

For Immediate Release

What: Green Living: Home & EV Expo
When: Saturday, April 15, from 11am - 3pm
Where: Benton County Fairgrounds Auditorium
110 NW 53rd Street, Corvallis, OR 97330

Want to Get a Look at the Future?

Come to the Green Living Home & EV Expo, on April 15, at the Benton County Fairgrounds Auditorium, and see the clean energy future for homes and vehicles. Learn ways to make your home healthier, safer, and more comfortable. Check out all the positives of driving an electric vehicle. And discover the federal and state incentives, rebates and tax credits that can help you pay for these improvements in your life that will save you money for years to come.

Nonprofit *Electrify Corvallis* is pleased to announce that Carl Christianson of *G. Christianson Construction* will be the featured speaker, talking about how to retrofit your home and answering audience questions at 1 pm.

The Green Living Expo invites renters and homeowners to come learn about the latest in building materials and equipment as well as improved construction methods. A wide variety of vendors will be showing exciting new products. Watch a fun cooking demonstration on an induction stove, tour the Better Building Coach that features energy-saving mechanical systems. Be sure to check out the Renter's Corner, featuring many moveable items geared to make your life better.

Co-sponsor the *League of Women Voters* of Corvallis will have the latest news out of Salem. Non-profit *Seeds for the Sol* will offer information on how to economically put solar on your house. And if you cannot install rooftop solar, consider signing up for Community Solar through *Oregon Shines* at their table.

Organized by the *Transportation Action Team of the Corvallis Sustainability Coalition*, owners will exhibit their electric vehicles (EVs) just outside the auditorium. Find out what all the excitement is about.

Come be inspired about the possibilities for the future that are available today!
