## 35mm Film Sessions

Film shoots have variable costs depending on the stock you choose and how many rolls you shoot through. You get approximately 30 shots per roll, and all development is included in the per-roll cost.

| Film Stock       | Film Cost | Development | Total/Roll | Look & Feel                   |
|------------------|-----------|-------------|------------|-------------------------------|
| Fuji Superia 400 | ~\$13     | \$20        | ~\$33/roll | Cooler tones, budget-friendly |

|                  |       |      |            |   |
|------------------|-------|------|------------|---|
| Kodak Gold 200   | ~\$15 | \$20 | ~\$35/roll | Bright, warm, sunset-style                                  |
| Kodak Portra 400 | ~\$20 | \$20 | ~\$40/roll | Warm (a little less than Gold), rich, classic portrait film |

*Hourly session rates are the same as digital. Film cost is separate and billed based on how many rolls are shot.*

## Session Logistics

### Timing

- Sessions typically start around 5:00–6:00 PM for evening golden hour light.
- Exact start time is flexible — just let me know what works for you.
- If rain occurs, I'll try my best to reschedule the shoot given my availability. **I will not reschedule for cloudy/overcast days.**

### Location

- Most of my shoots take place around the USC area, but I'm happy to travel to another location! I've also worked on UCLA and LMU's campuses. Shoots at schools other than USC will require a slight travel fee to account for gas expenses/parking.

### Deliverables

- 30–50 (more if a large group) edited digital photos per shoot, delivered via an online gallery.
- Turnaround time will be discussed when booking.

### Availability

- Thanks for a great 2026 season! June availability is through inquiry only.
