

>>>Hey, it's Tayo & Noah here...

Imagine a life where you finally feel like you're doing what you are passionate about, with **CLARITY**. Where your time and income is no longer tied to a fortnightly/monthly pay and you can finally build a generational wealth that outlives you?

What would that change for you? Can you see that life? Hopefully you can smell it as well.

Right now, we are looking for a handful of **entrepreneurs, aspiring business owners, creators** we can make an example of what's possible...

If you read this document to the end and refer to the additional links, you would have enough information that will transform your life.

Or

You may be on the move and may prefer to watch a quick video that holds the key to the answer you want, I got you! [Click here](#) to watch our explainer video

If you're feeling **unsettled or dissatisfied** with your current situation, it's because DEEP DOWN you know you're meant for so much more.

A great mentor would say, you can be happy but don't be satisfied.

Most entrepreneurs, creators, dreamers, builders, especially **immigrants**, think they just have to settle, play safe in the salary loop.

The **GET RICH** slow train of 9-5 or shift work, BUT the big question is, everyone that does not have some sort of ownership right now, is vulnerable.

There's constant news of how AI is going to replace us all, employers are making roles redundant and there isn't the traditional 20/30-year career ladder anymore...

Unemployment rate is up, Mass layoff is at an all time high!

But from experience let me tell you...

It's NOT about playing safe anymore.

I (Noah) worked for a company here in Australia as a super skilled agile project manager, I proved my skills so much that I was promoted in 2024 and given a salary raise of additional **\$1,890 gross** (I was shocked because it was so intangible).

I obsessed over their work and did not even go on leave for 2 years; when I had my first child I went for only 2 days leave because so much was reliant on me.

Fast forward when my wife (Tayo) was pregnant the second time in 2025, and around February, my wife was so sick and I needed time off, BUT unfortunately, my company was expanding then so they had plenty of critical projects they put me on.

I asked for time off to look after my wife, even though I was unwell going through some examinations at the time; my manager told me I would have to resign so someone else would do the critical project.

I was shocked at the lack of empathy, I took my sick leave instead because I needed to prioritize my wife and my health

There were a series of back and forth emails that my manager accused me of not following the company's policy- I showed all my private health records and my wife to show that truly I was not in the position to work.

HR sent me an email threatening termination, if I was guilty.

I was so stressed and angry, I attended the meeting with my wife, and then resigned immediately on the call after clarifying and they admitted it was not going to lead to termination.

That situation, put loads of things into perspective for us, luckily for us, we had already built Syncskills where we help people build tech skills, gain experience, avoid work bullying and pressures and secure a dream job

This happening to me crushed me a little but Syncskills was our saviour, losing my \$142,000 reset our life, but it allowed me go all **IN** to full time and focus on scaling our impact.

We made the most money and impact since I went FULL time, it literally changed our lives.

I was wondering then why I was stuck in that salary loop for 2 and half years, I WISH I had the courage to go full time about 2 years ago, we were already generating revenues with Syncskills from day one even when it was a side hustle.

You may be thinking,

- How can I get to a point where I also have freedom

- How can I have the confidence to resign?
- How can my side hustle become my main hustle?

The journey I described took 3years plus, we made so many mistakes, we still have not found all the answers and solutions, but we are successful enough by our definition;

HAVING freedom, service and making an impact.

We are not EXTREMELY RICH but we have developed so much skills and value that,

- One time, we did a - 2 hour presentation and made \$25,000,
- We have sold out a chout 60 slots at \$5,000

and people would be happy to pay because we help them build skills that help them make \$120,000+ continuously.

We want you to get SO rich you question the meaning of making money.

People should be begging to give you money, at least it's happening for us, people that need our solution are happy to pay us because they know it's not an expense, its an INVESTMENT in their future.

It's about being in the KNOW, breaking the sabotaging beliefs that keep you hitting your growth ceiling and believing that you are made for so much more.

Entrepreneurs often burn out, get stressed, consume loads of information, some think it's a new course or book they're missing, or another random advice from someone who's never had a business.

And some even say...I don't have any prior experience running a business.

Yes, I get it

Hey, here is what we will do in **The Prosperity Lab**, we'll focus on helping you get to CLARITY and SCALE, with practical business knowledge we would introduce to you in a group with other AMBITIOUS people.

We like to refer to it as building the **version 10.0 of yourself**.

The version of you that thinks, leads, builds, and earns differently.

We use simple growth playbooks, lessons learnt from building SyncSkills worth over \$2m **dollars**, practical experience, business resources, the TPL Principle to create next level life, business & growth outcomes.

The same systems we used to rebuild from losing ~~N~~63M to creating multiple 6–7 figure businesses across Australia.

Helping you launch your business quickly and ongoing practical support that makes all the difference.

You see back in Africa or your home country, some of us already have connections, build businesses even; we understood the system.

But When you migrate, there is a RESTART process and you may not have the leverage, culture nuances and connections that connect you to opportunities.

That is why... understanding how to market your product or service and experience is critical for any business success

So whether you're starting your first venture or scaling your existing business, this isn't just another business program.

It's **UNLIKE ANYTHING** you've likely ever seen.

It's a *movement* to help you **build your own economy**.

Now, let me be clear and frank...

Becoming your 10.0 version will require commitment and hard work.

If you keep making decisions from the perspective you have today, you'll get the exact perspectives you have right now.

Look inwards and ask yourself, do I want to build my generational wealth or do I want to continue helping someone build their own generational wealth?

Am I learning enough to be able to launch or scale this business? Not to be morbid here, but hey remember, when we stop learning, we die.

Learning also has not taken place until there is a change in behaviour.

If I look back in another **2-3 years** and find myself still nursing the idea of starting my business, would I be happy?

It takes becoming comfortable with being uncomfortable...

We'll work hard AND smart...

Busting through challenges together and celebrating the nice big wins because of our work.

Now The Prosperity Lab Business Community is not for everyone.

We are looking for people who are 100% committed to starting or growing their businesses and are ready to jump ALL-IN NOW.

So if you're still here?

I'd be honored to help you compress years into months.

Here's how The Prosperity Lab works:

***Part 1: Weekly MSB - Mind Soul & Body Framework (Tasks)**

With your spot locked in...

You're now one of the few people with access to our 5 Weekly Non Negotiable **Mind Soul & Body** tasks to optimize your next 12-months for scale.

***Part 2: The Advantage Sales & Marketing System**

You're saving yourself 100s of hours trying to figure out your customer acquisition with outdated outreach. I know you might have the below questions;

- Who will buy my product/service?
- How do I acquire my customers?

This is the right solution for you to solve that.

Just follow the TPL process and you'll have a system that builds authority and a content engine that brings in qualified leads in a predictable way.

Playbooks revealed so far:

One-to-many selling, The Conversation Opener (SELL BY CHAT)... and more added every month.

You'll learn our *CREATOR BLUEPRINT*, how to build credibility, content, and a consistent stream of clients using our frameworks like:

- The **IRRESTIBLE Offer**: Create offers people feels stupid to say NO
- The **VISIBILITY LOOP**- Creating helpful contents, with or without your face generating LEADS.
- The **VALIDATE LOOP**: Obsessing with your customers pain, desire, goals, outcome.

....and more added every month

We'll help you attract opportunities while you sleep, with or without ads, hustle, or burnout.

***Part 3: Close Up To TWICE As Many Deals With The Prosperity Lab Sales & Conversion Playbooks**

We've personally used these frameworks to personally sell more than \$500k in coaching & consulting services for our companies.

And we are serving playbooks like 1 to many selling, Selling By Chat to you on a silver platter to help you create a scalable sales process and rock your sales conversations. No longer will you have to subject yourself to begging, or calls that never end (or sell)...

Because Sales shouldn't feel slimy or forced.

We'll show you how to sell with service and integrity, doubling your close rate using our field-tested frameworks.

***Part 4: Wake Up As You 10.0**

The reason you're not already living the life you want...

Or running the successful business you wish to run...

Or making the money you want is because you're not the person who deserves those things.

Yet.

If we want to see change...

We have to rebuild the character that effortlessly gets what you want.

Your New Character will be the thing (Cause) that creates the Effect (Desired Outcome).

With frameworks like the 10X Income Stack, the Inspect and Adapt System™ and more we'll craft the identity you need to step into... to create the impact you want.

***Part 5: Systems Of Scale**

Stuck working in the business in \$5/\$50 tasks unable to reach out for air?

Systems will set you free.

We've put everything together in a repeatable scalable process, so you can install systems that guide your team to sustainable growth.

People who are less smart, less capable, less hardworking than you are MORE successful...

Because they found and implemented better systems.

Let's install them into your business so you can start acting as a CEO.

***Part 6: A.I Advantage.**

As a CEO, founder, entrepreneur, builder or creator, TIME is one of your most precious resources.

Imagine if you could delegate tasks, streamline processes, and generate SOP's with just a few prompts in ChatGPT.

You'll get access to a full library of custom prompts.

I've invested 100,000s with an AI Engineer to craft them specifically for me and business needs on:

- Sales
- Marketing
- Offers
- Hiring

I've put everything together in an easy to follow process, so you can install AI systems to save time, money, energy.

***Get Coaching From Us Weekly**

You have access to Tayo & Noah every week (2hours) on group coaching sessions for guidance, support and accountability.

They're on Wednesdays at 12 pm AEST.

We always start with a "15-min tactic" to take action on, followed by an open session with members to review challenges, frustrations and get critiques of any outputs.

***Get ALL of Your Questions Answered and Join Ambitious People Like You in The Prosperity Lab.**

The community is there to lend you a helping hand and cheer you all the way to the finish line.

You'll also expand the power of your network and build relationships with like-minded entrepreneurs at your stage and further ahead.

Just jump into the private community and post your question there.

Questions you might have:

*******"Will this work for my type of business?"**

If you haven't heard of us before, we have successfully launched 4 ventures

-Syncskills -Helping Immigrants Thrive and Prosper- <https://www.syncskills.com.au/>

(generated \$29million for 245+ immigrants across the world, company current valuation \$2,million+)

-**Jobos.ai** - AI career Companion <https://jobos.ai/> (with 500+ users, and 30+ paid customers, currently worth more than \$1 million)

-**Syncskills Workforce Consulting**- Connecting Immigrant Talents to employers <https://www.syncskillsworkforce.com.au/> (Current valuation \$150,000)

Oloja Hub- Marketplace solution, connecting immigrants buyers and sellers <https://oloja.com.au/home> - (Invested \$100,000 AUD, valuation figures not available)

We've helped 15+ immigrant entrepreneurs with coaching and advice on starting and scaling a business...

These are different types of businesses, from structure, to marketing, sales, customer service, social media etc.

...and these are the exact same strategies we still use in our business today.

So yes, these proven strategies will work for your market, as they have brought in results for our clients in most verticals.

*****"What's the time commitment?"

That's a fair question because we're looking for a 100% commitment to follow through with the processes, systems, coaching calls and support we're giving you.

What we request is 2 hours a week...

To go through frameworks, join the calls and implement to start making progress.

If that's something you can swing every week, you'll be surprised with the progress you make inside the program.

*******How much is it?"**

If you're ready to unlock your next level of growth...

It could cost you a fortune to miss out on what you'll be getting inside the The Prosperity Lab.

The Private Accelerator clients will pay me \$6,500 for 3months of coaching and love it.

So I could easily justify asking \$1,500 for this group, and you'd still get great ROI...

While keeping all the frameworks, strategies and insights for years of hockey-stick growth.

Instead the investment is:

\$95 USD/ MONTH (less than the price of 3 unhealthy burgers) currently as we open the doors for our first 100 founding members.

Cancel Anytime guarantee, If you believe you are not getting value you can cancel and you would not be charged anymore past the duration already paid.

[Watch behind this from Cosmos \(QLD\)](#)

When my client, **Cosmos** joined one of our bootcamp, he did not know he would learn strategies to grow his business...

[Listen to Ejiro directly \(NSW\)](#)

Ejiro learnt skills to take Naija buds from just another one woman business in a system that can scale even without her working in the business, leaving her to run her business while holidaying away abroad.

[Read from Christabel \(SA\)](#)

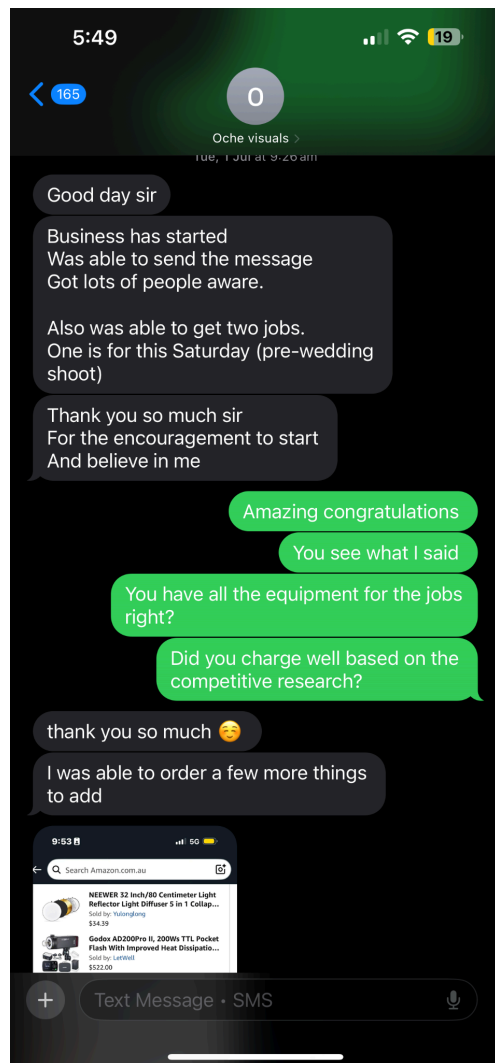

Christabel went from just talking about her hair business on tiktok to building a brand around it, opening a store to welcome in-person customers, and finally launching her website allowing her make more money and scale the business

Read from Oche Visuals(SA)

Oche went from rendering free photography business to friends and church members to monetising and acquiring 5 customers with just a simple message on whatsapp.
