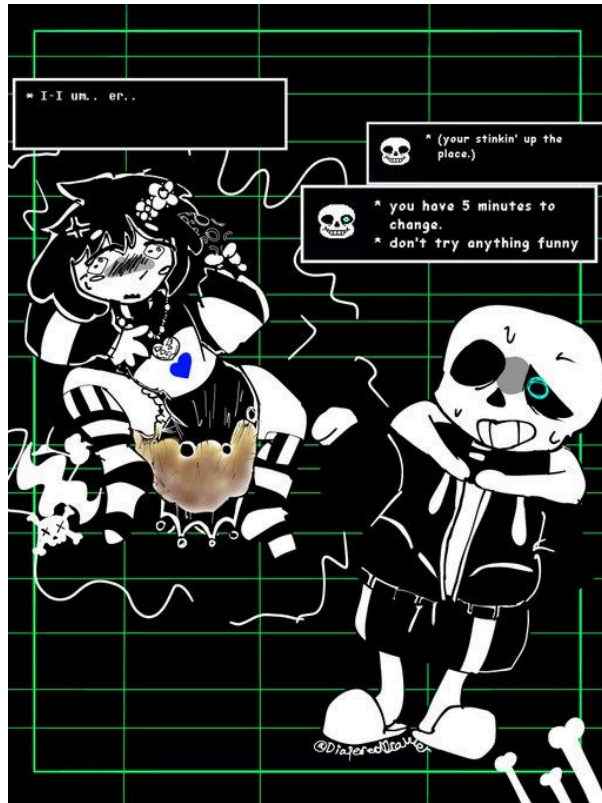

My pies may be a little much,

but your diapers can hold messes that even humans cannot make~

Even Asriel could not fill them in a single day.

Now, how about we put you down for a nice nap in your crib?

Oh Dear, That is quite
a stench, It seems monster
food isn't fit for you dear.

Worry not, Asriel. Chara will only be away for a moment. Mommy just needs to change their diaper. You two will be playing again soon.
