

Re-Entry Protocols for Individuals Confirmed or Suspected with COVID-19

Re-Entry Protocols for Individuals Confirmed or Suspected with COVID-19

- Any individuals who themselves either: (a) are lab-confirmed to have COVID-19; or (b) experience any or any of the combination of the symptoms of COVID-19 (listed below) must stay at home throughout the infection period, and cannot return to campus until the school system screens the individual to determine if any of the below conditions for campus re-entry have been met:
 - In the case of an individual who was diagnosed with COVID-19, the individual may return to school when **all three** of the following criteria are met:
 - at least one days (24 hours) have passed since recovery (resolution of fever without the use of fever-reducing medications);
 - the individual has improvement in symptoms (e.g., cough, shortness of breath); and
 - at least ten days have passed since symptoms first appeared.
 - In the case of an individual who has symptoms that could be COVID-19 and who is not evaluated by a medical professional or tested for COVID-19, such individual is assumed to have COVID-19, and the individual may not return to the campus until the individual has completed the same three-step set of criteria listed above.
 - If the individual has symptoms that could be COVID-19 and wants to return to school before completing the above stay at home period, the individual must obtain a medical professional's note clearing the individual for return accompanied by a **Negative** molecular test result for COVID-19. Testing sites within our community are:
 - GRMC
 - GMA Health
 - Graham Urgent Care
 - Young County Family Clinic
 - Brazos Family Clinic
