

GRADUATE SCHOOL

S.1. There is a distinct office that manages the Extension Program.

Master of Science in Animal Science

S.1. There is a distinct office that manages the Extension Program.

The university has a dedicated Extension Office that effectively manages and oversees the implementation of its extension programs, ensuring organized coordination, proper monitoring, and continuous community engagement initiatives. The Extension Services Office of the University of Southern Mindanao serves as a dedicated unit responsible for planning, coordinating, and implementing the university's extension programs. It functions as a central body that organizes community outreach initiatives, ensures alignment with institutional goals, and monitors the impact of services delivered to partner communities, thereby demonstrating that a distinct office effectively manages the Extension Program.
