-Triplist is an exclusive whitelist that allows minting at the lowest price.

The graphic features a central illustration of a blue and white cartoon character wearing a yellow hat and a red scarf. Callout boxes with arrows point to the character's 'FACE', 'HAT', 'CLOTHES', and 'SKIN'. To the right, text provides details about the NFT series. In the top right corner, there is a small Trekki logo with the word 'TREKKI' below it.

TREKKI NFT

MINT DATE: TBD

Travel >> NFT Evolution (Traveling Pokémon + Traveling Frog)

1- Traveler's Growth: Trekki NFT can evolve from a juvenile stage to a mature stage, eventually reaching the ultimate form.

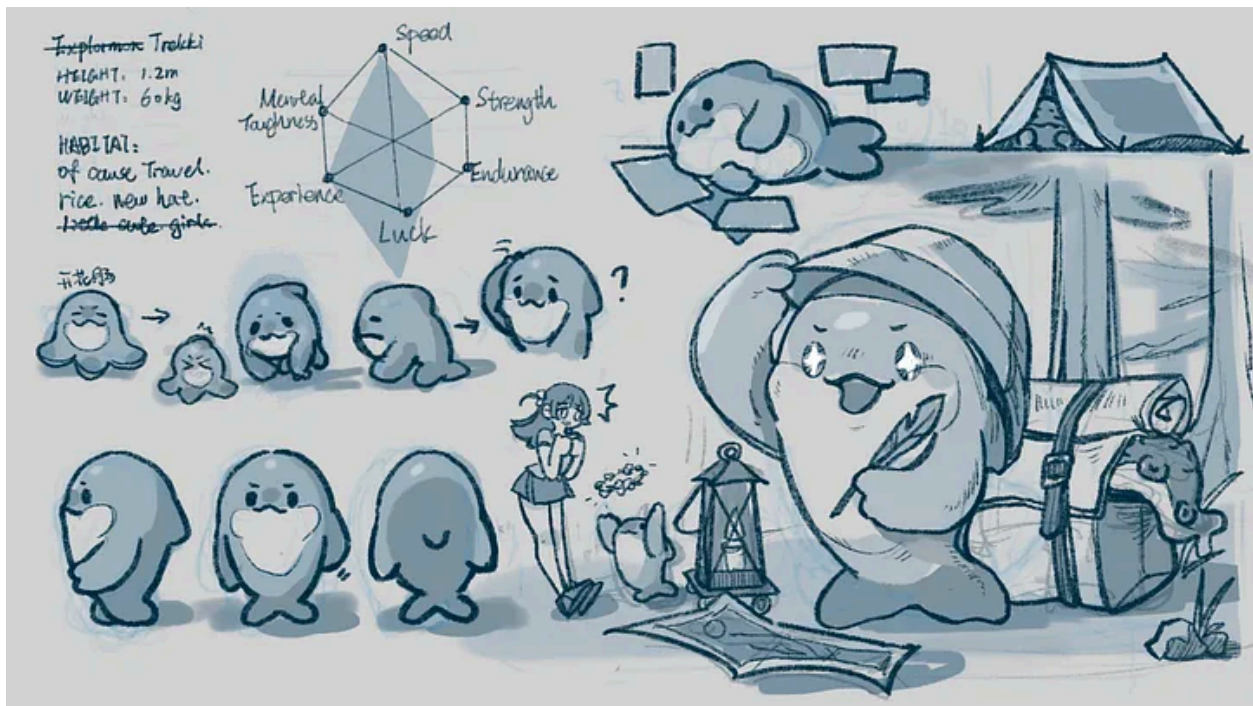

-- Get flight and hotel discounts through Trip.com

-- Unlock higher-tier Trip.com memberships with additional benefits

-- Participate in Trip.com's music festivals, food festivals, and carnivals

- 2- Traveler's Earnings:** NFT holders can stake their NFTs to earn tokens and redeem extra perks
- Hotels: Coupons, room upgrades, free stays
 - Diamond membership trial
 - Flights: Free upgrades, complimentary transfers, VIP lounge access

About Trip.com: Trip.com is a leading global online travel services provider and is part of Trip.com Group (NASDAQ stock code: TCOM)

After evolution, each Trekki NFT will see an increase in various attributes, providing the holders with more Tokens.

Users can use the acquired Tokens to redeem various products and benefits, including:

- IP-related physical items such as hats, clothing, cups, etc.
- Purchasing experience points, evolution stones, and other Trekki NFTs.
- Exchanging for Trip.com benefits such as coins, coupons, membership trials, free hotel stays, free attraction tickets, and other benefits from future eco-partners and suppliers.

- Redeeming NFTs issued by other brands on the continent of Trekia.
- Serving as currency in future travel games.
- Exchanging for Trekia virtual derivatives such as emojis, gifs, NFT virtual spaces, etc.

Trekki unique attributes:

Trekki NFT's IP Attributes: Trekki NFT represents a travel-themed NFT series featuring an adorable dolphin who loves exploring. It embodies a community of travel enthusiasts, and holders can leverage its story background and empowerment features to create their own IP value. For example, integrating Trekki's IP into a local tavern may attract more travelers to your city.

Trekki's Economic Value: Holding Trekki NFT offers practical benefits during travel. NFT holders can enjoy price discounts while booking accommodations or services. For instance, if a hotel room costs \$1000, Trekki may provide a 20% discount, saving you \$200—exceeding the initial mint price (Triplist).

Vibrant Travel Social Community: Within the Trekki community, you can connect with like-minded travelers, share your travel experiences, and even seek travel companions. Trekki NFT serves as a travel companion, offering travel planning support (assisted by Chat GPT). Additionally, NFT holders can attend music festivals and food events organized by Trip.com, enhancing their social experiences. In August, we successfully hosted the City Walk event, which concluded with great success. Moving forward, we're excited to announce upcoming offline events in collaboration with our partners, Mocaverse and YogaPetz. Stay tuned for more exciting activities!

Brand Partnership Program: Our collaboration efforts extend beyond well-known Web3 projects; we are also in discussions with globally recognized Web2 brands. They have shown genuine interest and are willing to airdrop products or benefits to our NFT holders after our project launch. This gives us great confidence in building a successful and sustainable project.

Through these four aspects, we believe Trekki NFT will stand out and offer a truly remarkable and rewarding experience to our community members, setting us apart in the ever-evolving NFT landscape.

Confirmed Partners: Memeland, OKNFT, Foresight News, 2023 FUTURE COMMERCE, Hashkey, YogaPetz, Chainlink, Phaver, Yeeha Game, MBM, Mocaverse, more.

Additionally, we are in discussions with top traffic platforms in Japan, South Korea, Thailand, Vietnam, and more, expecting significant progress in August.
