Sir,

In the KIIFB work package-, for
Electrical Utility shifting works under Electrical Section
a nominal value of taken back / scrap materials as per GO/ BO under reference is deducted from
the estimate. The actual materials used / in used and the value normally, can be arrived only after
completion of work , at the time of reconciliation along with the utilisation certificate. It is
requested to accept the amount deducted and it is confirmed that any amount on account of used
/ unused material can be adjusted after completion of work .
