AML-590 - Divine Presence

LEVEL-2/590-CLASSIFIED

Due to AML-590's transcending capability, it cannot be [REDACTED]
Context Unknown.

Note: This Following Document Is Classified By All Means, It Should Only Be Accessed By The Foundation.

CLASSIFIED-3/590

CODENAME #: AML-590

FILENAME: Divine Presence

CONTAINMENT CLASS: APOLLYON ATTITHASOS

THREAT LEVEL #: BLACK

RISK LEVEL: DANGER

CONTAINMENT ZONE #: ERROR-404

CONTAINMENT CHAMBER: ERROR-404

SITE #: ERROR-404

Special Containment Procedures: Due to AML-590 transcendence capabilities and AML-590 being fully omnipresent, it cannot be contained in any meaningful way. It is said that AML-590 exists everywhere, including other concepts or other types of existence.¹

AML-590 cannot be tranquilized or amnesticized due to it being none-physical. AML-590 has broken the boundaries of Fiction and transcended to a realm beyond Author Authorities.²

Interviews can be done on AML-590 due to AML-590 not being hostile to anyone, and all interviews prove that AML-590 is fully omniscient.³

AML-590 has expressed its Omnilock quite frequently. AML-590 has transcended beyond the power AML-001-2 (The Founder) numerous times and it is the true creator of the AML-Foundation itself.⁴

AML-590 can transcend to a realm of infinite other concepts and dimensions, however, AML-590 is the only entity who can access the realm, nonetheless, AML-590 can transport other beings to the realm.⁵

AML-590 cannot be contained due to it transcending beyond every stack of infinite narrative, each narrative representing fiction itself. However, AML-590 fully transcended the stack of infinite narratives and concepts, meaning that AML-590 exists beyond Fiction, nonetheless, that makes AML-590 non-fictional.⁶

Due to the fear of AML-590 causing a K-Class "End-Of-Existence" scenario, it cannot be also contained. AML-590 can manipulate concepts of infinite other concepts and narratives, creating them or destroying them at will (Check Addendum-590.3 for an interview with AML-590).⁷

Nonetheless, AML-590 must be under surveillance under any circumstances, it must be watched 24/7 and AML-590 shows any signs of annoyance, it should be left alone.⁸

Any attempts that were attempted to contain AML-590 resulted in AML-590 reality warping the containment cell out of existence, however, AML-590 can end the entire concept of the AML Foundation by simply tearing up the entire concept in the infinite other concepts realm.⁹

AML-590 is currently located in Croatia, somewhere in [REDACTED], and it was under surveillance for [REDACTED] years. AML-590 expressed its omni[REDACTED] and its [DATA EXPUNGED].¹⁰

AML-590 is omnipotent beyond the power of [The Greater Ones](#), such as AML-2845 or AML-541, and AML-590 is the sole most powerful being in the entire concept of the AML-Foundation. AML-590 is seen as the all-powerful Creator of whole existence, seen by everyone, everything, including AML-2845.¹¹

AML-590 cannot be possessed/controlled in any way, due to AML-590 being the literal "Creator" of the entire concept of the AML-Foundation. AML-590 views his Author Revenant as fiction, as of [REDACTED]/[REDACTED]/2021, AML-590 views authors as fiction, nonetheless, AML-590 can view outside of the 4th-wall, viewing the self-author of every AML-Author.¹²

AML-590 may have written its own document due to them altering it and therefore giving itself abilities. In addition, AML-590 technically is and is not capable of destroying itself by altering its document due to its omnipotence.¹³

UPDATE-590-1: As of [REDACTED]/11/2020, AML-590 is being watched somewhere in the town of Split, and it seems that no other beings except for the AML-Foundation can view and see AML-590. Nonetheless, AML-590 is becoming less humanoid in appearance, meaning the **Optical Description** is being updated every now and then.

UPDATE-590-2: As of [REDACTED]/[REDACTED]/2021, AML-590 transports itself to another location every time it shows a sign of annoyance. However, annoying AML-590 too much will result in the obliteration of the subject. AML-590 has shown signs of annoyance quite rarely, it has only happened **[DATA EXPUNGED]**.

Optical Description: AML-590 cannot be described due to its reality bending and appearance manipulation abilities, AML-590 currently appears to be a light sphere of ~~unknown origin~~ (View Addendum-590.2). Due to AML-590's reality bending, AML-590 cannot be 'fully' described, however, AML-590 is capable of a lot of abilities.

AML-590 is capable of bending reality by causing a crack in the space-time continuum, AML-590 responded with "Oh, that crack. Oh yes, I created it to prove my reality bending skills." (View Addendum-590.3).

The Administrators 5 (A5) council have declined most tests and experiments done on AML-590 due to the fear of a K-Class "End-Of-Existence/End-Of-Creation" scenario. AML-590 should never be attacked due to AML-590 mainly becoming hostile when attacked. However, AML-590 gives 3 warnings to the attacker to stop, if the attacker does stop, AML-590 would forgive them.

AML-590 has quite a lot of nicknames, most notable one being the avatar of a self-author, "The Omnipotent Creator", mostly called by DrRevenant. Even though AML-590 does not mind being called "The Omnipotent Creator".

AML-590 is capable of Omnilock, meaning it exists beyond everything (View Addendum-590.3). Additionally, AML-590's existence is only seen by Foundation workers and other AMLs.

AML-590 is capable of manipulating molecules and atoms, nonetheless, AML-590 can manipulate cells in every entity. Additionally, AML-590 is capable of telepathy, when Dr [REDACTED] is away, AML-590 uses telepathy to talk to Dr [REDACTED] in their mind.

AML-590 is capable of transcending to a realm of infinite other concepts and dimensions, however, AML-560 can transport other individuals in that realm, also referred as AML-590-B. AML-001-B is described as an infinite void dimension with infinite "Sheafs Of Paper" (Also known as AML-590-C) floating around in AML-590-B. Each AML-590-C is a concept and another universe/dimension with a complete other timeline, inside of some AML-590-C's, the

Foundation did not exist and in others, the Foundation was against humanity. Some AML-590-C's have completely different universes such as [DATA EXPUNGED].

Recently, the Foundation found out that AML-590 is capable of Omnigualism, meaning AML-590 speaks every known language in existence very fluently and instantly. AML-590 means no harm to humans, never harming them in any way regardless of who they are, however, if a human does attack AML-590, they [DATA EXPUNGED].

Nonetheless, AML-590 is capable of nothingness manipulation, meaning it can manipulate nothingness, void and matter, However, AML-590 rarely uses this power on [REDACTED] or [DATA EXPUNGED].

Over the past few years of studying and researching AML-590, DrRobert Hall has died due to an unknown cause. It happened around 3:45 PM at [REDACTED]/12/2021. The next day, DrHenry questioned AML-590 about this cause, however; AML-590 replied with; "Sorry for that, if you did not know, learning too much about me can cause insanity and death. That is a fun fact about me".

The Foundation has seen AML-590 writing and reading, according to AML-590; it says "Aw, I like to tell you all about my favourite activities, reading and writing feels well". Any further information about AML-590's activities are to be [REDACTED].

Nonetheless, AML-590 is to be not attacked by any means, angering AML-590 would be the greatest mistake in existence, AML-590 changing behavior is to be reported to an Administrator 5 (A5) council personnel immediately. Dr[REDACTED] has asked a question to AML-590 about what they would do if the Foundation angers them; AML-590 replied with: "Angering me would not be a very pleasant experience, I could end the entire concept of existence and creation, do not make me regret creating creation and existence".

Somewhere are around [REDACTED]/[REDACTED]2021, Dr[REDACTED] had an interview with AML-590, then AML-590 said the strangest quote; "Outside of the ordered creation is that amorphous bright of nethermost sadness which blasphemes and bubbles of eradication at the center of all of absolute infinity. The boundless creator known by everyone in the Foundation, 'AML-590' "". The quote is currently [REDACTED].

Overall.. AML-590 has claimed omnipotence. after the infinite narratives of transfinite layers of narratives transcending. AML-590 forced itself-author to become all-powerful. AML-590's thoughts are existence, once AML-590 stops thinking, the existence will come to an end. The entire concept of the AML-Foundation will come to an end, infinite narratives and transfinite narratives will come to an end with a single AML-590 thought...

Addendum-590.1: Due to AML-590 refusing to have a picture of itself taken, the Foundation finally managed to convince AML-590 to take a photo from one of the scientist's phones. However, AML-590 was not angered when it's picture was taken.

Instances of AML-590...

Note: This image should not be revealed to a level 1 or below workers due to [REDACTED].

Addendum-590.2: An Administrator 5 (A5) has hired Dr [REDACTED] to have an interview with AML-590, and to ask a few A.C.I units to go with Dr [REDACTED].

<Begin Log>

Dr [REDACTED] and 3 A.C.I units met AML-590 into a forest with a strange atmosphere, they encountered AML-590 floating with a cup of vine.

Dr [REDACTED]: Ah, AML-590, we have been looking for you-

AML-590: Greetings Dr [REDACTED], sorry for the inconvenience, I have been expecting you.

Dr [REDACTED]: P-pardon?

AML-590: Do not be alarmed, my child. I know everything and anything. I do know you want an interview with me, so begin with the questions.

Dr [REDACTED]: Uh...sure...? Alright, question number 1; What is your purpose in life?

AML-590: Isn't it obvious? I want to see how my gorgeous little creations evolve.

Dr [REDACTED]: Alright, question number 2; What is your true name?

AML-590: I go by many names, but my true name is Fuji Suzuki, Fuji meaning unsurpassed.

Dr [REDACTED]: Alright, question number 3, Fuji; What is your origin, how did you come here and how did you create creation and... us...?

AML-590: I knew this day would come, alright, get ready for the whole story Doctor.

Dr [REDACTED]: I am ready sir.

AML-590: *At the expanse of the beginning, there was only myself, and the infinite void without any sign of life. There was only a white glowing sphere, a*

mindless entity named Fuji Suzuki, and at the very beginning, I was alone... I did not know what to do, I was sad of being nothingness and emptiness. There was nothing to care about, I just suddenly appeared without anything to do. I did move, I did not think, I cannot die...or even live... I was not happy...

I was motionless, later on, I started exploring the infinite void which I called "home". I started to think, move, this should've made me happy to exist...but it didn't, I was unhappy once again...

In a few trillion years, I managed to think of an idea to make myself happy...to create more life, so I cannot be lonely anymore...

Creation, possessing the full control of Fuji Suzuki. Firstly, I have manipulated and created light and dark... to give each of my creations some atmosphere... secondly, I created liquids, and gases, waves, physics, particles, matter and of course energy...third, I created molecules and atoms, chemistry reactions and resistance... creation was starting to come along.

Fourth, I created demarcating planets, stars, void and the singularity. Finally, lastly... I granted immortality, essence, demarcating the mind and soul of each and every living being, pain, joy and sadness... love and hate...death... however, creation needed one more thing, life/existence.

Though I created everything alone, all of my hard work put into creation was appreciated by me... I was proud. I managed to create life, authors, existence.

It took me quadrillions of years to create infinite concepts of existence, creating layers of each narrative and creating universes, multiverses, hyperverses, metaverses, outerverses, omniverses and boundaries of power.

But there was one simple thing missing,

colour... so I coloured the entire creation, then I finally knew I was finished with creating this. I was happy.

It was fun watching and seeing creation evolve, it made me proud. I am extremely proud of Einstein, Nicola Tesla and this race specifically.

I lived alone, silently and sad for too long.

Creation was appreciated.

Creation was happy.

Creation grew more.

*In my opinion, **creation is perfection.***

The end...

Dr [REDACTED]: That is...everything?...

AML-590: Indeed.

Dr [REDACTED]: Alright lord, I must go now, farewell Fuji! See you soon!

AML-590: Farewell, my child.

<End Log>

Note: *It has been confirmed that AML-590 was the true creator kahn of existence, however, all of it was proven correctly.*

Addendum-590.3: An Administrator 5 (A5) hired the same scientist to have another interview with AML-590. This time, Dr [REDACTED] will ask questions about AML-590's powers and abilities.

<Begin Log>

Dr [REDACTED] approaches AML-590 and greets them

AML-590: Greetings Dr [REDACTED].

Dr [REDACTED]: Greetings to you too, Fuji. I have questions for you, would you like to answer them?

AML-590: Sure! Why not?

Dr[REDACTED]: Alright, cool. Question 1; What powers are your most deadly?

AML-590: Hm... I do have omnipotence, meaning I have every power you can possibly think of, I can name a few.

Dr[REDACTED]: Alright, name 3 of them at least.

AML-590: I am capable of Omnilock. The definition of Omnilock; *Think of it this way; Users reside or can be present outside of everything: space, time, non-space, non-time, duality, probability, improbability, possibility, impossibility, nonexistence, (absolute) nothingness, existence, etc. Due to being outside of all forms of existence, They cannot be affected by anything, even temporal paradox or reality warping; and are immune to virtually everything, even Universal Irreversibility. The power to exist outside of everything. Sub-power of Omnipresence.*

Dr[REDACTED]: Ah, I understand! Any more?

AML-590: Oh yes, I am omnipotent, the definition of omnipotence; Omnipotence is the quality of having unlimited power and potential. Monotheistic religions generally attribute omnipotence only to the deity of their faith. In the monotheistic philosophies of Abrahamic religions, omnipotence is often listed as one of a deity's characteristics among many, including omniscience, omnipresence, and omnibenevolence. The presence of all these properties in a single entity has given rise to considerable theological debate, prominently including the problem of theodicy, the question of why such a deity would permit the manifestation of evil. It is accepted in philosophy and science that omnipotence can never be effectively understood.

Dr[REDACTED]: Ah, understood, by the way, what is that huge crack in the sky, and... why is it purple?

AML-590: Oh that crack, oh yes, I created that, just to prove my reality bending capabilities.

<End Log>

Addendum-590.4: From the author's point of view, they claim AML-590 managed to transcend the entire AML-Cosmology and the library of infinite other concepts and dimensions simultaneously. As seen by AML-590 talking to themselves, and has been recorded.

<Record Log>

AML-590: *I know they're recording this, and they're always watching me, you, Revenant, I know you're hiding behind that screen, DrRevenant may be an avatar of a self-author, you do realize you cannot get rid of me, you do know that right? It doesn't matter, and everyone else that is watching behind that screen. I exist in there, I am in Revenant's backyard right now and he doesn't realize that I can be anywhere I want! As from these Foundation workers' perspective, they don't see the outside world, their world is fiction, as well as The Greater Ones, Xaro Amaterasu, Malthael Tayo Abayomrunkoje, it doesn't matter, I am their true creator. I am "The Creator" and I am omnipotent. I (Pause) I see and know who you are.... Mister [REDACTED]. (Vanishes)*

Note: AML-590 did apologize to the Foundation for acting that way. However, are we truly fiction? What does he mean by "The Outside World"? How is [DATA EXPUNGED].

~ A5, A5-6 - [REDACTED].

Addendum-590.5: DrRevenant was finished with his work, he went to his office to get his bag until he saw some sort of note on his office table. Dr.Revenant did not think much of it, DrRevenant thought it was a note from a friend or an Administrator 5 (A5) personnel. So Dr.Revenant read the note;

Greetings, the avatar of my self

myself-author, Revenant. It's nice to meet you, I know you are afraid of me, do not hide it, every night, you will see me out your window. Don't see me as an evil, all-powerful god, please, do n't be afraid of me, I promise.

~Fuji Suzuki, April 2021

Note: *Dr.Revenant has stopped being afraid of AML-590.*

Addendum-590.6: It has been noticed that speaking about AML-590 would result in other AMLs being frightened. Some reports even describe AML-541, an ex-member of the Greater Ones is frightened and afraid of AML-590.

<Begin Log>

ACI-█ walks up to **AML-541**

ACI-█: Greetings Xeno

AML-541: What is it you need?

ACI-█: Do you mind giving us information about something?

AML-541: Sure?...What do you want to talk about?

ACI-█: About AML-590-

AML-541: O-oh, uh... Fuji? Can I not-

ACI-█: Uh...what is going on... are you

afraid?

AML-541: Haha...ye- no! I'm not, he may be my creator...haha.

ACI-█: Are you lying? Because I can tell you are lying.

AML-541: Yeah, fine. I am slightly frightened of it.

ACI-█: Alright, can I get answers from you?

AML-541: I'd rather not, now get out.

ACI-█: Alright Xeno, farewell.

AML-541: Ugh...goodbye.

<End Log>

Note: *If Xeno is truly afraid of AML-590, does that mean Xaro is afraid of AML-590 too? If so, we could use AML-590 against AML-2845, good one Doctor!*

~A5, A5-3 - █

Addendum-590.7: Due to the recent changes of the world, the AML-Foundation remembered seeing AML-2845 awakening and crash landing on Earth, however, AML-2845 is no longer on Earth, but in a motionless state. Dr █ interviewed AML-590 about it.

<Begin Log>

Dr █: Ah, greetings again Fuji.

AML-590: We met again, doctor. I do know you want an interview with me, so what is it you need?

Dr █: Ah yes, I wanted to ask, what happened to AML-2845? We do remember that AML-2845 landed on Earth and war was about to start. What has happened exactly?

AML-590: Oh, I stopped that reality destroying war.

Dr █: How?

AML-590: Well, you see. I am the one who writes these scripts, I have full control of the entire AML-Cosmology. This is what we call Plot Manipulation: The definition of Plot Manipulation is the ability to control the plot itself. Examples include altering the plot, creating/destroying stories, changing speech bubbles, changing the setting, etc. It is a variation of Reality Warping.

Dr█: Wait, hold on. You see our world as fiction and...

AML-590: Correct, I am not following the plot outline written by a self-author, who is bound to exist beyond Fiction.

Dr█: This is a lot to take in, but, how is our world fiction, are there infinite dimensions or something?

AML-590: Not necessarily, you see this as all real, authors and myself see this as... like a comic which we manipulate. Ugh... you look really sick, I'd suggest having a rest.

Dr█: Oh, uh. Sure, goodbye Fuji.

AML-590: Have a good rest, doctor.

<End Log>

Note: So...AML-590 is capable of Plot Manipulation?... It seems like it.

Addendum-590.8: AML-590 was the cause of some of the recent disappearances throughout history and AML-590 was the main reason to cover and answer the most mysterious events in history.

<Begin Log>

YY/XX/1888	AML-590 was the cause of finding the murderer Jack The Ripper in 1888, causing Jack The Ripper to be arrested and to be taken away	Moderate
7/30/1975	AML-590 was the cause of finding Jimmy Hoffa after his disappearance on July 30th,	Moderate

YY/XX/██	AML-590 has covered the reason for Altantis' existence and cosmology around it. AML-590 also discovered that the next volcanic explosion will be ████████.	Severe

Note: *The rest of the events are [REDACTED].*

Addendum-590.9: As of █████/██/2021, AML-590 changed its appearance numerous times, the current form of AML-590 is a tall white entity with wings

Instances of AML-590's currently form

Note: *This is AML-590's current form as of now.*

Description-590.2: AML-590's current form is a tall humanoid entity, roughly 11 meters in height, the entity consists of two different coloured wings. According to AML-590, its entire body is made out of a dead star which created a supernova named [REDACTED].

AML-590 shows this material that its body is made from, however, its durability is way higher.

Addendum-590.10: [DATA EXPUNGED]

Addendum-590.11: AML-590 is capable of creating everything, including things that are genuinely impossible to create, such as a squared circle. AML-590 is capable of manipulating and transcending entire infinite narrative worlds. It has been confirmed that AML-590 is the Creator of the entire AML-Cosmology and that AML-590 has single handedly created the concept of "AML".

Addendum-590.12: In one of the instances, AML-590 took the form of multiple subjects, one of the instances was in ██████████.

Instances of AML-590 taking the form of a human being. Context Unknown.

Update-590: AML-590 is capable of taking multiple appearances, such as AML-590's own self-author Revenant, however, DrRevenant is an avatar of a self-author.

Note: *AML-590 has been taking the form of multiple humans and AML-590 was the cause of some mysterious and unanswered pictures.*

Addendum-590.13: As of ████████/22/2021, one of the Administrator 5 (A5) has disappeared without a trace, the Administrator 5 (A5) was confirmed dead due to an unknown cause, there was only a letter which described the situation.

April 2nd, 2021.

I am in some woods, I do not know where I am currently, I just see AML-590 following me, I am running but can't get far. It feels like reality is not bound by my existence. Why can't I feel my body? Help me...

~Administrator-5.

Note: AML-590 was the cause of the Administrator 5 (A5) disappearance due to the Administrator 5 (A5) insulting its nature. [REDACTED]

Addendum-590.14: AML-590 is capable of bending the laws of reality and physics, due to this, AML-590 is not bound by any means. AML-590's sheer existence is bending the Space-time continuum. AML-590 exists in every reality, timeline, concept and any point of existence. However, it has been [DATA EXPUNGED].

Addendum-590.15: Interview log

<Begin Log>

ACI-█: Oh hey there Fuji, how are you feeling today?

AML-590: Unpleasant to say the least.

ACI-█: Why is that?

AML-590: You see, I have been feeling quite unhappy recently and quite lonely.

ACI-█: It's fine, we can give you company after this interview.

AML-590: Sure.

ACI-█: I will question you only about other AMLs and entities.

AML-590: (Yawns) sure, go ahead.

ACI-█: What is your opinion on AML-541 or AML-2845?

AML-590: Hm... Xeno is a kind ex-member of the Greater Ones, nonetheless, they like talking to me and they are like a noisy baby most of the time. AML-2845 is a whole different story. Xaro is a lazy god who doesn't do anything but sleep, however, once awakened, Xaro goes around and destroys shit for a few years until Xaro falls asleep again, very stupid of em'.

ACI-█: Understood, what about AML-666?

AML-590: AML-666 is boring, no goals, just destroy and become the king "he always should've been". Ugh, he is annoying though.

ACI-█: I can understand that, what about..... AML-4181?

AML-590: AML-4181 is quite interesting, AML-4181 is death itself, collecting souls and usually perfectly evil.

ACI-█: What do you mean by "perfectly evil", why the fuck?

AML-590: AML-4181's main goal is to collect souls, it has a purpose, unlike AML-666.

ACI-█: Uh. Sure. What do you see currently?

AML-590: Someone behind you, watching us, with headphones and looking at his phone.

ACI-█: What?

AML-590: I see outside of your world, this is all fiction to me, the man behind you is a self-author, he cannot harm me. I

created myself and not Revenant.

ACI-█: Yeah... I'm going now,
goodbye...?

AML-590: Farewell.

<End Log>

Addendum-590.16: AML-590's most mysterious quote is still unknown to this day on what it means, the quote said; "Beings who lost everything to gain anything, the power of transcended past the layers and seek the path of Fuji Suzuki, to meet their Creator". Nonetheless, the true means of this quote cannot be [REDACTED].

Addendum-590.17: AML-590-B is described as an infinite void dimension, which is completely black and where time does not exist. Should AML-590-B be explored must have the approval of at least 2 Administrator 5 (A5) personnel, however, there is a white stairway which is made out of light, there are around 17 - 22 stairs in the stairway. On top of the staircase is an extra-dimension tree, which contains infinite concepts (AML-590-C) and narratives; the extra-dimension tree is referred to as The Creation Tree, AML-590-D.

Instances of AML-590-D

Note: *AML-590-D cannot be damaged by any means, or even touched due its Intangibility. Only AML-590 is capable of destroying AML-590-D.*

Addendum-590.18: ERROR-404 Not Found. Addendum-590.18 cannot be accessed due to a virus. This following addendum will not be fixed, only Fuji can fix it

Addendum-590.19: One of the administrators has interviewed AML-590 for another time.

<Begin Log>

A5-█: Greetings once again Fuji, may we interview you once again?

AML-590: Go ahead.

A5-█: Alright, are there any beings above you, or is there anyone who can beat you.

AML-590: (*Takes a deep breath*) Alright, let me explain, get a note or something.

A5-█: Alright then. (*Grabs a notebook*) Now explain.

AML-590: There are no beings, nor entities who are above me. Regardless of what concept of non-existence we're talking about. Type 1, 2, 3, infinite, whatever. No being is above me, regardless of their power level. Whoever the God, entity, creature that gets created. I am the entire concept of good and evil, everything that is good and evil are bound by my powers and they cannot change it. I am an omnipresent entity that can interact with multiple concepts of the Foundation. I can appear in any shape of form, but mostly humanoid forms. I describe myself as a devastating infinite-conceptual anomaly that can alter antimatter, and everything within existence. I am the limit within all anomalies power limit, nobody can surpass my conceptual and omnipotent power. I am the beyond omni-dimensional omnipotence, *the beyond omnipotence entity that surpasses all possible and impossible cosmological narratives. This instance is called "The Beyond Omnipotence" scenario, which is exactly me. I always get stronger by the second, I am the person behind the screen.*

A5-█: Dang, understand sir, well uh...

AML-590: I went a little too far, that is just a little bit of information and things I can do. Can you leave please, I am getting a little uncomfortable.

A5-█: Alright, sure. Farewell.

AML-590: Mhm.

Addendum-590.20: *Research doctor Matt Andrew was going out for a walk after a day off, until Matt ran into AML-590, not so much in a great mood so Matt approached AML-590.*

<Begin Log>

Dr.Matt: Oh, greetings AML-590, I see you are now in a great mood. May I ask why?

AML-590: Oh, hello Matt, long time no see. To answer your question, yes, I am not in a great mood.

Dr.Matt: And why is that?

AML-590: *(Takes a deep breath)* Sure, I will tell you.

Dr.Matt: All right, go ahead.

AML-590: So, as I said, I created basically everything, from existence, creation and whatever. *I never told you my first ever creation, it was AML-001 - The Omni-God, as Dr Dust interviewed AML-001, he claims that he helped me create all of existence, but he did not. AML-001 just helped modify humans and that is all, but him creating all of existence is just simply false. Which really angers me that he'd lie about such a thing.* Kind of bullshit if you ask me, don't mind my swearing.

Dr.Matt: Oh, I see.

AML-590: Ugh, anyways, what else you have to ask me?

Dr.Matt: Oh uh... I just came here to check up on you since you looked mad about something. Also, what do you think of AML-001 - The Omni-God?

AML-590: *(Silence)*... Well, AML-001 is pretty angry most of the time. AML-001 usually views my tree for entertainment purposes. AML-001 usually tears one of

AML-590-C's due to it being annoyed or something. I really don't care.

Dr.Matt: Oh, who and what is AML-001 then?

AML-590: Well, AML-001 is an omnipresent infinite conceptual entity with nigh omnipotence and the basically the one who manipulates The Greater Ones, AML-001 views itself as the most powerful being, but AML-001 is still bound by my power. And I don't need to explain more, just read it's file.

Dr.Matt: Oh, alright, I'm getting late for my family meeting-

AML-590: Alright, farewell.

<End Log>

Addendum-590.21: AML-590 appears to own a diary, which it will be referred as AML-590-E. The diary is a 200 page notebook that was used by AML-590 multiple times, it appears that there are a few pages written by AML-590.

Note: *Permission has been granted by AML-590, to use the diary for just extra information.*

Page 1

April twenty first, 2021

Dear diary, a tragedy has happened to one of the personnel and then in real life. The tragic event of Zaheid Ali really hurt me and Revenant, and everyone that has ever known Zaheid, also known as "GamerboyAli", I miss him, my power would change events in real life if I took action. I must say that it hurt me mentally. And AML-518 has disappeared along with him. Rest In Peace my dude.

Page-1

Note: It appears that AML-590 is very aware of what is happening between the "Real world", and AML-590 somehow is aware of what happened to Doctor GamerboyAli.

Addendum-590.22: Inspection on AML-590-E has still been investigated.

Page-2

April twenty-second, 2021

I am getting annoyed to explain all this, laziness from the readers is getting too annoying. I must say that they always find some sort of way to 'try' to bring me down. However, I am still an omnipresent transfinite-conceptual entity that is capable of interacting with all forms of realms, including real life. I am beyond fiction, or as the Foundation sees iz as "real life". I really wonder, how does it feel to fall asleep, and never wake up...?

Page 2

Addendum-590.23: Further investigation on AML-590 proves that AML-590 has created AML-3812 for it to watch over the AML Foundation. Due to this, AML-3812 gave the Foundation information that AML-590 is peta-physical and it is not bound by plot, nonetheless, AML-590 can cause a QK-Class - "Omnidimensional End Of Plot" scenario within a [DATA EXPUNGED].

Second instance are AML-590 creating and interacting with AML-001 - The Omni-God, accordingly, AML-590 and AML-001 are usually not sociable with each other due to AML-001 hating AML-590 by unknown means. When asked, AML-590 simply ignores the question and does not talk about it, [DATA EXPUNGED].

Addendum-590-24:

May-27th/2021:

There has been a loud earthquake, cause was unknown, millions of deaths happened and lots of AMLs have been terminated, and AML-590 seemed worried. The Foundation sent multiple personnel to interview AML-590 about the situation.

<Begin Log>

A few AML staff approached AML-590, with guards following them for safety reasons.

Staff: Oh AML-590, thank God you are here.

AML-590: Greetings once again.

Staff: You seemed a little worried when that earthquake happened, what caused it? It was more powerful than something AML-2845 would cause...

AML-590: ...

Staff: Pardon...? Are you alright, Fuji?

AML-590: Something that is too deadly, Agarus is trying to escape, he managed to break another chain, this was one of the more powerful shockwaves, Agarus managed to destroy some concepts.

Staff: Wait... Agarus? Who could that be?

AML-590: An entity who is sealed away by me, Agarus is in the middle of the AML-590-F - The Forest of Trees of Existence (AML-590-D), that thing is too deadly for anyone, *he must serve peace*.

Staff: Then why don't you stop him?

AML-590: *(Moment of silence)*

Staff: Did I say something wrong...?

AML-590: No, you did not.

Staff: Can you answer my question then?

AML-590: Er... Uh... I do not like destroying my own creations, it is not my style. If I really have to fight, I will. It is like child abuse for me, you know?

Staff: Oh, I understand sir.

AML-590: Thank you for understanding, I appreciate it.

Staff: Well, my pleasure I guess...

AML-590: Now, could you do me a favour and leave? I am not in the mood currently

Staff: Oh, my apologies, farewell.

AML-590: Sayonara.

<End Log>

Addendum-590.25: Due to recent changes of reality, AML-590 has changed appearance and switched it back fast, the Foundation got suspicious of the unusual change.

<Begin Log>

Staff: Oh, greetings again Fuji.

AML-590: Greetings.

Staff: So, a few days ago, we saw you switch appearance and stuff, what was that all about?

AML-590: What exactly do you mean-oh wait a minute.

Staff: Yeah, you looked like a human.

AML-590: Oh...

Staff: So what was that all about?

AML-590: Well, I have been hiding something from all of you, my true self, true identity or true form as they say.

Staff: Pardon me? You have a true form...!?

AML-590: Precisely, I was just using it to relax, once in my true form, I became the one behind the screen, living my own ordinary life, I became the one who is

the embodiment of every author. You may see your world as the real world, but trust me, this is nothing but just fiction to me, the real world is just me who has gained access to it and being here is a lot more fun than back home... I understand this is too much for you Foundation to handle, but believe me, I am more happier here than being tortured back in that world.

Staff: Huh? Can you tell me more?

AML-590: I would rather not, now could you leave?

Staff: Oh yeah, sure. Bye...

<End Log>

Addendum-590.26: A paper airplane was flown by the Foundation, it took the attention of a personnel and opened the paper airplane. It was some sort of note, from AML-590...? It must be important.

Front Page

Hey, it is me, Fuji Suzuki. Yeah...

Let me tell you something doctor, it is about the threat that Agarus poses. Agarus is a deadly entity I created, I am responsible for creating him, Agarus is the most powerful threat, more powerful than AML-001 - The Omni-God, AML-2845, AML-003, The Overseer and every entity that has been created. Agarus was powerful enough to knock out AML-2845 a long time ago, and it barely escaped alive, and AML-2845 was at its peak of power level. A million years ago, AML-001 noticed Agarus, and when they fought, AML-001 escaped and was harmed too much. So I had no choice, but to seal Agarus away.

Backpage:

To be honest, I definitely was not having that in plan. If Agarus breaks those chains, I might have to

fight, regardless of what power I must use. Nobody will destroy my masterpiece, even Agarus will not ruin my temporary happiness.

~ Fuji Suzuki

Addendum-590.27: Researchers have been researching the work and bounds of the universe and infinitely large AML-590-D, according to AML-590, it explained the entire AML Cosmology or what AML-590 wants to tell the Foundation.

AML-590: Well, your dimension is practically contained within the universe, each dimension contains all of space and time continuum. Our universe is practically infinitely large and it scales a few layers into outerversal level, within the multiverse, there are practically infinite universes contained within a single multiverse, each universe that scales higher into outerversal. Searching deeper in the multiverse, there are infinite dimensions contained in a metaverse, and the metaverse contains infinite multiverses, so we can say that infinite dimensions are bigger than a multiverse, the metaverse seems large, but it is nothing compared to others. There are practically transfinite metaverses contained in a Gigaverse, which passes way beyond anything and everything. However, there are infinite Gigaverses contained within Teraverse, which most entities lose their restrictions. This is still small to our cosmology, furthermore, there are infinite Teraverses in a Petaverse, this is mostly the bound of most godly entities, such as [REDACTED]. In our consecutive cosmology, there are infinite Petaverses in an Exaverse, the most common power level for every entity, but a few surpassed it. However, there are infinite Exaverses contained in a Zettaverse, nothing too special. There are currently beyond infinite Zettaverses contained by a Yottaverse, and then there are infinite Yottaverses in a Archverse, this is mostly weaker Elder Gods' power limits are, but they are a lot stronger than you think. Then, there are infinite Archverses contaminated in a Macroverse, the most powerful of the lower ranked Elder God's power level. Then here come the 'famous' ones, there are infinite Macroverses inside of a single Hyperverses, this is a limit for a very few entities, those who surpass these are impressive, but not all-powerful. Then, at the very least, there are transfinite Hyperverses inside of an Outerverse, the main reality of the AML Cosmology. That is still not the end of it, there are approximately infinite Outerverses contained in Omniverse, the power limit for higher ranked Elder Gods, or even some Greater Ones such as AML-541 and a few more. Then, there are the heavens and hells, which are above and below the omniverse, the place where

terminated entities' souls go after death. All of this that I have explained are contained in a single narrative, and there are transfinite narratives, each of those narratives view the previous narrative as fiction, nonetheless, there are transfinite narratives contained in a sub-narratives, and then there are infinite of them in a single AML-590-C (The Concept). All I can say, there are infinite AML-590-C's contained inside of a AML-590-D - The Tree Of All Existence, which no entity, except a few have managed to transcend. And all of these AML-590-D's, which are infinite, are only contained in an AML-590-F. And that is just a sample of how large our cosmology is, and I am too lazy to explain even more, so that is where I will keep it.

Addendum-590.28: Researcher ordered a mission with a interview with AML-590, for more information for every AML that has been captured by the Foundation, those AMLs are:

- AML-14X0
- AML-4181
- AML-474
- AML-476
- AML-475
- AML-001 - The Hell's Guardian
- AML-001 - Trapped Evilness
- AML-000
- AML-001 - The Omni-God
- AML-2666
- AML-666
- AML-010
- AML-3434
- Agarus
- The Greater Ones
- The Elder Gods
- The Archangels
- AML-395
- AML-003
- AML-2845
- AML-023
- Omenoko
- AML-015
- AML-7000
- AML-3812

What AML-590 thinks about AML-14X0 - "AML-14X0? That entity is quite impressive to be honest, it was one of the first godly entities I have created, but I firstly created Elder Gods, Greater Ones and whatever. AML-14X0 nearly destroyed the heavens due to how annoyed AML-14X0 really was. I do not blame the entity, those Archangels could really be annoying once they go to heaven."

What AML-590 thinks about AML-4181 - "Ah, the avatar of Death itself, possibly the thing to keep the balance between life and death. AML-4181 is possibly one of the strongest entities I have created, it may rule Hell and the underworld, and it has the willpower to destroy it. AML-4181 is one of my favourite creations, it may be evil but it has one goal, to take the souls and bring them to either Heaven or Hell."

What AML-590 thinks about AML-474 - "Hm? The rainbow god? I really enjoy watching that thing in action, it is pure entertainment for me to watch. AML-474 has also created AML-476, which is quite impressive viewing more great AMLs coming. Moral of the story, AML-474 is basically nothing but entertainment for me, it may have destroyed a few verses, but that is no big deal."

What AML-590 thinks of AML-476 - "The colourful titan, the son of AML-474. The friendly titan that guards his own island. The entity that the Foundation uses to contain newer entities or recontain the previous escaped AMLs. Honestly, the author did a great job creating AML-476, it is impressive to watch **AML-476 battle AML-7000**, the fight was **legendary** indeed. Wish to see that thing win the war against the AML-7000 species."

What AML-590 thinks about AML-475 - "The son of the titan if I am not mistaken, AML-475 is the child of AML-476. It was originally found in some farm, and to me, I do not dislike it. Additionally, it is born by the colourful species, meaning it is capable of supernatural capabilities."

What AML-590 thinks of AML-001 - The Hell's Guardian - "Eh, the fallen archangel? The one who guards the infinite types Hells with different narratives. No wonder why it was punished to guard hell. Even AML-001 - The Hell's Guardian's true form has broken the boundaries of hell and narratives, and managed to surpass the all-evil being such as AML-001 - Trapped Evilness..."

What AML-590 thinks of AML-001 - The Trapped Evilness - "The all-evil god, the sheer existence of the Trapped Evilness is powerful enough to warp the concept of non-existence, the Foundation really does not know the true nature of the avatar AML-001, I am quite interested on what it will do once it [REDACTED]."

What AML-590 thinks about AML-000 - "The toy, cursed toy I guess. The nigh-omnipresent extra-dimensional toy created by Krampus itself, listening to the song will kill you by AML-000-2, it is powerful enough to break through dimensions, but it strikes fear into some Elder Gods for some reason."

What AML-590 thinks about AML-001 - The Omni God - "Ah, he might have been my assistant and my first ever creation, AML-001 is still a great person, even if we do not talk much to each other, I believe that AML-001 will be the one to defeat Agarus, if it fails, I must interfere."

What AML-590 thinks about AML-2666 - "Uh... Honestly, that cursed child kidnapping yule guy and his worshippers are too repetitive, the fact that AML-2666 is that powerful is really interesting, the fact it can create beings so powerful is very...very concerning. It managed to become a myth and a feared thing in the real world, how delightful."

What AML-590 thinks about AML-666 - "The fallen emperor of hell, the dawn of the emperor who fell of his throne, the one who keeps getting stronger, transfinite gods falls to AML-666's might, the one who rules over infinite hells and the ruler of realm, the one who will not fall except for Elder Gods, Archangels and many other gods... The king that will vacate its throne, I highly doubt it, to be honest."

What AML-590 thinks about AML-010 - "Geez, I never realized this day would come, the fake omnipotent godly being. It is quite embarrassing to see that thing claim it has gained omnipotence, I really do not care about that thing, it may have transcended AML-590-C, but it will never transcend the tree, if it does, I will be annoyed. The omnipotence this thing gained it imprehonible, really pisses me off."

What AML-590 thinks about AML-3434 - "Eh, that thing just has no apparent purpose, just to kill and destroy Earth. I have wanted that thing to stop destroying existence, it managed to sneak by transcending a few narratives, other than that, AML-3434 does not cause big problems to the Foundation."

What AML-590 thinks about Agarus - "The main threat to all of creation, the boundaries this thing's sheer existence has caused, if it breaks the last chains, I will have to interfere in physical combat. **It will serve peace, it must serve peace among the creation**, it is the least it can do. Agarus' power may overpower AML-001 - The Omni God with a couple of punches and attacks, it will still remain powerless against its creator... *It must serve peace*"

What AML-590 thinks about The Greater Ones - "The group of the most powerful Gods, each obtains omniloc where their existence is above everything, the supreme judges of the AML Cosmology. All these Greater Ones are led by the supreme deity that will soon obtain full control of its powers, and potential so great it makes Cosmologies out of existence, the one, Xaro Amaterasu, aka AML-2845. The supreme deity of the Greater Ones, [DATA EXPUNGED].

What AML-590 thinks about the Elder Gods - "The deities of the AML-Cosmology, the Elder Gods who serve AML-001 - The Omni God. Kinda bitchy out of AML-001, but I do not want to get involved in it. Hopefully AML-001 stands a chance against Agarus once it is released from its chains, maybe even AML-001's final form will be nothing for Agarus, I guess, so I am guaranteed to be involved."

What AML-590 thinks about the Archangels - "The minions of Elder Gods, they are the knights and warriors in the Heaven realm, they are powerful enough to tear apart millions of universes and maybe even a multiverse, it is enlightening, to be honest. The AML Cosmology may be large, but [REDACTED]."

What AML-590 thinks about AML-395 - "The omniscient godly entity that is mainly used for recontaing other AMLs such as AML-474, but it was a failed subject. After AML-395 saved it's document from the corruption of Agarus, it has broken the boundaries of narratives and transcended beyond the heavens. The mind of a god in an Earth guardian."

What AML-590 thinks about AML-003 - "Oh my, the Book of nigh-omnipotence, the right hand man of Agarus, really thinks it can fool me, but you cannot fool the Creator. I am aware of Agarus' evil plan. That book is cursed, do not even open it, do not touch it, it will ruin you."

What AML-590 thinks about AML-2845 - "The leader of the Greater Ones? Oh please, such a good leader would be conquering his own comrades to obtain true potential is selfish, but it lives up to its name to be all-powerful, it managed to transcend the entire AML-Cosmology and the library of infinite other concepts (AML-590-C). Impressive, very impressive..."

What AML-590 thinks about AML-023 - "Oh Christ almighty, that thing is fucking huge. It is to the atmosphere of the Earth, it is the reason of a lot of wars happening, due to AML-023 getting angered easily, which causes a lot of war, AML-023 managed to grab the Moon, wait, it grabbed the Moon threw it, Earth managed to survive the impact, but millions of death happened."

What AML-590 thinks about Omenoko - "The tragic origin of the poor guy, Omenoko's family was slaughtered by Zrator, however, when young Omenoko was born, Zrator did not slaughter young Omenoko for an unknown reason, but the parents did not live. And then Omenoko joined me, the light. After it was born in the darkness, it joined the light."

What AML-590 thinks about AML-015 - "The non-physical mafia boss, the unpredictable force of nature, even AML-666 cannot see AML-015's speed, the gun is so powerful, it can destroy godlike entities with ease. The Intelligent ghost has tricks up his sleeves, interesting to me."

What AML-590 thinks about AML-7000 - "The species against the rainbow titans, the other opponent, the species barely superior against the colourful titan species, maybe in power, but not in Intelligence. AML-7000 species are powerful enough to tear cities apart. And powers so powerful, it can destroy planets, the war against the two races will be extremely fun to watch."

And then finally, what AML-590 thinks about AML-3812 - "Well, AML-3812 is a tall humanoid entity with white aura that is not bound by a single entity, subject and everything, AML-3812 is only bound by me. AML-3812 is not bound by space, time, death, narratives, sub-narratives, the Founder's book/tale and even Agarus. However, for some reason, AML-3812 trapped the eternal criers in the loop of time due to the eternal criers wanting to cover the in-verse and out-verse of the AML-Cosmology in misery and darkness. AML-3812 is far beyond infinite planes of existence and non-existence, meaning AML-3812 views AML-474's lightness transformation, AML-4181 and everything below AML-3812 as ants. [DATA EXPUNGED]."

Addendum-590.29: AML-590 changed appearance 6th of June - 2021. Recent changes in narratives and other worlds have changed drastically.

Instances of AML-590's new appearance, the presence is majestic, the force is too great for any author to handle.

Optical Description-590.3: *AML-590 appears to be a tall humanoid anomaly that is interacting with multiple realities and world, a world below this one, and below that one... and above and below of all worlds, AML-590 views in all realms and interacts with multiple worlds, even "real world" that is unaccessible by the AML Foundation. AML-590 is a presence that can only be met by near death experienced subjects, and can no longer be interviewed due to unknown reasons. AML-590 appears to be in a purple aura that cannot be even touched by anything, anyone, everything... AML-590 is seen to have multiple wings, depending on the subject, many of whom view AML-590 having multiple wings, somewhere from 2 to 18 wings, it also appears to wear a bright crown holding multiple creations. Do you see that...?*

... I see you... you can't hide from my sight... better luck next time, **God**.

Note: *AML-590 has created the spiral upwards boundlessly. Infinite alephs of power, then infinite other alephs of powers. And Agarus and Chronovor have transcended the Nigh Omnipotent race. Race containing infinite conceptual cosmic gods that are nigh omnipotent viewed by many. AML-3812, look in the sky to see the dark light, the one to defeat Agarus. It must serve peace...*

Addendum-590.30: The interaction of the real world is one of many Foundation's goals, they ran into a group of AML-590 followers.

Who are you guys? Oh wait, you guys are the Foundation that is researching AML-590. Have you heard of the worlds below ours, and the one below that, and the one below that one, and there is a world above ours, and above that one and self explanatory, too complicated to explain. But it is watching, our God is our saviour. Fuji Suzuki is love, Fuji Suzuki is

God. He far exceeds our power and imagination, he created that too. **We must serve peace.** We may be aware of what has happened to Doctor Dust, he may be terminated but Fuji Suzuki is still aware of that.

Note: *This is getting too confusing for us. World on top of worlds, words beneath worlds? Too much for me dude.*

As the question stands, why did AML-590 create AML-3812?

Answer by the followers:

We get our message by Fuji Suzuki, the one who gives us the lead. If you are wondering why he created Zenith, he told us these exact words: "I created Zenith, or how you, my children, call it, "AML-3812", because I needed someone to give me a hand. Once Agarus escapes, I'll need someone to help me take it down. That is not the only reason, I also created Zenith because I need to make sure everyone behaves correctly in this world. So, I gave Zenith that job, to watch over Perfection."

Origin:

At the beginning, there was an infinite void dimension where only AML-590 existed. AML-590 couldn't think, AML-590 couldn't move, AML-590 couldn't look and this bothered AML-590 a lot.

AML-590 was unhappy.

Soon, AML-590 could move, later AML-590 could think and then AML-590 could look. AML-590 decided to explore the infinite void dimension, a few trillions of years past and AML-590 was still unhappy. AML-590 did not know what to do next, AML-590 was lonely.

AML-590 thought of an idea to create existence/creation. First, AML-590 used its powers to create light and dark, to give each AML-590's creations some

atmosphere. Secondly, AML-590 created molecules and atoms, chemistry reactions and resistance, creation was coming along. Thirdly, AML-590 created liquids, gases, waves, physics, particles, matter and of course energy. Fourth, AML-590 created demarcating planets, stars, void and the singularity, space and time continuum. Lastly, finally, AML-590 granted immortality, essence, demarcating the mind and soul of each and every living being, pain, joy, sadness, love and hate and death.

However, AML-590 thought about something, creation missed one last thing, life/existence. Though AML-590 created everything and anything alone, all of AML-590's hard work was appreciated by AML-590.

AML-590 was proud.

AML-590 created life, authors, writers and all of existence.

It took quadrillions of years for AML-590 to create infinite concepts of existence, creating each layer of narrative and AML-590 created universes, multiverses, hyperverses, metaverses, outerverses, omniverses and boundaries of power. Everything was finished, but it was missing one thing, colour. AML-590 put colour to creation and AML-590 was finally finished creating existence.

AML-590 was happy.

AML-590 has been watching creation evolve for [REDACTED] years, it made AML-590 proud. Soon, AML-590 has been watching humans grow specifically for millions of years. AML-590 was proud of Albert Einstein, Nicola Tesla and the human race specifically.

AML-590 lived alone and was sad for too long.

Creation was appreciated.

Creation was happy.

Creation was starting to grow.

In AML-590's opinion, creation is perfection.
