

District Cohort Data for HB3 Board Goals

***READING Cohorts:** Please note that there are different benchmark reading levels at different times during the year. For example, at the MOY for 2nd grade level 20 is considered on-level. However at the beginning of the year 3rd grade these same students need to be at a level 28 to be considered on-level. Students need to be looked at on an individual basis to see if they maintained from MOY to BOY or lost ground during the 2019-2020 and 2020-2021 school year.
