

# ©Moobitz350 Terms of Service

- By contacting me and agreeing to my terms of service you confirm you are **18+**, and if I am to find out you are below this age the commission will be voided and no longer applicable and your 50% up front payment will not be returned. **I will not negotiate on this and will Blacklist you from commissioning from me again if found out.**
- By agreeing to these terms of service, you agree that if you don't follow the listed terms, I may void the contract and keep the 50% payment up front **and depending on how you break the terms; you may be Blacklisted.**
- You can contact me through **Discord [moobitz350\_47573], FA Notes, and Email [ Moobitz350[AT] protonmail [DOT] com ]**, though I prefer to be reached by dms Via Discord!
- For larger projects, please note this may take extra time as this is my **sole method of income** and may need to take multiple commissions at once as well as juggling commissions and my real life/health. I try to finish commissions as quickly and best of quality as I can, however!
- I work in order of those who I decide and may undertake multiple projects at once. I'll try to keep in order of who has commissioned me first but understand that you may have a bit of a line before I start officially working on your commission or order may be shuffled around slightly for various reasons.
- 50% of Payment will be made up front, and when it is near completion you will get a screenshot of the file with a heavy watermark to keep from theft, but you may still request edits. When the commission is confirmed to be finished, please send me the rest of the payment .
- I will notify people with pending commissions of times I will be on break/ vacation so they know it may be hard to reach/ not to expect updates during this time thanks to factors IRL I wish not to publicly discuss in detail. Apologies in advance.
- Anything you want added after the commission has been finished may require additional payment based on my discretion. However, details added during the drawing process will not require additional payments unless its alts or an upgrade to the commission
- I will send you Wips of the commission where I encourage you to tell me if you would like details to be changed, however please be mindful of how drastic you request some edits of the commission be and would prefer only 2 major edit requests and 5 minor and **MUST BE ASKED FOR IN THE SKETCH PHASE.** **[DON'T WORRY; THIS IS NOT APPLICABLE IF I HAVE MISSED A KEY DETAIL OF THE COMMISSION WE HAVE DISCUSSED / CHARACTER DESIGN, I WANT THE ART TO BE AS ACCURATE TO WHAT YOU REQUESTED AS POSSIBLE.]**
- I have the right to update my commission prices at any time depending on the influx of commissions/ pricing differences due to improvement in art- However - if you have already sent the 50% down payment and I am working on your commission or it's in the queue you still pay the original amount **unless you request alts/ or an upgrade.**

# ©Moobitz350 Terms of Service

- If you are commissioning on behalf of you and other parties, please give me **written proof of their consent** and only be paid through one of you for the sake of ease of access in the case of a need for a refund.
- At the current moment, Only take payments through Paypal or cash app- Don't send payments until I ask you to please!
- Please provide a visual or written description of the characters you would like me to draw for you, I will not work on a commission without a reference.
- You are allowed and encouraged to ask for updates in the art progress / queue, but are not allowed to set deadlines on my art - my IRL life tends to get in the way at times and I cannot control the rate I may be able to make progress on art. If I believe I will not reach your commission in a comfortable amount of time, I will refund you if you have already made a down payment.
- I reserve the right to cancel your commission **at any time** and if I cancel said commission after you made the down payment I will refund you.
- Once I finish your commission, I reserve the rights to post the art onto my account so I can display the art I have spent time drawing in the case I haven't had free time to work on personal images. This is so I can ensure even when not working on personal art I have content for examples for future commissioner's to see. You are also allowed to post the commission to your account(s) or other sites with credit to me. **I can either keep you anonymous or credit you at your preference in the description!**
- **All art and creations produced are owned by ©moobitz350 unless explicitly said otherwise. Please do not sell as your own, borrow, edit, or alter them in any way and then sell them or act as if they are your own work in any way shape or form without my explicit permission.**
- **Disclose if you plan to use my art for something you're selling before we discuss the commission in its entirety- so we can discuss if I get royalties or a set lump sum of payment and request you credit me for my art unless I specifically specify I wish to remain anonymous in this project.**
- **You may ask for the files of your commission! I will provide you with the clip/PSD file upon request!**
- **Under NO circumstance are you allowed to use my art for AI/bot OR NFT/ Blockchain purposes- paying customers or not.**
- You may color/ refine your commissioned sketches/lineart yourself as long as you credit me
