5 prompts to increase your resume ATS score

1/ ATS Resume Audit:
Prompt:

“Analyze my resume like an ATS scanner. Identify missing keywords, formatting issues, weak sections, and anything that could reduce my ATS compatibility. Give me specific fixes.”

2/ Match Resume to Job Description
Prompt:

“Compare my resume with this job description. Identify the important keywords and skills I’m missing, then suggest where and how to naturally add them.”

3/ Rewrite Experience Bullets:
Prompt:

“Rewrite my resume bullet points to be ATS-friendly and impact-focused. Use strong action verbs, relevant keywords, and measurable results without exaggerating my experience.”

4/ Find Missing Keywords:
Prompt:

“Extract the top 20 ATS keywords from this job description. Separate them into technical skills, tools, soft skills, and job-specific terms.”

5/ Improve Resume Summary:

Prompt:

“Rewrite my professional summary for this specific job. Make it concise, keyword-rich, ATS-friendly, and focused on the skills most relevant to the role.”
