ﷺ The Good Shepherd

In the meadow green and wide
Little lambs run side by side
Gentle hands and caring eyes
Watching underneath the skies

Good Shepherd lead the way
Keeping us each day
With a love so strong and true
Always watching through and through

Good Shepherd kind and near
Filling hearts with cheer
Safe and sound we gladly stay
Following Your way

Through the valleys through the hills
Peaceful hearts the morning fills
Every path is bright and clear
Knowing You are always near

Good Shepherd lead the way
Keeping us each day
With a love so strong and true
Always watching through and through

Good Shepherd kind and near
Filling hearts with cheer
Safe and sound we gladly stay
Following Your way

In the sunshine in the rain
Steady love will still remain

Every voice can sing along
Love is faithful love is strong

Good Shepherd lead the way
Keeping us each day
With a love so strong and true
Always watching through and through

Good Shepherd kind and near
Filling hearts with cheer
Safe and sound we gladly stay
Following Your way

Good Shepherd shining bright
Leading with Your light ��
