Week 2 (March 30-April 3rd, 2020):

IPC - Go to Google Classroom and open the Motion Packet. Use the motion packet notes to help you answer the questions. Turn in the packet when you are done.

Environmental Science - Go to Google Classroom and open the National Park Postcard Project Slideshow. Each of you will be completing one slide of the slideshow. This will be a collaborative project where everyone does a different slide and we can all work on it at the same time. I have attached a link to the National Park website where

Wallace, Scott
Science
scottwallace@hudsonisd.org

you can look at all the different National Parks and pick the one that you like the most and maybe even one day visit the park!

Week 1 (March 23-27, 2020):

IPC - Go to Google Classroom and open the Egg Drop Project Packet. Read through the packet and then make an Egg Drop Container to be used when we come back to school. Please do not waste eggs. After completing your container, answer the questions in the google form that are attached to the assignment and Turn In.

Environmental - Go to Google Classroom and open the “Lesson of the Kaibab” assignment. Turn in your work to google classroom when finished.
