

# Home assignment:

Dear students,

1. Please watch the Affective computing Ted Talk [here](#)
2. Please watch the CapGemini Video Academy on Affective computing:  
<https://youtu.be/HKpL3sfUVRl>

And finally please, write the answers to the following questions about the videos reviewed in docx and upload it by the deadline:

- Describe what is affective computing?
- What data can be used in order to identify emotional reactions?
- What are some of the use-cases where Affective computing is currently being applied (Please refer to video link)?
