

Hello everyone, Did you know about the person from Sweden Hedda Rehn aka "**Bonnie-Bowen-Bunny**"? We will tell you who, unfortunately, is a very dangerous person.

This girl is from Sweden, she is 24 years old, she was born on February 26, 2002, she started her Hedda career around 2018 (but originally created in 14th June 2012), she is a fan of Five Nights at Freddy's, which she used some of the characters (specifically Bonnie pupper rabbit), Hedda created her own OC (whose child's name is Michelle) who is a child, but this character Bonnie who Hedda likes to have her own ship and this character Bonnie is locked in the soul of a child which was confirmed by the creator of the game FNAF Scott Cawthon. She also drew other characters from FNAF, including SpringTrap (the main antagonist of this series) and other animatronics.

Her behavior of Hedda seems to be very aggressive, the way she gets very angry when something happens or something doesn't work out and she can be manipulative just like other pedophiles, Hedda continues to do things to waste her life which her voice seems to be corrupted, if she continues to do things with her actions and her comments they will already end her life, she keeps doing it and he doesn't stop doing it. Additionally, Hedda can pronounce the word with a hard R, which she can also use in cases of people, and even the word with an T-word or N-word, perhaps that's how she learned it.

Hedda is starting to be naughty on the internet, especially after an example that was mentioned in the Swedish media where she moved into her own apartment in the LSS residence in Tierp. She was 22 years old and was questioned by one person who was like, "Does Tierpsbyggen hate me just because I have a disability, Hedda asks herself when Arbetarbladet asks her to tell her what fast broadband means to her." which young girl doesn't want to move or even get up because her parents make sure she only has the internet and discord but be careful Hedda can squeal if she provokes something or something doesn't go well.

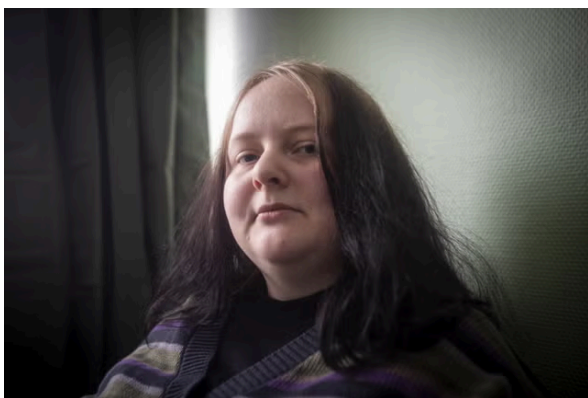

Unexpectedly, Hedda dante Bea Koretkii, the most controversial person who unfortunately reveals her crime from the past (for example, there was a porn show to one minors in 2020, neo-n..i, she hating on Sailor Moon and try raped her mom), The first meeting with Bea in 2023 was probably in the media like YouTube, DeviantArt, Discord or even Instagram and now Hedda and Bea are meeting again as they are now, after Hedda helps Bea to continue her online activities and her false information. The biggest leap was 2026, and now she was active in her comments and writes on Miles' server, which forced Miles to understand and know to have friendship with bea even though nothing worked out, her behavior will continue to do this to ensure her safety on networks, Hedda actively bans these people because they are HXR wannabes who don't belong to them, they are normal people just like the Miles team or even Ral, Hedda uses people in dms to force conversations, a bonus was also the question whether Hedda got banned but maybe these links are broken. Hedda and her friend Bea attacked Misami who is a disabled person, Misami did not feel confronted by her and her supporters Bea attacking her but also Hedda who also attacked her life.

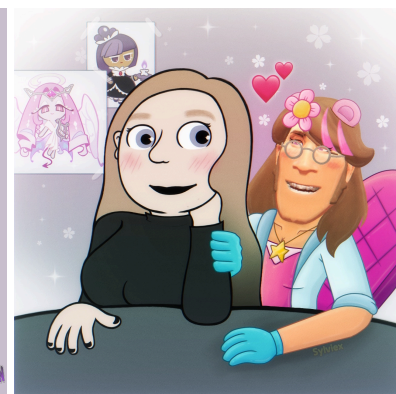

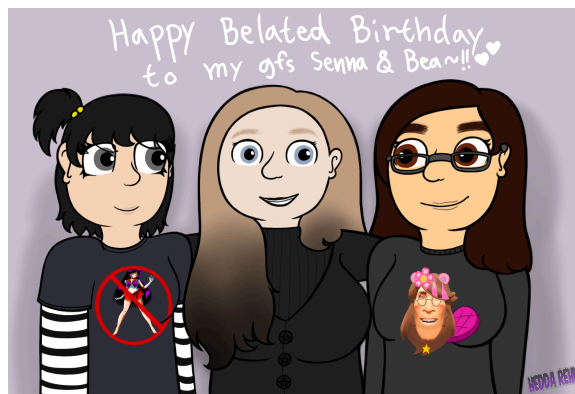

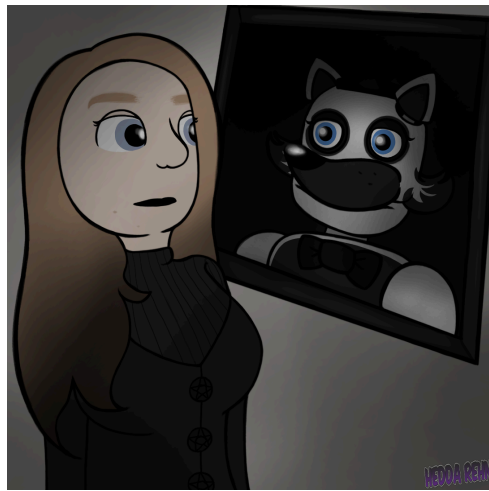

Here comes her who is revealed

ArielDrawz did cut ties with you for what you did!

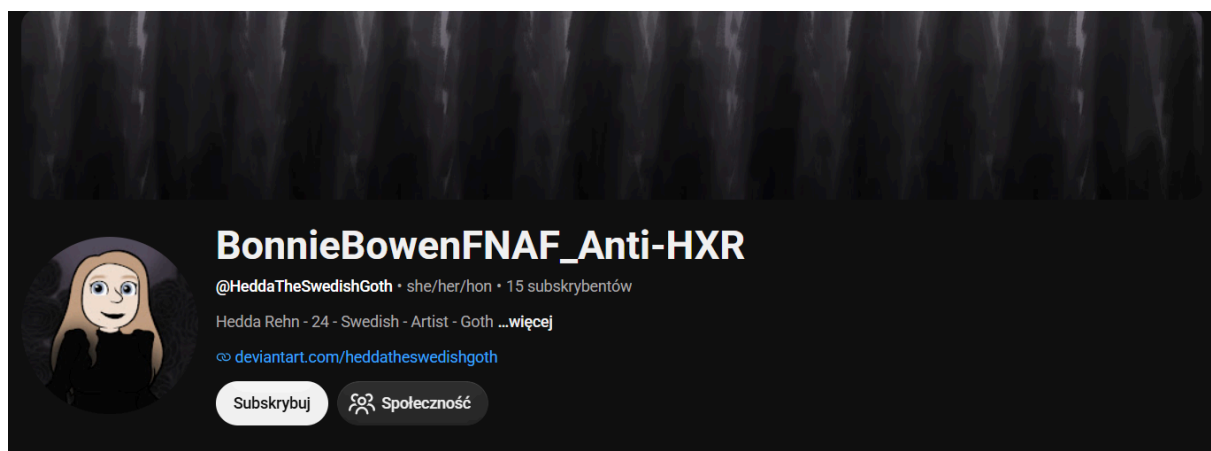

These posts that she publishes and supports Bea specifically to leave her alone, but she continues to post to believe her, nothing works because her defense doesn't work at all, nor do those hashtags that could have helped her.

Hedda deleted her YouTube account, the reason was related to her action or hiding her identity from her drama including her comments in dms as well as other random servers, but nevertheless, on the YouTube channel, Hedda has returned to continue her work to ruin their people's lives again.

Unfortunately, Hedda either deleted it again or hid her channel so it wouldn't be recognized by people on the internet.

One more thing. Hedda is simply a pedophile, a Zoophile, a Spammer or even a dangerous person on the internet.

If you are her friend from Hedda I advise you to cut off contact with him and block or ignore her for both of your safety.

Here is her ID: "1498006132218925066", if you are a moderator or owner in this server then ban her immediately for your safety.
