

## **A Guide to the Eighth Doctor Big Finish Audios**

This is a timeline that was adapted from the timeline at the Tardis Wiki at [fandom.com](https://tardis.fandom.com). I know of the controversy with Fandom, but Fandom is just easier to read for me. As of typing this, this only covers Big Finish releases up to 2024.

For frame of reference, the television stories are also listed. *The TV Movie* has an audiobook of the Target Novelization at [audible.com](https://www.audible.com). The mini episode *Night of the Doctor* is currently unavailable in audio form.

## **Part 1: The Company of Friends and Mary Shelly**

From 1996-2005, the majority of the 8th Doctor extended universe were viewed as three separate continuities. These were the EDAs (Eighth Doctor Adventure novels), Doctor Who Magazine (with the Eighth Doctor comics), and the Big Finish audios. Merging these into one timeline, the general rule is that the novels come first, followed by the comics, then the Big Finish audios. This isn't universally the case as some of the comics occur before some of the novels.

Which brings me to *The Company of Friends*, this was an one-off release featuring companions from the EDAs, comics, the 7th Doctor VNA novels, and Mary Shelly. Yes, that Mary Shelly. There were four stories
