

SL: A **NOT** to be missed opportunity

Hello Tuner vision,

I loved the 240sx promo video you released on tiktok. You're an innovator. Just imagine, with a few small adjustments to your content, your TikTok could skyrocket in popularity. Envision a wave of like-minded petrol heads flocking to your site, their enthusiasm fueling your success.

Your low ticket items are perfect for a car enthusiast and would be a huge disservice to the community to fly under the radar. Your website is very well done, however one small change and I know that I can exponentially increase your mailing list by providing you with a concrete CTA.

I have made an example tiktok ad for your page that you can use as you please.

I'd like a quick chat with you Wednesday if you're interested

Kind Regards,
Kaya Antonio
