Wednesday, April 19

- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo

### **SOLAR ECLIPSE HYBRID IN ARIES from 6:34 - 11:59 pm PST**

### **New Moon in Aries at 29° begins at 9:12 pm PST**

- **Do what YOU want** to do by consulting and honouring your inner voice
- **Focus on passion projects** and hobbies that bring you joy to reignite inspiration for your individual path and purpose
- **Try something new** that you've been afraid to pursue but know would help you grow and level up in your business, start a new trend!
- **Tap into your creativity** in a child-like way by having fun and letting yourself be wild with the things you love most
- **Waning Crescent:** Low key, reflective and inward energy
- **New Moon:** Low energy, purging and planting seeds, new beginnings
- **Solar Eclipse:** Chaotic energy that can bring unexpected events, breakthroughs and discomfort that tests our limits.

This is the second new Moon in Aries occurring consecutively this year, with the first occurring last lunar cycle at the beginning of Aries, and this occurring at the end, combined with a hybrid solar eclipse, we are really feeling the heat and intensity in our lives right now.

New Moons mark beginnings, and when we have a new moon occurring in the same sign twice in one year combined with an eclipse, especially in the sign of Aries we may feel like we've been pushing ourselves (or been pushed by external circumstances) to go beyond our capacity. Like a marathon run that just

doesn't seem to end, and we're trying to keep the pans hot but not burn down the house in the process.

Have you been burning the candle at both ends? Are you in a second wind where you feel that even though you were just about to drop you have had a sudden influx of energy seemingly out of nowhere to sustain you?

This isn't the energy to do another round the speedway but more an energy to wrap up what you started the last cycle, to create some closure so that you can benefit from all your hard work. And while new moon periods often mark the beginning of new projects, it appears that life sees that we just need a little extra burst to finish up, and it's giving us a bit more leeway to do so. Be careful that you aren't relying on sugar, energy drinks, sugar, or caffeine to keep you going through this, even though we are being asked to do a bit more we need to monitor our adrenals and take care of ourselves in the process. you don't need to get more wound up, you just need to get excited about finishing. Under arise we can accomplish a lot, but we need to be really specific about where we target this burst of energy so that we can make the best use of it, also make sure you aren't starting or involving yourself in unnecessary fights you'll be feeling a bit more frayed than usual and with the lack of rest may find you are more inclined to bite someone's head off than make progress in dynamics that frustrate you, instead keep your head down and focus on what's in front of you, you'll feel more efficient and have something to show for it at the end.

See the Eclipse Listing for a separate forecast on this eclipse.

Tune into what money-making activities you need to accomplish right now and pour your sacred love and energy into them.

**If you're low energy/in a self-care mood:** Make small little steps rather than trying to chew off a big piece of your to-do list. Also, make a point to ask yourself

Thursday, April 20

**New Moon in Taurus - All Day**

**Sun in Taurus (April 20 - May 21, 2023)**

Taurus Focus: Slow building, micro rewards, routines, habits, food, luxury, gifts, templates, bonuses, sales, high-end products/services, chocolate, sugar, done-for-you, business, income, skills, creature comforts, easy, step-by-step, dopamine, immediate gratification, laziness, working from home, homebody.

The Sun rules our physical vitality and natural energy flow, and in this case, it highlights a specific area of our lives and businesses where we (and our community) will feel naturally drawn. So it only makes sense to use it for goal setting and theming our marketing out in one-month cycles.

The Sun first moves into the sign and then within a few days, we have the Moon join the Sun aligning our emotions with our physical vitality beginning the one-month lunar cycle.

Where the Moon sets the stage for task planning, and emotional energy (both mental and how we're feeling) on a daily level, the Sun sets the stage for the one-month container that we're working within. The Sun Is the Macro while the Moon rules the Micro (the daily tasks that will help you get there).

In this case with the Sun moving into Taurus, we can expect that our energy will slow significantly from what we experienced with the Sun in Aries. This is a time to begin going at your own pace and to take things one step at a time. We won't feel super motivated for new adventures, or big changes, making this a non-ideal time to implement new rules, routines, diets, or any other big changes.

but that doesn't mean it can't be used well. Under Taurus energy, we're stubborn and set in our ways, so this can actually be a great time to stick with what you already have in motion. If you do have to do new things or have a big project on the horizon the best way to address it is to break it into much smaller chunks and build in micro rewards throughout so that you stay on track.

It may not be flashy or new, but it will stabilize you and keep you steady as you build out the rest of your business goals through this year. This is also the best time to offer any programs, services, or offers that involve done-for-you services, luxury products/services, templates, savings, bonuses, or limited supply.

When the Sun moves through Taurus our focus is on living more fully in the lives we have, about taking what we currently have in our lives and growing it, making it better, and increasing our comforts and security. It is about moving from surviving to thriving, about building a strong, long-term foundation where we can not only see things grow but also enjoy ourselves and really live a good quality of life. Here our focus is on physical things, finances, structures, systems, and strategy. How are we going about what we're setting out to do? Is it grounded? Is it sustainable? Does it bring us joy?

This is a period of work, but it comes with the reminder that you're writing this story, you're setting the stage and you can create the rhythm by which you work and how you do things. That's a big part of the fun for Taurus, so let yourself get creative with the pieces that you can during this period, play with them, move things around, try things in a new way and see what feels right. Much here will be decided by the gut test - how does this feel for me? Let yourself experience, and then make up your mind.

### **Sun Square Pluto**

☉ ☐ ♇

This aspect is a heavy-duty one where our ego is questioned, challenged, and torn down if we've been clinging to it unnecessarily. Ego serves a purpose but runs us into big problems if we aren't practicing self-awareness. Know what part

of yourself needs to be discarded to make room for more authentic expressions of your personality, this process is like distilling your essence into fine wine.

Friday, April 21

**Void Moon begins at 8:41 pm PST (Taurus to Gemini)**

- Emerging out of intense productivity and solitude towards socialization
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Earth to Air** = Introducing flow and balancing heavy with light energies

**Mercury Retrograde in Taurus Retrograde (April 21 - May 14, 2023)**

15°37' - 5°50'

This is the second Mercury Rx through Taurus, the last one occurred between May 10 - June 3, 2022. When Mercury moves back into Taurus during this cycle, we'll get a chance to see the financial structure of our business from the perspective of how many roles exist within it. Every person is a valuable

resource that helps the day-to-day run smoothly and you may be revising how you go about creating more security for yourself and your team. Are there routines, systems, or tools that would help make everyone's lives easier? This is a good time to explore what's needed, what's worth investing in, and how you can help bring ease to the infrastructure of your business. Expect there to be some delays and kinks throughout this process and honor the patience needed to navigate it all.

Each Mercury Rx gives us an opportunity to go back to the drawing board and make improvements, or re-direct our thinking. During Taurus, we are being asked to focus on our finances, our routines, habits, behaviors, skills, and resources, and how to make things more stable for ourselves.

As with all Mercury Retrogrades, we are being offered a revisit/redo period, and Mercury is here to show us what needs to be re-done, re-visioned, and re-understood, and because it knows we're stubborn and like to put things off, it's going to make sure we pay attention by creating mass interruptions and disruptions to the things we need to fix or heal.

With any Mercury Retrograde through an earth sign, we will want to be aware that our focus will be on the tangible areas of our lives, especially with Taurus as it rules business, finances, creature comforts, food, our home environment, and our habits. This is the time to re-examine what's not working, and what we need to bring true happiness to our lives.

-----

How to use this retrograde:

Mercury Rx is best used to evolve the way you approach your work and how you nurture your community under difficult conditions. How connected we are in our circles and whether we (and our people) feel real belonging in our business.

This Mercury Rx will specifically target social platforms like Amazon & Udemy.

Take note of the house(s) of your chart where this will be taking place to get a hint of what area(s) of life will be highlighted by this retrograde.

To Launch or Not To Launch?

Launching and Marketing through Mercury Rx is a touchy subject, with often varying results.

I've had very successful (although frustrating, and tech glitch-filled) launches through Mercury Rx as well as ones that will go down in history as the worst launch ever.

What determines this is a few things, while the sign that Mercury Rx is going through plays a big part (you can't pay me enough to launch through Mercury Rx in Cancer), what often defines the success of a marketing or launch venture through Mercury Rx (outside of having a good product, clear copy, aligned pricing, etc) is what houses it's moving through.

In your chart, you have private and public houses, and there are also houses that clearly are business-oriented and others that are more personal.

When to 'sit the bench'?

If Mercury Rx is going through your 8th- 12th houses, you may want to sideline your launch until after Mercury goes direct. The reason for this is that whatever does go sideways, often becomes a public spectacle, and can in some cases ruin our reputation, or make us look clumsy, disorganized, or otherwise cross some communication signals with our community. Or we just may not be operating at our best, (I'm looking at you House 8 and House 12), and we may not be in a good mental space to be in the spotlight and running all the things. This also goes for Mercury Rx through your 4th house, we will just want to be couch potatoes and our home life will be calling on a lot of attention, so it's best to not make it compete.

Some other things to consider are the sign that Mercury is Rx'ing through and the flavors and experiences that will bring.

Saturday, April 22

**New Moon in Gemini begins at 3:11 am PST**

*[Combined with Waxing Crescent]*

- **Channel scattered mental energy** with meditations that allow you the creative space to roam free and dance with wild abandon
- **Balance periods of high activity with stillness** and listen closely to what messages flow through
- **Instead of making assumptions** about your business based on what you see now, ask endless questions to dive into an inquisitive space
- **Be ready to write down** any ideas that flow and let them go mentally to allow more room for a continuous stream of creative potential
- **New Moon:** Low energy, purging and planting seeds, new beginnings
- **Waxing Crescent:** beginnings of momentum, increasing productivity

**If you're high energy/in a work mood:** This New Moon in Gemini is about mental freedom, inquisitive discovery, creative potential and tuning into the Cosmic Mind to think on an elevated level. Some of the most profound realizations happen in a child-like state, which is what Gemini energy excels at. Let go of preconceived notions about how you even 'create'. Use this energy to have fun with creating content, programs, graphic design, and any other creative activities in your business.

**If you're low energy/in a self care mood:** If putting pen to paper and creating content feels too tough right now, simply let your mind run free in whatever way it wants to right now. Sometimes trying to create order can cause more stress than if we just allowed ourselves to be chaotic with our thoughts and ideas. If it feels good to do so, blurt out ideas into a voice recorder or scribble them down wildly in a sketchbook. Create a playpen inside yourself to bounce your thoughts around without judgement or expectations of greatness.

**Social Media:**

- Ask questions of your audience and engage them in discussions
- Share humorous stories, memes & pictures
- Use quizzes, games and elements of fun to engage your audience
- Offer trainings and educational/instructional videos
- Share information about technological tools that help you do your work that you can share and showcase with your audience
- Remember to keep your CTAs short, simple and to the point, we don't have huge attention spans during Air Moons.

#### **Moon Boost:**

**Gemini Venus** is about nourishing existing relationships in our lives that are of high value as well as fostering new connections and collaborations

Sunday, April 23

**Waxing Crescent in Gemini begins at 1:44 pm PST**

*[Combined with New Moon Phase]*

**Mercury Sextile Mars**

Who needs coffee when these are playing in the sky together? This aspect could leave you feeling like you can't keep up with your own thoughts since both are fast-moving planets focused on movement. You'll not only be thinking

faster but you could be receiving communications from others that seem to be more rushed and urgent than usual. The best part about this aspect is that if you've needed to get things done in a timely, efficient manner, these two planets will help you by giving you a major boost in productivity.

## Ongoing Transits

### **Venus in Gemini (April 10 - May 7, 2023)**

This transit opens us up to more money making ideas and ventures, allowing us to think outside the box in a fun and playful way. What are your passions right now? What ADHD rabbit holes have you been exploring? Maybe others are interested in these topics too and you can turn it into something that brings in more money for you, amplifying your happiness and joy in your current interests. Whatever it is let yourself be a little avant-garde you might just be surprised at what new ideas you generate and that your passion is shared with others who love the way you think.

FEELINGS: During this transit, we feel more open, lighthearted, and playful. We aren't as easily swept up in the seriousness of life, or things that would traditionally stress us out. There is a desire for love, affection, and enjoyable conversation. We want to be filled up with the fun, more experiential aspects of life, and if these things have felt lacking for you, you will get your fill during this transit. Long, stimulating conversations, new connections, networking, and opening up to your playful, fun side will really amplify this transit for you. We want to understand more about the world and our lives and if it has felt like a lot of work and no play for you recently, it will be like someone turned the lights on, and you can see more clearly what's been missing in your life.

ACTIONS: This is a good time to commit to blocking off times in your schedule for fun, networking, and friendships, as well as more intimate relationships and date nights. To feel human again, and to explore relationships of all kinds at this stage in your life. We don't have to be in grade school anymore to find playmates and those who are just as excited and obsessive about their lives and work as we are. Have fun love!

### Mercury in Taurus (Pre-Retrograde Shadow) (April 7 - 21, 2023)

05°50' - 15°37'

This period marks Mercury's entry into the 'shadow'. The shadow is the area it will re-pass through once the retrograde officially begins.

This period can show us WHAT will be affected and in what AREAS as it will start to go wonky, almost like a field distortion. We may notice our tech starting to act up, people behaving strangely, miscommunications, and more. This will give us a preview of what areas to prepare to focus on during the retrograde period.

Pay special attention during this time to themes, issues, challenges, and hiccups that occur, as it is a foretelling of what is to come during Mercury's upcoming retrograde.

Mercury in Taurus is where we find ourselves worn into the grooves of our habits and comfort zones, as we edge into the retrograde energy, we may find that we either stick or even move firmly into our habits, in a way that does not serve us, or they may stop working altogether. It's important to not get too attached to our way of doing things, or hide away when things get challenging. We can still nurture ourselves while also acknowledging when old habits have outstayed their welcome. We may be moving slower at this time than usual, because Taurus is a sign of creature comfort, and doesn't particularly like change. Go gentle with yourself, but also be willing to adjust your sails when necessary.

As Mercury slows down before turning retrograde, we're revisiting similar social themes that were brought up during the last Mercury Rx Cycle through Gemini which occurred in May-June 2022. Think back to that period and the challenges or issues that arose in your business or life, this retrograde is not transiting the same degree but will trigger similar themes. This time we're taking a closer look at the human nuts and bolts that help our business run on the inside. Start paying attention to the framework that holds up your financial and day-to-day activities and prepare yourself to take the time to determine if you're working with a well-oiled machine or not.

Launching down low -

We can still initiate projects during this time, or wrap up launches, just be aware that time starts to behave strangely once we enter the shadow, things will seem to slow down, or take longer to complete so make sure that you add in additional time in your schedule to accommodate it.

We may feel a bit off, unable to focus, or struggling with an influx of emotions or overthinking during this time.

Note: During this shadow period, we will be given hints of what's to come when Mercury enters retrograde. There will be themes of focus around daily routines, ingrained habits, behaviors, food and diets, finances, business security, sales, and skills. Pay special attention during this time as this shadow will show you the purpose of this retrograde for you.

### **Mercury in Taurus (April 3 - 7, 2023)**

During this transit, we will be highly focused on results and the steps that are required to get us there. This isn't a period of innovative thinking, new ideas, or concepts. You will benefit most by using what you know, working with what you have, and growing it into something more solid. Watch out for rigid and stubborn thinking (classic Taurus), and try to remain open-minded during this period. Even though you are focusing on things you already know, and have done, be open to the possibility that a great level of change and growth can come from focusing more deeply on these things, and creating something new, and more forward-thinking from it.

This is a great period for strengthening your strategies, systems, and structures, on the more foundational pieces in your business, and getting an immense amount of work done and progress made.

This is the best time to make solid plans. Sign contracts (before the retrograde).

### **Mars in Cancer (March 25 - May 20, 2023)**

This transit packs a powerful punch. Cancer is the sign of the past, home, family, childhood, childhood issues, mothers, needs, and emotions. When Mars moves through this sign we can expect a significant stir-up. Mars represents war, anger, intensity, and aggression.

We may experience a flood of emotions, memories, or experiences that trigger the above challenges. A challenge with this transit is that we often suppress emotions to 'keep the peace', which ultimately causes a meltdown or boil over of these emotions either towards that person or within that seeps out into other areas of our lives.

This is a period of big change, confrontations, triggers, and addressing your own truth and needs. If there isn't an opportunity for understanding and healing we may feel compelled to cut off emotional connections with others, in order to 'save ourselves'.

Use this period to create a sense of security, home, and connection for yourself, however you can. Create a place that feels safe for you to be you and share your feeling and experiences in a healthy way. And allow this transit to release anything that's no longer serving you.

### **Pluto in Capricorn (March 24 - April 30, 2023)**

Retrograde in Aquarius April 30 - June 10, 2023, then leaves Aquarius returning back to Capricorn until January 21, 2024

The last time that Pluto was in Aquarius was between 1777 - 1798, and the last time it was at the critical point of 0 degrees Aquarius was 246 years ago. This is a profound transit that outside of a short retrograde back into Capricorn between April 30th, 2023 - January 21, 2024, will carry us forward into 2044. Pluto carves

out generations and what the structure and transformation of those generations will focus on. Between now and the next 20 years we will see significant changes in our world, from business to agriculture, to government, technology, and belief systems. Pluto in a chart shows our power, often hidden, and in some cases misdirected. It also shows our fears and the challenges we may face in gaining our true power.

Historically speaking if we go back in time to the last time that Pluto left Capricorn and entered Aquarius was the very formation of the United States. In 2022 the US began its first Pluto return, marking one cycle of an empire, the complete results of which we won't fully grasp for another couple of years.

At the birth of the United States, Pluto was at 27 degrees Capricorn (Rome's birth chart had Pluto at 26 degrees 47 Cancer - opposite the US, both marking the degrees of Empires) signifying a country that benefitted from hard-won freedom, and the structures of a republic, but the costs were high, as Pluto edged its way out of Capricorn and into Aquarius we saw the formation of a country. At that time what became the US's power was its people, and its ideologies around advancement, capitalism (movement from Capricorn into Aquarius), and mass development of cities, communities, and eventually technology.

It marked the end of a traditional governmental era controlled by Britain and the beginning of an entirely new country. Pluto represents not only power but Big Government often taking the form of (Capitalism, Socialism, Marxism), resources, and control, and in this case, as it makes its second round of Aquarius since the birth of the United States we are witnessing the next power shift into people, and ideologies, in this case, human capital, and the governmental structure that will be forming around this new found 'resource'. The beginnings of Technocracy, Plutocracy, and other structures that we may not understand the full ramifications of until much later.

But the old era isn't completely gone yet, Pluto will still make one last transit back into Capricorn between May 2023 and January 2024 before it crosses finally back into Aquarius. These transits will not only affect the US but the world as the structures of the US have been imparted on the world from the US Dollar, the markets, and the governmental power structures created through relationships with a multitude of countries. In that time I would expect to see the last of the old structures fall away, and slowly be replaced by new technological

advancements, and ideological bureaucracy structured through new infrastructures like blockchain, digital currency, credit systems, and other such tracking and counting mechanisms.

### **Sun in Aries (March 20 - April 20, 2023)**

The Sun as a Goal-Setting Container:

Aries Focus: Beginning, Impulsivity, overcoming, initiating, action taking, frustration, war, competitiveness, creativity, physical sports, finishing, solving, sign-ups, opt-in pages, CTAs, cart open/cart close, fired up, rallying, saying 'yes', action plan, launches, Twitter

The Sun rules our physical vitality and natural energy flow, and in this case, it highlights a specific area of our lives and businesses where we (and our community) will feel naturally drawn. So it only makes sense to use it for goal setting and theming our marketing out in one-month cycles.

The Sun first moves into the sign and then within a few days, we have the Moon join the Sun aligning our emotions with our physical vitality and beginning the one-month lunar cycle.

Where the Moon sets the stage for task planning, and emotional energy (both mental and how we're feeling) on a daily level, the Sun sets the stage for the one-month container that we're working within. The Sun is the Macro while the Moon rules the Micro (the daily tasks that will help you get there).

In this case with the Sun moving into Aries, we are ready to do something BIG.

This is my absolute favourite time for launches, initiation of new projects, offers, marketing strategies, and initiatives.

This transit marks the beginning of the astrological new year, and it kicks it off with a bang. We can feel a heightened sense of excitement, motivation, and a

desire to put things in motion, take action, and take those big ideas and turn them into a tangible reality. Contrary to popular belief this actually a very good time to act before thinking especially when it comes to beginning something new in your business. If you struggle with getting started or committing fully to your ideas, this can be a powerhouse period of getting a lot done, in a short period of time. When it comes to creativity we can be rewarded for our impulsivity, to strike when the iron is hot. This is a pioneering, self-starter energy and carries with it many opportunities for growth.

Be careful of impatience or frustrated energy if things aren't moving at the pace that you'd like them to.

#### **Mercury in Aries (March 18 - April 3, 2023)**

This transit opens us up to new concepts, big thinking, communicating more clearly what we feel, need, and want, and taking clear action with boldness and courage. It shows you the power of connecting a clear mind with clear, intentional action, that when they are in alignment you can move mountains. Allow your imagination to flow during this transit, and follow it with quick decisive action. This is a potent period, and though it won't last, the results of what you create during this period will have tremendous staying power.

#### **Venus in Taurus (March 16 - April 10, 2023)**

When Venus moves into Taurus our focus becomes ourselves and developing our needs and wants more fully. We are compelled to examine our ideas around survival, security, love, affection, happiness, fulfillment, and the things we do to meet these needs.

We are being called to examine how we value ourselves, do we create conditions where we feel that value for ourselves, conditions where we feel unworthy, or that we aren't being paid our value? Notice if this is a challenge for you, and then use this transit to rectify this. This is a potent window for significant change in how you see yourself, how you value and care for yourself, and how you ensure that your needs and wants are being met in your life.

This also potentially can be an expansive period for investments if done wisely, look to your more immediate needs, if you have a little extra you can use that won't take too much away from your current comforts you may find that investments made at this time will help to grow the quality of life you prefer into the future.

### **Saturn in Pisces (March 7 - June 17, 2023)**

Saturn's entrance into Pisces marks the beginning of a new structural, commitment, and mastery container. Saturn spends approximately 2.5 years in each zodiac sign and has just left Aquarius, its entrance into Pisces will add tangible structure and meaning to the confusion that has reigned in our media with Neptune's transit through Pisces, affecting our ability to think clearly and see 'reality'. If you have struggled to make heads or tails out of what has been unfolding for the past 3 years, you will find that you are able to cut away the unnecessary fluff with this transit and focus on what's 'real', for better or worse. This transit between now and 2026 will not only have us examining our own inner workings, fears, beliefs, and psychology, but it will also have us analyzing what we are receiving from various sources from the government to media, to public health, institutions, and science. This can show up as governments try to exert more control over individual media, free speech, and censorship bills.

We may find our faith tested during this time, while Saturn takes its time moving through Pisces where it will remain for the next 2.5 years, we may be confronted with the consequences and results of our actions (or lack thereof), our successes and our failures will both become apparent during this time. This is a

period of psychological testing, where we may be faced with unavoidable realities, the experiences themselves are not nearly as important as our willingness to confront what makes us uncomfortable, and be willing to digest the truth. This is a forging of our new psychology and will ensure fortitude as Saturn moves to catch up with Neptune in February 2026 at 0 degrees Aries, fully dismembering the illusions we've been living under for the past several years.

Saturn often gets a bad rap, with many afraid of its transits, especially to our natal charts, but Saturn is the forger, what is formed under Saturn withstands and endures. It rules iron, and when we think of the empires that were ruled under the Iron age, many of their buildings stand even today. As Saturn makes its transit through Pisces between now and 2026, this is a time to assess, re-evaluate, commit, and master. We are being asked to stick through things, and not give up easily, especially if things get difficult because what we are building now matters - maybe more than it ever has before.

Under Pisces often what we are facing are our worst fears, our belief systems, and our inner psychological mechanisms, this isn't to say that what we're facing isn't real, in some cases it may not be, but the changes it makes are crucial and long-standing in not only your business, but how you run your business, how you see yourself, and how you face challenges moving forward.

Saturn is karma and whatever is given under Saturn cannot be lost. This is the time to ask yourself where you will draw the line in the sand. What is non-negotiable in your life, in your business, in your finances, and in your relationships?

Saturn also rules time, and in Pisces which is the dream world, this acts in two ways, first that we can bring our dreams into tangible reality through commitment, effort, and good old-fashioned hard work, and the second is that this is actually a period of bending time, where what maybe took eons before may seem like it occurs in no time at all, we will also be faced with the deepest psychological pressures we've faced in 27-30 years (the last time Saturn moved through Pisces). We must also make sure that we are making the best use of our time, and not letting our fears overtake our ability to act toward our dreams, even if it seems like those dreams are a distant reality, or we struggle to see how they are possible.

Without dreams (Pisces) and tangible action (Saturn), along with a strategic plan we cannot create matter. And the forging of matter, moving energy from the 5D to the earth plane takes longer than we expect. And while it may not occur at the rate you'd like, it doesn't mean nothing is happening, it just means you can't visibly see it yet with your Earth-based eyeballs :)

Commitment is the meaning of this transit. One foot in front of the other, the more your mind screams at you, berates you, or activates your fears tells you that you are in fact on the right track. You are stirring something deep within you that is ready for the spotlight of examination.

From a business perspective, Saturn shows us what needs to be built for the world, and what our community and clients will be dedicating time, energy, and finances to (even if reluctantly, or to all-out avoid). We can expect to see an expansion of art, music, therapy, counselling, and commitment to mental health support, as well as an increase in spiritual and metaphysical interests such as psychic work, religion, research, writing, and psychology.

If you have a spiritual or therapy-based business this is the time between now and the next 2.5-3 years to build the foundations of your business whether it's from scratch or to solidify what you have already grown. This can feel like a lot of hard work, but remember what you're building now isn't for now, it's for the next 30 years, and so when we think of our efforts through the lens of the long-term future we can understand and even become comfortable with the wait. Our market won't especially be excited about focusing on these topics but they will feel it's a need, a necessity even, and even though we may find more resistance to this, know that we'll be building the infrastructure of support that our community needs to feel secure in the world moving forward.

Governmentally we may see more restriction on free speech or even 'free thought', with politicians in many countries trying to quell platforms where free speech and dialogue is allowed, as well as adding additional restrictions on currently operating platforms to censor individuals who don't share popular views. We may also see advances in AI technologies (including possible AI Sentience), smart devices, predictive behaviours, and marketing based on these technologies. Amazon already does this when it comes to their algorithms knowing what you are going to buy before you buy it, and stocking it in their

warehouse before you even think of ordering. Saturn is about materializing, and Pisces is the immaterial world.

We may also see an increased interest in topics such as psychic intuition, dreamwork, energy work, ufos, hypnosis, energy-based medicine, homeopathy, conspiracies, and psychic phenomena as Saturn makes tangible the things that we cannot fully explain.

Globally with the lockdowns in effect since 2020, we have seen repeatedly that when Saturn is direct, lockdowns and governmental restrictions are enacted and maintained. It is likely we will see an uptick of lockdowns and governmental restrictions while Saturn is direct, with a rescinding of restrictions when Saturn retrogrades again. However the previous Saturn transits and retrogrades were in the sign of Aquarius (the people/the public), and Capricorn (the government, buildings, and world infrastructure), whereas this is the first Saturn Transit and retrograde cycle to take place in Pisces since the events of 2020, so it is likely the restrictions and release of restrictions will look differently, in this case, it may be in policing what can be said online, freedom of speech (and thought), and an uptick in programming and media directed to guide public belief and perspectives, as well as potentially reproductive rights.

### **Sun in Pisces (February 18 - March 20, 2023)**

The Sun as a Goal-Setting Container:

Pisces Focus: Healing, Subconscious, Wounds, Beliefs, Dreams, Spirituality, Intuition, Rest, Therapy, Retreats, Deep fears, Escapism, coping, becoming one with. Becoming the Channel.

The Sun rules our physical vitality and natural energy flow, and in this case, it highlights a specific area of our lives and businesses where we (and our community) will feel naturally drawn. So it only makes sense to use it for goal setting and theming our marketing out in one-month cycles.

The Sun first moves into the sign and then within a few days, we have the Moon join the Sun aligning our emotions with our physical vitality beginning the one-month lunar cycle.

Where the Moon sets the stage for task planning, and emotional energy (both mental and how we're feeling) on a daily level, the Sun sets the stage for the one-month container that we're working within. The Sun is the Macro while the Moon rules the Micro (the daily tasks that will help you get there).

In this case with the Sun moving into Pisces, we are merging with everything around us. Often this is the result of 'too many mind' where we are trying too much to understand every single thing, feeling that if we just 'knew more' we'd be free, have the answers, or all our problems would just go away. But through Pisces, we can dissolve a lot of these 'unsolvable' problems by simply allowing ourselves to be, and through this process, we realize that maybe they weren't problems at all, or that they could not be solved on the level of the mind.

Pisces Season is one of the very best seasons for anyone who works in the healing, medical, nutritional, or spiritual fields. It is a time when we are naturally inclined towards these tools and modes of living, and your community will naturally be looking for products, services, and solutions that meet these deeper needs.

When the Sun moves through Pisces the connection between our highest selves, our inner emotional world, and our physical, mental, and emotional barriers become transparent.

There is a focus on the spiritual, the intuitive, and our desire to create a practice, and structure from the less tangible. A place where our dreams and our illusions get more of the spotlight. Have we been believing something that isn't based on truth? Have we been pinning our hopes and dreams on something that doesn't hold water?

What are we wishing to transcend, to go beyond right now?

How are we embracing our intuition, our inner magic, and working through our traumas, and patterns of abusive behavior, self-harm, punishment, shame, and outdated beliefs?

This is a revealing window that shows us what's going on behind the curtain. What needs to be cleared, dusted, revealed, or acknowledged within ourselves, our minds, and our lives?

There is a deep connection with the divine, the spiritual, and cultivating a practice. Allow your intuition to guide you on what needs and wants to be healed.

From a business perspective, this is an ideal time to promote, launch and begin offers that are more spiritual or healing in nature, both you and your community will be ready for it.

### **Uranus Direct (January 23 - August 28, 2023)**

14°56' - 23°04' Taurus

Uranus will remain direct in Taurus from now until August 28th, 2023. When Uranus moves from retrograde to direct, we are being gifted the opportunity to act on those big, bold ideas and innovations that we've been marinating in.

This is a time to regain our bearings. Uranus has been retrograde since August 24, 2022, and has been not so politely nudging us to pay attention to our finances, how we go about earning, spending, and saving our moolah, so that we can create a more stable financial future for ourselves, especially during a time on the planet where there is a great deal of change.

It is asking us to not get distracted by the surface changes, to the algorithms on social media, or the next new platform feature, but rather how do we create consistency, security, comfort, and long-termness within financial and governmental structures no longer offer us the sense of safety that they once did. Uranus brings with it innovation, a rebelliousness that isn't interested in doing things 'the old way'. It doesn't like externally or socially imposed

structures, it is here to help you form your own, oddly enough in the comfort-seeking nature of Taurus.

Taurus loves its food, its home, its friends, and keeping things kosher, and when it's met with change-agent Uranus, this area of our life is bound to see the most dramatic upgrades (which may feel like mini earthquakes)

What areas of your business have shifted over the past 6 months - a year?

Have you had financial sources dry up, or change?

Have you been compelled to create a new income source for yourself?

How can you create consistency during a time when there is so much inconsistency in our lives and society?

Uranus will remain in Taurus until July 2025. The last time that Uranus was in Taurus was post WW2, when new systems were created to ensure the welfare and balance for all, things like social welfare and standard work weeks. Necessary and important to the financial stability of both the family, community, and country's welfare.

As Uranus embarks upon its remaining 3+-year journey through Taurus what we can be sure of is that by 2025 the way you have looked at, used, and generated money, financial security, government, law, and growth will not look the same.

### **Mars Direct in Gemini (January 12 - March 25, 2023)**

This is a powerhouse transit and marks an opportunity for significant momentum and success. When Mars passes through Gemini it acts as a catalyst for our mind and mental processes, our abilities of deduction. We are being granted an opportunity to have our big ideas enhanced, and showered with a new perspective and we will have the energy to act on them. If you have been

feeling stifled in your business or in need of a fresh start, embrace this period and commit to taking big leaps forward, you won't regret it.

**Chiron Direct in Aries (December 23, 2022 - July 23, 2023)**

Degrees: 11°56' - 19°57'

Chiron has been in Aries since 2019 and will continue to move through the remainder of Aries energy between now and 2027 with a few retrogrades between help us be reminded that healing our wounds comes in layers. We are never really 'over something' but we can find new facets of ourselves and our own medicine with each revisit.

Chiron reminds us of our tenacity, our ability to heal ourselves, and to share that medicine with others, to transform otherwise difficult experiences through alchemy. When Chiron is in Aries it is a time of action, to walk our talk and to enact real change in regard to our wounds. It is a time when we may impulsively react due to our wounds, so we will need to take a pause before jumping in fully but it can also be a very powerful period to bring the wounds to light. If there is something that you have experienced that you don't want someone else to go through this is a time to bring that cause to light.

With Aries we're not messing around, we need to mobilize our healing, and we need to create movements around it. It's a time to allow our anger and fury to become channelled into positive change in our world. To use our words and actions in an empowering way, to become the light. It is a period where we will no longer be silenced, and where we will allow our wounds to help us to become who we are meant to be.

### **Jupiter in Aries (December 20, 2022 - May 16, 2023)**

24

This is THE transit for entrepreneurs, leaders and anyone wanting to make big, bold moves in business. Right off the rip, this transit delivers a punch, like hitting nitro on a race car so make sure you're wearing your seatbelt! Whatever it is you're wanting to achieve over this next year, you'll get a chance to do it in a way that will put your name out there in a huge way. Fortune favours the bold so risk-taking is positively supported right now and it could serve you well on the professional front.

The last time that Jupiter was in Aries was in 2010, so it's only natural if you find yourself thinking back to that time and what you were learning to initiate in your life back then. What ball were you desperately trying to get moving and what have you learned since then? Similar lessons might present themselves to you, along with all new opportunities to succeed. At times it could feel like somewhat of a roller coaster and when Jupiter turns retrograde, we'll have some reflecting to do about our leadership qualities and deeper motivations in our work. Overall though, the jet fuel that is this transit will bring a world of joy and excitement to your projects. You might find you wake up in the morning feeling a renewed sense of purpose and a powerful drive to get things done - perhaps things you didn't have the courage to pursue before.

### **Neptune Direct in Pisces (December 3, 2022 - June 30, 2023)**

NEPTUNE DIRECT (and POST RX SHADOW)

22°38' - 27°41'

Direct Until June 30th, 2023

Neptune is making its way through Pisces where it will remain until 2027. This Journey it is taking is quite extraordinary and only happens every 165 years.

Neptune in Pisces is here to connect us not only to our intuition but to our subconscious and to all of life on the planet. Neptune is the ruler of the seas (all water on earth) and Pisces is the fish that lives in them. Like a fish we don't notice our environment we aren't aware we're 'IN water' and yet without it, we would not be. All living beings on Earth need water and are made up of water to some extent. We are 70%+ water, and this transit is here to wake us up to who and what we are and the damage that is being done to the world around us. To help us question what is real (as Neptune also rules illusion and delusion) and the ways we have been lying to ourselves or believing the lies of the 'mainstream'.

We have in many ways disconnected ourselves from all of life ignoring the way we are damaging the planet and how each choice we make every day has an impact because we feel sad and depressed at the state of the world, its problems feel too big to solve. But when it comes to Neptune in Pisces the solution comes from within, to acknowledge our internal environment and discern the true from the false within us. To ask ourselves deeper questions and to receive the answers from within us. TO remind us that WE are a part of this source, just like all drops of water are a part of the bigger ocean, we are not separate. Often when life and the state of the world become overwhelming we try to distract ourselves by focusing on things that cannot nourish us, that cannot fulfill the deep hunger and longing we have inside of us for meaning and healing, but with this transit we are being called within, to find our own nourishment and sustenance from within (rather than from outside of us which is contributing to the damage and harm we are seeing in our planet and world on all levels).

This is a time to cultivate your intuition, to listen to your dreams, and to work with yourself to dive deeper into understanding the mechanism and patterns you are repeating (Pisces is also the natural ruler of the 12th house, which is where we hide things from ourselves, and where our subconscious and trauma reside). The way to heal the planet is by more of us working with this unknown and often scary part of ourselves and bringing awareness and healing to it. This will create a ripple effect that has the power to change and heal the world to a magnitude that we cannot yet comprehend. If you are feeling drawn to lean into your own intuition to use it in your work, to use it to work with clients, this is your nudge. The veil between you and source (your intuition) has never been thinner than it is right now.

### **Saturn Direct in Aquarius (October 22, 2022 - March 7, 2023)**

18°35' Aquarius

This transit will last until March 2023. During this time we will see a surge in the sale and marketing of information, a disassembly of old traditional ways of education, marketing, and media, and an increase in innovation, discovery, and new technology. We will also see an increased interest in Astrology, Psychology, and other consciousness-expanding tools, techniques, practices, and systems. This will be a period of great change. With this transit, there will be a shift from personal interests and wants to what is best for the planet, humanity, and the collective. We will see an even greater impact from our personal choices on the whole of the planet and all species. This will highlight the need for greater personal responsibility and initiate further change in regard to the environment, waste, public health, social support, technology, the rules governing it and the impact of the 'economy' on global, personal, and environmental health.

2020-2023 Saturn Return for those born between

February 1932 - February 1935

January 1962 - December 1964

February 6, 1991 – January 8, 1994

Saturn returns to each sign once every 29 or 30 years for approximately 3 years. Saturn was last in Aquarius from 2/1932 to 2/1935, 1/1962 to 12/1964, and from 2/1991 to 1/1994. Saturn will again be in Aquarius from December 17, 2020 (after a brief stay there from March 21 to July 1, 2020) through March 7, 2023.

Saturn Returns are periods of great change, challenges, and adversity where we will feel the pressure to become more of our own person.

**Pluto Direct in Capricorn (October 8, 2022 - May 1, 2023)**

♅

26°06'

Pluto will remain in Capricorn until 2024 (with a brief stint in Aquarius in 2023), over the next 2 years we will see significant changes and transformations in all the areas that Capricorn rules such as governments, rules, foundations, regulations, currencies, economies, resources, money and legacies. This will not be a simple rebuilding or redesigning, the change will come through power struggles, the use of fear for control, uncovering the deep subconscious, and a willingness to surrender or risk great loss for a sense of purpose and meaning.

Pluto is here to help us transform ourselves, find our purpose, and remind us that freedom should never be taken for granted. We may find great conspiracies, abuses of power, and a need to stand up for rights (as rules and laws can be used as coercive measures by those wishing to gain more power and control). This is a time when we are reminded of what's important to us, and that we cannot remain complacent about the things that are of real value. Use these next 2 years to stand strong for what's important to you and to deeply inquire about what you are willing to give up, sacrifice or surrender to live a life of real meaning and significance.

This window also marks the beginning of the Pluto return for the US beginning on February 20, 2022, which will see several conjunctions through 2022 and 2023 triggering changes in government, finance, currency, health care, natural resources, industry, and the core foundations of the country.

I would expect to see a change in currency, government formation, and major foundational changes to the country itself that will impact how the US operates, and how other countries interact with the US.

There are two things that may occur during this period, one is that the US shifts to no longer becoming a world superpower and is surpassed by another country, or it completely restructures and enters a second re-birth.

**Uranus Retrograde (18° - 14°) (August 24 - December 31, 2022)**

18°55' - 14°56' Taurus

*\*look at areas of focus/events that occurred between May 7, 2022- August 24, 2022 to give you insight into what area of life this retrograde will be felt for you\**

*Uranus rules rebellion, war, change, revolution, freedom, confronting fear, speaking our truth. It is 'the great awakener'. This retrograde highlights what doesn't feel aligned and where you're sabotaging and holding yourself back. Be honest about who you are and what you want. Go with your hunches/intuition. Uranus helps to clarify a new direction. Embrace change and 'not knowing'. This period often forces us to deal with our dark side, parts of ourselves that don't align with our values. But if you allow this to move through you when Uranus moves direct you will have the opportunity to make a massive change. Watch out for: Following formulas, systems, and the 'norm'. Systems and structures can tend to feel suffocating at this time. Be careful to not interpret this as a sign that you're not capable or that you've made a poor choice. Personal changes may feel slow or difficult at this time. And the need to feel independent and rebel may be felt strongly right now. Uranus Retrograde can mean massive changes often in areas we weren't expecting or desiring, but it is for your long-term benefit. The truth will set you free. To see what area of your life will be influenced by this retrograde, see your chart and the current transits and locate what house Uranus transit falls under.*

**Mars in Gemini (August 20 - September 3, 2022)**

This is a powerhouse transit and marks an opportunity for significant momentum and success. When Mars passes through Gemini it acts as a catalyst for our mind and mental processes, our abilities of deduction. We are being granted an opportunity to have our big ideas enhanced, showered with a new perspective

and we will have the energy to act on them. If you have been feeling stifled in your business or in need of a fresh start, embrace this period and commit to taking big leaps forward, you won't regret it.

### **Neptune Retrograde in Pisces (June 28 - December 3, 2022)**

Unhindered

Neptune now turns retrograde at 25°26' - 22°38'

Each year, Neptune retrogrades for approximately 5 months.

Neptune rules both sleeping and waking dreams, imagination, fantasies, optimism, and idealism (in life and romance). Review your opinions, values, and belief systems, and listen to your gut. Work with the spiritual and mystical while keeping yourself grounded. Dreams, yoga, meditation, astrology, tarot, and deep inquiry can be very healing at this time. Contemplate your spirituality and belief systems. Focus on your creativity and allow what wants to come through to do so, unhindered. Let go of anything that feels heavy. Watch out for unrealistic or fluffy thinking, seeing people, and circumstances as you want to see them rather than as they are. Overindulgence in numbing agents. Emotions may run high or over the top. To see what area of your life will be influenced by this retrograde, check the current transits in your chart and see what house Neptune is moving through for you.

### **North Node in Taurus (December 22, 2021 - July 12, 2023)** **South Node in Scorpio (December 22, 2021 - July 12, 2023)**

#### **North Node in Taurus**

The North Node transit shows us what we are moving towards, and the global trends that we should expect over the next 18-month cycle.

The past 18 months have seen a massive change in global trends as the North Node moved through Gemini and the South Node transited Sagittarius.

This showed a moving towards new careers, education, educational formats (homeschooling/online learning/distance learning), as well as working and staying within our more immediate environments with an emphasis on very short distance travel, this saw a massive decrease in commute times through lockdowns and business restructuring.

This presented the ability for many to telecommute, explore grocery delivery and overnight delivery, work from home, telemedicine, and traveling within our more immediate neighborhoods.

In terms of business, this showed up as an explosion of technologies like video conferencing through Zoom, and the transition of businesses that were primarily in person into the online space. We also saw a massive explosion in online learning, new careers, online training, and many stepping into the updating of their businesses into a more online space. The development of new skills, especially highly specific training saw massive growth.

Now with the North Node moving into Taurus, we will see a continuation of much of our lives, whether through work, friendships, and domestic lives growing from right from the comfort of our own homes. Whether it's the continuation of online education, reskilling ourselves, exploring homegrown food, home-based health, and creating rhythms and routines around our more immediate environment.

The return to commuting or long-distance travel or education will continue to remain slow, if not completely and forever changed.

We will look to create more of our luxuries from home, whether it be foods we enjoy, health care, gardens, learning and education, and growing our businesses.

The emphasis will be on creating quality life experiences, which may have many exploring new ways of living, relocating, or new ways of creating sustainability in their lives that they felt they didn't have time (or motivation) to before. We will also see an increase in new currencies especially as the North Node conjuncts Uranus on July 26, 2022.

These trends will continue into 2023, lasting approximately 18 months.

From a business perspective, this is a perfect time to either launch your business into the online space (and home space), and to also explore new training, and slowly build out more security for yourself. If you teach business in any regard, the next 18 months will see massive growth in your industry. This can also be a good time to explore alternative income streams, currencies and creating a side business.

The North Node shows the potential for increase/advancement and opportunities for the themes of the sign it is transiting through.

**What to watch for during this transit:**

Personal Assets/Personal Income/Cash in hand - Cash and tangible resources will become more important

Banks/Banking (trends or changes in interest rates, mortgage rates, loans)

Currency (changes to - shifts in currency, new currency, re-valuation of old currencies, gold, silver, gems, land, and other tangible assets)

A movement into trading, stocks, currencies, securities

Budgeting (more people will be watching their finances and likely stepping into budgeting if they haven't before)

Commerce and New Business -especially online, or from home

Focus on Skills that Earn Money/Earning Capacity

Government Finances/Currency/Shifts in Employment

Trends/Treasury/Country Reserves and Natural Resources (value)

Property/Mortgages/Purchasing of Land/Homes

Real Estate

New Hobbies that can be done from home

Increase in Taxes & Costs of Food/Resources

Home Based Entertainment (both digital and hands-on)

Food Security/Agriculture/Self-Sustainability

Health Food/Vitamins/Herbs/Supplements/New Diets/Home Health Care

Home Education and an increase in new educational methods (Reggio Emilia, Waldorf, STEAM/STEM, Montessori ) for younger children and for older children, teens, young adults, we will see an increase in more young people creating their own education and future employment from home, or through alternative means.

### **South Node in Scorpio**

The South Node shows us what we're coming away from as a collective on a global level, and rules 18-month trends.

The past 18 months have seen a massive change in global trends as the South Node transited Sagittarius.

This showed a moving away from long-distance travel, higher education, retreats, and trips geared to personal development, and for many even a change in their belief systems, traditions (family/religious), and long-term goals.

We saw a massive increase in the consumption of media (Gemini), learning new information and an attempt to determine truth from fiction, while also attempting to form our own opinions for ourselves.

The South Node's transit through Sagittarius saw a complete change in the airline and travel industry, a coming away from global travel, and more to towards local travel, with many of us stuck in our homes or limited to our local areas for staycations.

This also saw a massive increase in learning from home, and a step away from long-distance or higher education, and a shift into choosing your own education for yourself, through the use of online or distance materials.

Now that the South Node is moving into Scorpio, we will see a disillusionment with any forms of manipulation and gas-lighting whether through media, friendships, authority, or governmental figures.

We may also find ourselves questioning previous healing methods, and possibly even avoidance of navigating our own trauma when things become too much.

It will feel more important than ever to step away from what we can't control and into navigating our own spaces and choosing what we allow into them (any negativity may send us into a downward spiral).

We must be cautious of seeking quick fixes at this time, and avoidance doing the deeper work on our health, mindset, psychology, beliefs, and fears.

This is not necessarily the best time for the healing and metaphysical industries, as they will see more people turning away from doing deeper work, even though it is obviously needed, on the other hand, we may see a rise in more manipulative and unethical techniques either through media, competitors in our industry, government authorities, and previously trusted sources.

It will be more imperative than ever to lean into your own intuition to determine what's true for you.

The South Node either obscures, ends, or creates obstacles to the themes of the sign it is transiting through.

**Things to monitor during this transit:**

Changes to Relationships/Divorce/Morality Rates

Debt/Credit

Death/Endings

Taboo Subjects

Joint Finances

Lawsuits

The Withholding/Gaslighting of Medical Advancements/Truth/Scientific Discovery

The hiding of facts/figures/numbers/data/results
