Author Guideline

Article Title

Explanation: The title should clearly and concisely reflect the content of the research. Ensure that the title captures attention and is relevant to the topic.

Author Name

Explanation: Include the full name of the author or all authors if there are multiple.

Author Affiliation

Explanation: Mention the name of the institution or affiliation of the author, such as a university or research organization.

Author Email

Explanation: Provide the author's email address for further correspondence.

Abstract

Explanation: This is a summary of your research. Include the purpose, methods, results, and conclusion. Limit it to around 250 words. This helps readers quickly grasp the overview of the study conducted.

Keywords

Explanation: Keywords are important terms that summarize the main content of the article. They aid in searchability and indexing in academic databases.

---

1. Introduction

Explanation: Explain the background of the research, why this study is significant, and what objectives you aim to achieve. Include information about the context or the problem you want to address.

2. Literature Review

Explanation: A review of previous research relevant to your topic. Discuss existing findings and how your research complements or fills any gaps.

3. Methodology

Explanation: Describe the approaches and methods used in the research, including the research design (quantitative/qualitative), sampling methods, and tools utilized.

---

4. Results and Discussion

Explanation:

- **Results:** Present the data findings from your research. Use tables and graphs to clearly convey information.
- **Discussion:** Interpret your findings, compare them with previous studies, and explain the implications of these results. Discuss any limitations that may exist.

Steps to Insert Images:

1. **Prepare the Image:** Ensure your image is of good quality and relevant to the content.
2. **Position the Cursor:** In the text, place the cursor where you want to insert the image (e.g., after a relevant sentence).
3. **Insert the Image:**

- If using a word processor (like Microsoft Word or Google Docs), select the Insert option from the menu.
- Choose Picture, then locate the image on your computer.
- After the image is inserted, you can resize and adjust it as necessary.

4. **Image Caption:** Be sure to provide a caption below the image. For example: “Figure 1. Measurement Results of X.”

---

5. Conclusion

Explanation: Summarize the main findings of the research and provide suggestions for future research. This section highlights the contributions of your study.

6. References

Explanation: List all references used in your research. Ensure compliance with the appropriate citation format (e.g., APA, MLA, Chicago, etc.).
