Leia o texto abaixo e responda as questões 01 e 02. Pianist plays in the mountains

Lang Lang is a Chinese pianist. He plays in the Bernese Alps in Switzerland. The Bernese Alps are very tall mountains.

Lang Lang plays at 4,158 meters at Jungfraujoch. The highest railway station in Europe is there. It is very cold there. It is not good for a pianist. His fingers are cold.

Happily, Lang Lang enjoys the performance very much. The view from the mountain is beautiful.

Lang Lang plays three songs. He wants people to be interested in Asian music. He also wants to help the European and Chinese cultures get closer.

Questão

O assunto desse texto é

- A) a beleza dos alpes da Suíça.
- B) a montanha mais alta da Europa.
- C) o brilhantismo da carreira de Lang Lang.
- D) o concerto de Lang Lang nos alpes suíços.

Questão

Esse texto foi escrito para

- A) ensinar um procedimento.
- B) fazer uma reclamação.
- C) narrar uma história.

D) noticiar um fato

Questão Leia o texto abaixo.

That's Why

Why does a squirrel have a bushy tail? It's for...

- A. storing nuts.
- B. keeping up with fashion trends.
- C. staying warm in winter.

The answer is C. When a squirrel is in a tree, it uses its tail for balance. This helps it move from branch to branch. But the tail also keeps the animal warm in winter. A squirrel curls into a ball, using its tail as a blanket.

De acordo com esse texto, quantos ovos são necessários para fazer o pão de banana?

A) 1 1/4.

B) 2.

C) 2 ½.

D) 3.

Leia o texto abaixo e responda as questões 05 e 06.

The Trees We See

What kinds of trees are near you? There are about 1,000 different tree species in the United States. These are four of the most common. They are native to the U.S.

The white oak is large and strong. It can live for 300 years. Its acorns are an important food source for turkeys, woodpeckers, and rabbits. Deer eat some parts of these trees, too.

The red maple is a very common tree in eastern North America. Its leaves turn red in the fall. Squirrels eat its seeds. Deer and rabbits eat its leaves and shoots.

The sugar maple is known for its fall colors. It's also known for its sap, which is used to make syrup. White-tailed deer eat its twigs and leaves. Porcupines eat its bark.

The Douglas fir is a popular kind of Christmas tree. [...] Birds, squirrels, and rabbits eat its seeds. It provides shelter for many animals.

Leia o texto abaixo e responda as questões 07 e 08.

Earth Day 2022: "Invest In Our Planet" For A Brighter Future

On April 22, 2022, over a billion people worldwide will celebrate the 52nd anniversary of Earth Day. The modern environmental movement began on April 22, 1970, when US lawmaker Gaylord Nelson mobilized more than 20 million people to demonstrate support for environmental protection. The Earth Day Network (EDN), which now boasts over 50,000 partners in over 190 countries, has led to the passage of landmark environmental laws both in the United States (US) and globally. [...]
