

Professional Staff Person of the Month

January 2025

Janneke Strickland - (Lead) School Nurse - Cascade Brook School

Janneke, our lead nurse, is an invaluable resource for our district. She's consistently available to answer questions and provide crucial support to fellow nurses. Her assistance with the middle school's SNAP parent portal rollout has been instrumental. As the SNAP administrator, she quickly arranged a virtual meeting to address admin settings and dedicated extra time to an after-school training, ensuring a smooth transition.

Beyond this, Janneke's diligent review of immunization protocols, in collaboration with the assistant superintendent and other nurses, has led to refined processes and improved communication strategies. The new parent letters drafted will ensure clearer and more proactive communication.

Her expertise, leadership, and unwavering commitment to student health have a significant impact district-wide. As our nurse leader and administration liaison, Janneke is a wonderful advocate and a reliable source of information. She's also been a powerful advocate for our professional development, securing approval for nurse-specific staff meetings, a game-changer for our practice. Janneke's dedication and accessibility make her a truly exceptional member of our team.
