

GM: Bunni

---

Summery:

- Ran with Blizzard, Galen, Ruban, Spitfire, Smogg
- Team minus Blizzard met in touristville, got harassed by Detective Smith, metal spirit investigator and all around rude dude. Eventually scared him off and met with the johnson, awakened car Christine
- Elther Shiawase or MCT was blackmailing Christine and Min Voss
- Ruban drove Christine in a race, won 2.5k nuyen
- Blizzard came to meet rest of team, found himself being followed
- Blizzard bought snacks, some real food, and some medkit supplies and headed into Redmond, at which point his followers left
- Team met up and discussed, Smogg went to do some matrix searches, and found stealth tags on the team's vehicles. Ruban went to a fight club at this point
- Smogg hacked the tags, but failed to trace them, so the owner disconnected from them. There was however, a drone watching the team, so SMogg hacked that, finding out it was Shiawase property. He was able to trace that one, and when it rebooted, team met headed to the location, which was in downtown
- The location was an "abandoned" building, and the team debated on how to get in
- At one point a platinum spirit popped in and threatened the team, and informed them that they wanted the information. Team refused to switch sides
- Team snuck in and then avoided a bunch of drones, after which they slaughtered a few
- Team convinced the onsite hacker to help them change the footage, knocked her out, and called it a day
