

Unit Project 2 -- Jobs

I can prepare for an interview

Part 1: Create

With a group of classmates, you will create a skit detailing how to interview for a job and giving advice to people about the process. Be sure to film both 'good' and 'bad' examples! You will be given class time to work on this together.

Be sure to come prepared to class! You can do this by writing out a script and preparing a list of relevant vocabulary.

Part 2: Share

In class we will perform these skits together! Your instructor will also record these skits. Take notes on each of the skits here, including:

- أ) Advice given for the interview process
- ب) 'Bad' examples
- ج) 'Good' examples
- د) Any advice about the Arabic

Part 3: Reflect

Your instructor will send you a video of your skit. Watch it again, and take notes. What went well? What could use some improvement?
