`CODE -E- THON

Introduction

Code-e-thon is an exciting coding event where students can come together, solve problems, and show off their programming skills. This event is perfect for both beginners who want to learn something new and experienced coders looking to challenge themselves. These challenges highlight our passion for coding as we experience the excitement of solving tough problems.

Let's turn ideas into action and creativity into code.

Theme

Tech for Good: Where coding enthusiasts transform their ideas into solutions for a better tomorrow.

Flow of the event

1.Online registration forms will be out for participants.

2.The event will be online and participants have to register themselves in the given platform.

3. The duration of the event will be 3 hours and periodic reminders are available for time management.

4. Participants have to solve the given problem within the limited time.

5. After the conclusion of the round, an announcement of results will be scheduled later.

Level of questions

The questions will be of easy to hard level.

Rules and regulations:

1.The event is open to all students.

2.All participants must complete the online registration before the event starts.

3.Incomplete or late submissions will not be considered.

5.All code should be original and copying code from any other source is not allowed.

Team Making and Registration

This event is an individual event.

Marking

Marking will be based on the platform used considering factors like the number of passed test cases, failed attempts and accuracy.

Prizes distribution

The top 3 participants with the most efficient performances within the given criteria will be awarded as winners.
