

# Minervan Citizenship Application

Before a player can become an official citizen of Minerva, they must first see if they qualify.

**Qualification 1:** For a player to be considered a citizen of Minerva, he or she must confirm that they plan to live within a Colony, Satellite City, Capitol, or outpost within Minervan territory.

**Qualification 2:** Every citizen must adhere to the Minervan constitution. Failure to do so may result in a banishment from the country, or in extreme cases, being pearled.

**Qualification 3:** All citizens of Minerva must help produce some kind of good for the city. A job may be assigned to a player once they are granted citizenship. For example, Player 1 may be given the title of “*Melon Farmer*”. In this case, he or she would primarily produce melons. While some jobs may be given to a citizen, they are free to choose their own career within Minerva, as long as it is approved by a city leader or officer.

**Qualification 4:** All citizens are required to have an active reddit account.

## How to Apply

To become a citizen of Minerva, you must post a thread on our subreddit, /r/civcraft\_minerva, with the title “YOURNAME Citizenship Application”. You must include your in-game name, any previous cities that you have lived in, any public alts, and why you want to become a citizen.

Soon after your post, one of our city leaders will comment on it, either rejecting or accepting your application.
