### **Why Lights on Afterschool?**

Lights on Afterschool is a nationwide event that highlights the impact afterschool programs have on students, families, and the community. We want to "shine a light" on the Smithville ISD ACE Program! The ACE program supports our community by giving students access to high quality academic and enrichment activities, family engagement opportunities, a continuous network of support that promotes academic and social emotional development and our afterschool program fills the gap between the school day and out of school time.
