

Funny/Sarcastic/Dumb Amazon Reviews

An F Plus submission by Celebeast

OK I get that people on the internet intentionally trying to be funny is usually entirely the opposite. However the fact is that the weapons grade sarcasm used on topics which orbit dangerously close to FPlus singularity territory made me think, eh fuck it, why not? There are some very odd products out there, so why not allow the witty/dimwitted a moment to make us giggle? I have categorized the products, after a fashion, in no particular order!

5.0 out of 5 stars **DO NOT PUT ON KNOB AND BOLLOCKS**, 24 Jan 2012

By

[Andrew](#) - [See all my reviews](#)

This review is from: Veet for Men Hair Removal Gel Creme 200 ml (Personal Care)

Being a loose cannon who does not play by the rules the first thing I did was ignore the warning and smear this all over my knob and bollocks. The bollocks I knew and loved are gone now. In their place is a maroon coloured bag of agony which sends stabs of pain up my body every time it grazes against my thigh or an article of clothing. I am suffering so that you don't have to. Heed my lesson. DO NOT PUT ON KNOB AND BOLLOCKS.

(I am giving this product a 5 because despite the fact that I think my bollocks might fall off, they are now completely hairless.)

5.0 out of 5 stars **Oh the shame....**, 3 July 2012

By

[A. Chappell](#) (Denmark) - [See all my reviews](#)

(REAL NAME)

This review is from: Veet for Men Hair Removal Gel Creme 200 ml (Personal Care)

After having been told my danglies looked like an elderly rastafarian I decided to take the plunge and buy some of this as previous shaving attempts had only been mildly succesful and I nearly

put my back out trying to reach the more difficult bits. Being a bit of a romantic I thought I would do the deed on the missus's birthday as a bit of a treat.

I ordered it well in advance and working in the North sea I considered myself a bit above some of the characters writing the previous reviews and wrote them off as soft office types...oh my fellow sufferers how wrong I was. I waited until the other half was tucked up in bed and after giving some vague hints about a special surprise I went down to the bathroom. Initially all went well and I applied the gel and stood waiting for something to happen. I didn't have long to wait.

At first there was a gentle warmth which in a matter of seconds was replaced by an intense burning and a feeling I can only describe as like being given a barbed wire wedgie by two people intent on hitting the ceiling with my head. Religion hadn't featured much in my life until that night but I suddenly became willing to convert to any religion to stop the violent burning around the turd tunnel and what seemed like the destruction of the meat and two veg.

Struggling to not bite through my bottom lip I tried to wash the gel of in the sink and only succeeded in blocking the plughole with a mat of hair. Through the haze of tears I struggled out of the bathroom across the hall into the kitchen by this time walking was not really possible and I crawled the final yard to the fridge in the hope of some form of cold relief. I yanked the freezer drawer out and found a tub of ice cream, tore the lid of and positioned it under me. The relief was fantastic but only temporary as it melted fairly quickly and the fiery stabbing soon returned . Due to the shape of the ice cream tub I hadn't managed to give the starfish any treatment and I groped around in the drawer for something else as I was sure my vision was going to fail fairly soon. I grabbed a bag of what I later found out was frozen sprouts and tore it open trying to be quiet as I did so. I took a handful of them and tried in vain to clench some between the cheeks of my arse. This was not doing the trick as some of the gel had found it's way up the chutney channel and it felt like the space shuttle was running it's engines behind me.

This was probably and hopefully the only time in my life I was going to wish there was a gay snowman in the kitchen which should give you some idea of the depths I was willing to sink to in order to ease the pain. The only solution my pain crazed mind could come up with was to gently ease one of the sprouts where no veg had gone before.

Unfortunately, alerted by the strange grunts coming from the kitchen the other half chose that moment to come and investigate and was greeted by the sight of me, arse in the air, strawberry ice cream dripping from my bell end pushing a sprout up my arse while muttering..." Ooooh that feels good ". Understandably this was a shock to her and she let out a scream and as I hadn't heard her come in it caused an involuntary spasm of shock in myself which resulted in the sprout being ejected at quite some speed in her direction. I can understand that having a sprout farted against your leg at 11 at night in the kitchen probably wasn't the special surprise she was expecting and having to explain to the kids the next day what the strange hollow in the ice cream was didn't improve my status...So to sum it up Veet removes hair, dignity and self respect...:)

This review is from: Veet for Men Hair Removal Gel Creme 200 ml (Personal Care)

As a mid-20s relatively athletic male, but with very dark hair and surface coverage of this to rival a Wookiee from Star Wars, I understand the supposed importance of baby smooth skin and properly trimmed hair on the dating scene. I have previously tried trimming, shaving and waxing various areas of my body to no real long term avail, and so was very intrigued when I heard about Veet hair removal creme and decided to try it at the first possibly opportunity.

Having bought this in a shop and not online, I did not have the opportunity to read other people's reviews of this product, and so upon glancing briefly at the instructions when I opened it assumed that the instruction not to apply to ones nether-regions was just being overly cautious. In fact this seemed to be almost a challenge, and being blessed with hair so long you could plait it 8 weeks after its cut fighting to escape my crack this seemed to be a fantastic idea, not to mention the added length I could gain round the front.

With this impeccable logic in place, the first thing I did was to ignore the warning and liberally coat my gentleman's fruit basket and crevice with the creme and wait for the desired effect. After 4 minutes however I realised, in part, the beginning implications of my mistake. It felt as though fire ants had taken up residence in the area and were now at war, and I had tears of agony rolling down my face. At 5 minutes it felt like I had painted my scrotum in a mixture of meat juice and napalm and then dipped them lovingly into a ravenous piranha tank, and by 5 minutes 58 seconds I was positively deranged and on the verge of blacking out.

As an additional note to anybody who wants to use this crème, it should be strongly advised to only use it when next to the shower. You may find otherwise, like I did, that someone else, with impeccable timing, will decide to use the bathroom at this critical time and force you to take alternative drastic action.

In this particular case 13 seconds after the 6 minute mark I was sitting navel deep in a steamy, watery soup of foam, suds, smouldering flesh, and gravy, with my feet on the draining board and my then girlfriend screaming dementedly at me. Apparently charging wildly into the kitchen whilst bellowing at the top of your voice like a mountain gorilla with its toe caught in a mousetrap, and then cannonballing arse first into the sink whilst your girlfriend is doing the washing up is considered inappropriate behaviour, and can be quite disquieting for a poor girl. She did later however admit she was impressed with the polished red hue my rear iris was emitting as it flashed past her vision like a marine distress flare on the back of a speeding truck.

This experience however has taught me 3 sure things in life:

1. God and the universe has a sense of humour

2. Instructions should always be followed, and not regarded as a challenge
3. If you want your plums, tadger and canyon to be smoother than a greased billiard ball, but twice the size, luminous red and 5 times more sensitive use this crème without listening to point 2.

I am giving this product 4 out of 5 stars, as whilst it does do exactly what is says on the cover, (and more), I am docking it 1 star as the girlfriend and love-spuds I once knew and treasured have all but disappeared, and for the first 2 days after I could not sit down without screaming.

4.0 out of 5 stars **Should be quicker at re-generating organs**, April 23, 2008

By

[Twal](#) (UK) - [See all my reviews](#)

This review is from: Guardian Angel (Health and Beauty)

Since losing my spleen in a shocking harpsichord-related accident, I have been searching for a product that would re-generate my lost organ.

Imagine my delight when I stumbled upon the Guardian Angel supplied by the world-famous Dr Yoo. Tears of joy ran down my face when I read in the Product Features that it would also relieve stress, fatigue and insomnia - all conditions suffered by the spleen-less.

So why only four stars? Well, it gets good marks for stimulating every single one of my hands 344 pressure points - yes, I have counted - and for being gold-plated.

Unfortunately, my spleen has not yet re-grown....although I do have a third eye forming in the middle of my head.

5.0 out of 5 stars **I haven't pooped for three days since first listening to this record**, 13 Jun 2011

By

[B J McQueen](#) - [See all my reviews](#)

This review is from: A Whole New World (Audio CD)

I was persuaded to purchase this record by my best friend Abdullah on the basis that it had cured his asthma. The story went that Abdullah had become more and more breathless as the album raged on, until finally during the penultimate track 'I've Had The Time Of My Life' Abdullah quite involuntarily let out a harrowing scream of pleasure and collapsed in a frenzy of fluid. From the moment Abdullah awoke in hospital it was discovered that his chronic asthma had completely subsided, leaving him with lungs 'comparable to that of a 2 year old dolphin' according to the duty nurse.

On listening to the album myself, I am inclined to believe Abdullah's story. I had barely made it through the initial 30 seconds of 'a Whole new World' before I was forced to pause the record and take a shower. I had sweated so much that my many tattoos had faded to nothing and my hair had bleached itself white.

The impact this record will have on our world is comparable only to penicillin. Katie has the voice of a young Marvin Gaye, whilst Peter sounds like the smell of a new born baby. Separately, they are peerless - together, they are what an orgasm would look like if it were human.

If you are yet to listen to this record, you may as well be dead.

Well, I have just listened to the album!

In this age of manufactured pop and "celebrities" with more money than talent this cd was a refreshing change that only be desribed in one word:

Wow.

As someone who has spent 20+ yrs learning to play a musical instrument I was so amazed by the talent on display here that I have just amputated all my fingers as I will never reach this level of virtuosity. I have managed to type this with one of my severed digits held in my mouth. Sorry but it is very difficult to type with a blood obscured keyboard and tears running down my face.

The song "Islands in the Stream" was so moving it has made me take up necrophilia.

If Van Gogh was alive today he would cut both his ears off. Once infused with this nugget of pure musical genius everything else you listen to will sound shallow and pretentious.

4.0 out of 5 stars **Unnecessary for those who have a face like a dropped meat pie**, July 18, 2008

By

[Twal](#) (UK) - [See all my reviews](#)

This review is from: Birth Control is Sinful in the Christian Marriages and also Robbing God of Priesthood Children!! (Paperback)

Despite being written entirely in BLOCK CAPITALS, this self-published work conveys its message elegantly. In fact, you don't even need to read it to understand the main argument

being put forward.

True, by avoiding this book you will miss out on the precise location of the heretical surfboard worshipped by the British royal family and the sinister significance of Abe Lincoln's unholy quadrille. You will also miss out on the explanation of why the Hairy-Eared Dwarf Lemur is really God's own tree-dwelling angel-on-earth and on the coded instructions showing how to grow a prize-winning mushroom, which the author cunningly gleaned from a close textural analysis of St. Paul's third birthday card to the Corinthians.

That aside, my big problem with this book is that the 'birth control is sinful' message is difficult for most regular-looking people to put into practice. I wonder if this lack of guidance is down to the author's own sexual inexperience brought about by her scary fanaticism and a face that would scare a dog out of a butcher's shop.

5.0 out of 5 stars **1 read and 7 kids later, and I keep coming back for more!**, July 5, 2010

By

[ZenAtWork "SFFphile"](#) (Carlsbad, CA USA) - [See all my reviews](#)

This review is from: Birth Control is Sinful in the Christian Marriages and also Robbing God of Priesthood Children!! (Paperback)

Bar none, BIRTH CONTROL IS SINFUL IN THE CHRISTIAN MARRIAGES AND ALSO ROBBING GOD OF PRIESTHOOD CHILDREN!! is one of the best books I have ever read. Examine the excerpt below:

YES: GOD KNOWS YOU HEART AND GOD KNOWS YOUR INTENTIONS: BUT>>: THE VERY ACT AND THOUGHT OF BIRTH CONTROLLING> IN A CHRISTIAN MARRIAGE: HAS ROBB GOD AND THE CHURCH OF MAY PRIESTHOOD CHILDREN: **CHILDREN RAISED IN THE LOVE OF JESUS HAS ALWAYS BEEN A TRUTH AND A KEY TO FUTURE AND PROSPERITY OF THE KINGDOM OF GOD AND HEAVEN.**

THAT, ladies and gentlemen, is a labor of LOVE. No Caps Lock laziness in BIRTH CONTROL IS SINFUL IN THE CHRISTIAN MARRIAGES AND ALSO ROBBING GOD OF PRIESTHOOD CHILDREN!! No sir! Not only is it evident that Ms. Eliyzabeth Yanne Strong-Anderson wrote the entire book in Notepad (spell- and grammar-check are the sinful birth control of word processors after all), but she clearly held the SHIFT key down for the entirety of the writing evidenced by the use of '>' as opposed to '!'! Don't you see the symbolism? Missed periods for all!

Now, as a Catholic, I already know it's not only my duty to be fruitful and multiply. Moreover, I know how important it is to ensure the priesthood has a sufficient amount of children, preferably in the form of open-minded, flexible, unsupervised boys. But Birth Control is Sinful in the

Christian Marriages! really reinforces the point!

In CHAPTER 1: BIRTH CONTROL IS SINFUL IN A CHRISTIAN MARRIAGE: AND ALSO:>ROBBING GOD OF PRIESTHOOD CHILDREN, in which Ms. Eliyzabeth Yanne Strong-Anderson brings the titular concept to light.

In CHAPTER 7: ">>MY LETTER TO THE CHURCHES:EVEN SO: GODS HOLYSPIRIT BOOK OF REPENTANCE AND REMEMBERANCE: EVEN REVALATIONS 2 & 3 actually contains valuable bonus material (spoiler alert!)! That's right, BIRTH CONTROL IS SINFUL IN THE CHRISTIAN MARRIAGES AND ALSO ROBBING GOD OF PRIESTHOOD CHILDREN!! actually contains TWO whole additional Books of Revelations! Me, I thought the Rapture pretty much summed things up, but BOY WAS I WRONG!

CHAPTER 8: ** WHEN DOES LIFE BEGAN?? serves to assist the reader in clearly grasping How Is Babby Formed, as well as providing a deeply satisfying understanding of temporal realities.

All in all, BIRTH CONTROL IS SINFUL IN THE CHRISTIAN MARRIAGES AND ALSO ROBBING GOD OF PRIESTHOOD CHILDREN!! is THE SEMINAL American, and especially CHRISTIAN literary epic. Nothing else need ever be written on the subject! Chock full of bible passages, CAPITALIZED WORDS, and semi-lucid abstract concepts, this work provides the clearest example of the true CHRISTIAN mind ever put to paper!

4.0 out of 5 stars **Freud Helps Hargreaves Loosen His Tie**, March 2, 2010

By

[Hamilton Richardson](#) (London, UK) - [See all my reviews](#)

This review is from: [Mr. Tickle \(Mr. Men and Little Miss\) \(Paperback\)](#)

Hargreaves' first work, and regarded by many as his masterpiece, Mr Tickle is something of a rarity amongst the Mr Men books. Elsewhere, we see much exposition on the pitfalls of excess - such as in Mr Greedy and Mr Messy, for instance - but a distinct lack of discourse on personalities that are over- rather than under-regulated. A case in point might be another work, Mr Fussy, which stands out as an opportunity glaringly missed. Despite a faintly ridiculing tone to the prose, this is essentially a lamentation on how others cannot live up to the high ideals and perfectionism of its titular central character. It is at best an ambiguous critique of repression, and Mr Fussy escapes the moral judgment so often dished out to others in the series.

So what a glorious anomaly we find in Mr Tickle - a breath of fresh air from the unrestrained id. The all-consuming sensual delight he offers relentlessly disrupts the social order. A postman drops all his letters in a puddle, the tickling of a policeman causes a traffic jam, and the unbearable reverie he inflicts upon a station master brings the local rail network to a temporary standstill. There is something almost Bakhtinian about the manner in which he tickles a dour schoolmaster until he loses control in front of his class.

But Mr Tickle is not Stirner's Egoist, nor does he proclaim 'do what thou wilt shall be the whole of the law'. And if he is a terrorist, his weapons are laughter and ecstasy. Though his principal targets may well be those who wear uniforms - those who exercise, embody and therefore are most in the grip of Authority - we would be mistaken to think that Hargreaves' purpose is to challenge the external Social Order. Rather, it is to loosen the vice-like grip of an interior foe: the overdeveloped Superego.

We note that Mr Tickle himself is no slave to sensory delight - quite the opposite; he is a model of psychical equilibrium. At the end of his day's escapades he relaxes in an armchair, sated and quiescent. Our hero preaches a message of catharsis - a call to arms against becoming too bogged down by self-suppression and normative regulation. Via psychoanalysis, we arrive at an Aristotelean middle way, and are left with the gentle realisation of our need to give a measure of expression to desire and joy.

Because one thing we can be sure of is that the more we repress the pleasure principle, the more we guarantee that sooner or later we will fall victim to an overpowering and fervid release from the id.

And rest assured, it will be at just that hour we fail our Superego the most.

5.0 out of 5 stars **A Parent's Review**, February 20, 2011

By

[Noel D. Hill](#) - [See all my reviews](#)

This review is from: How to Avoid Huge Ships (Paperback)

As the father of two teenagers, I found this book invaluable. I'm sure other parents here can empathize when I say I shudder at the thought of the increasing presence of huge ships in the lives my children. I certainly remember the strain I caused so long ago for my own parents when I began experimenting with huge ships. The long inter-continental voyages that kept my mom and dad up all night with worry. Don't even get me started on the international protocols when transporting perishable cargo. To think, I was even younger than my kids are now! huge ships are everywhere and it doesn't help that the tv and movies make huge ships seem glamorous and cool. This book helped me really approach the subject of huge ships with my kids in an honest and non judgmental way. Because of the insights this book provided, I can sleep a little better and cope with the reality that I can't always be there to protect my kids from huge ships, especially as they become adults. I'm confident that my teens, when confronted by a huge ship, are much better prepared to make wiser decisions than I did. At the very least my children certainly know that they can always come to me if they have any concerns, questions or just need my support when it comes to the topic of huge ships.

5.0 out of 5 stars **Now I know what that steering wheel thingy is for**, January 30, 2011

By

[Cap'n Crunch](#) - [See all my reviews](#)

This review is from: How to Avoid Huge Ships (Paperback)

This book really is one of the best huge ship avoidance references I've come across, not just for the effective methods it teaches as to avoiding huge ships, but also for exploding some of the huge ship avoidance myths that many of us take for granted.

For example:

- Do not charge the huge ship at full speed in an attempt to scare it off. This may work with coyotes, but it is less effective with huge ships.
- Similarly, do not roll your boat over and play dead. Unless the huge ship is captained by a grizzly bear, this will not work.
- Do not attempt to go under the huge ship. This is typically not successful.
- Do not attempt to jump over the huge ship.

Captain Trimmer presents a rather novel technique for avoiding huge ships - move your boat out of the path of the huge ship. I know what you're thinking, this goes against conventional wisdom, but Trimmer presents significant empirical evidence to support his theory. Indeed, over the long run, moving out of the way will dramatically decrease the number of huge ship collisions you will

have to endure in your daily life.

By

Madeline B. (Avon, CO) - [See all my reviews](#)

This review is from: How to Avoid Huge Ships (Paperback)

I'm a little annoyed with the sarcastic "reviewers" of this book. You all seem to think it's funny that some people would honestly like some expert advice on ways to avoid huge ships. What, you've never been traveling at a very, very slow speed straight toward something really, really big that you could see for miles and miles away, and wished you'd known what steps you could take to avoid crashing into it? Well, all I can say is "congratulations!" What's it like to be so perfect? You haters just keep on enjoying your huge-ship-collision-free little fantasies. I for one am going to buy this book and learn something, because I live in the real world, where huge ships and the dangers they present to people like me are actually a serious issue.

1.0 out of 5 stars **This book is libelous!**, January 14, 2013

By

Paul Pearson - [See all my reviews](#)

This review is from: How to Avoid Huge Ships (Paperback)

This book contains several awful distortions and manipulations of the truth, as well as some outright lies, about large ships. It only contributes to the toxic culture of marine megalophobia that holds our world in poisonous sway. But then, that's the nature of our finger-pointing culture, isn't it? For example:

Page 23: "The USS Enterprise was a front for a crack-cocaine operation." FALSE.

Page 36: "The Bismarck used to seduce sailors on shore leave, only to leave them in the morning with syphilis, empty wallets and regret." FALSE.

Page 51: "Bills of lading state that before taking off on its fateful voyage, the Titanic was up all night drinking whiskey and playing poker with underage canoes." The poker allegation is FALSE.

Page 57: "The Lusitania was asking for it." LIBELOUS.

Page 66: "The Santa Maria slapped Columbus repeatedly, screaming, 'For the last time, THIS

ISN'T INDIA, YOU IDIOT!" UNCONFIRMED.

Page 71: "...at which point, Captain Stubing was forced into an unnatural position with Isaac The Bartender." FALSE.

Page 92: "USS Constitution? More like USS Opium Den! Am I right?" INEXCUSABLE.

Page 98: "...when in actuality, the Curse of the Black Pearl was acute tonsillitis." FALSE.

Page 102: "'Ah, who's gonna notice? We're hundreds of miles away from civilization,' said the Exxon Valdez." SCANDALOUS.

Hate-filled pieces like "How To Avoid Huge Ships" perpetuate outdated stereotypes about large sea vessels, and prevent us from seeking a more nuanced understanding about the issues facing plus-sized ships. Please don't encourage this kind of antiquated prejudice. All large ships are born decent, love-filled ships, who are products of their environment and upbringing, and nothing more.

Large aircraft, on the other hand, deserve what's coming to 'em.

5.0 out of 5 stars **Now I know how I got my job!!! My boss has a binder, too!!!**, October 18, 2012

This review is from: Avery Durable View Binder with 2-Inch Slant Ring, Holds 8.5 x 11-Inch Paper, White, 1 Binder (17032) (Office Product)

I watched the Presidential debate on Tuesday. I didn't understand most of it, but I loved what that one guy said about his binders full of women. Those ladies were so lucky! I work for an asset management firm which tends to be a male-dominated industry. I have long wondered, as a woman, how I managed to get hired at my firm when there were surely many more qualified men. Could my boss have a binder, too?

On Wednesday, my boss called me and said, "Hun, would you come down to my office?" "Yes, sir!" I eagerly rushed down. Sitting on top of his desk, next to a box of golf balls and his "World's Greatest Boss" figurine (here's a little secret - we girls think he bought it for himself! Teehee!), was this beautiful Avery Durable View binder. You can see in the product photo that there is that dumb-looking piece of paper stuck underneath the front cover. Boring! My boss removed that, and replaced it with a pink piece of paper that said "Greg's Girls." It was so pretty! The letters were in cursive, written with a fuchsia marker. There were stickers of flowers and hearts on it, too. He saw me gazing at it with wonder, and he said with a shy smile, "My secretary designed the cover."

I was so happy to finally have all my questions answered, right in this wondrous binder. "Can I touch it?" I whispered. "Yes, and if there is anything you don't understand, just ask, sweetheart."

I held my breath as I flipped through the pages, until I found a tab with my name. The first page was a photo of me taken from my Facebook profile. Beside it, someone wrote a couple of notes: "Looks pleasant enough." "Would she consider losing 10 pounds?" Now I understand why my boss always asks me to get coffee from the place 5 blocks away, rather than from the one in our building. He's so funny!

4.0 out of 5 stars **Convenient storage for woman and related accessories**, October 18, 2012

This review is from: Avery Durable View Binder with 2-Inch Slant Ring, Holds 8.5 x 11-Inch Paper, White, 1 Binder (17032) (Office Product)

As a very busy and successful businessman and politician (who is also extremely wealthy), I need the most functional and easy to use items at my disposal. I have been using these Avery Durable View Binder with 2 Inch EZ-Turn Ring, White to store my multitudes of "not quite as qualified as men, but it's ok because they're only women" female candidates and employees.

There are many features that make this binder so useful:

- The EZ-turn rings keep the women contained during the day, but make it so easy to release them at 5:00 to go home to make dinner. With my previous binders, I had to devote too much of my time to freeing the women to complete their necessary household duties.
- The interior pockets provide storage for all the paraphernalia associated with women, like makeup bags, recipe books, etc. Before they would just clutter up the office.

- Women are now easily categorized for much faster reference! We have ours sorted into Blonde, Brunette, or Redhead...but you could easily group by age, bra size, typing speed, or anything else you could imagine!
- Gap-free rings make it seem as though you are completely serious about closing the gender gap!
- Durable construction can withstand all the banging on the glass ceiling organizers

Overall, I highly recommend these for anyone with heavy-duty women storage needs. If you are a lighter user of female storage, you may want to check out a Trapper Keeper for your needs instead.

As a woman, I'm not adept at making decisions that concern me. So when I need the right choice, I turn to the presidential candidate that KNOWS. One with prideful experience in this department. I don't want to be filed away in an inferior & confusing electronic doohickey that I couldn't possibly understand. Or heaven forbid, have a man ask for & listen to my ideas! I'd much rather rely on this top of the line, 1980s style, Avery Durable binder. It's the choice America can trust. My education, my ideas, my opinions, my choices, please PLEASE keep them safely stored away here and far away from the men that might fear them (I mean, want to use them to hire me somedaynever). I'd write more about this most useful product, but it's time I hurry home to make dinner.

This review is from: Avery Durable View Binder with 2-Inch Slant Ring, Holds 8.5 x 11-Inch Paper, White, 1 Binder (17032) (Office Product)

Wow, this binder has really changed my life. Before I was always trying to fit into the corporate world. I wanted things like equal pay, safety from sexual harassment and the right to have health care coverage for birth control. But after purchasing this binder I feel totally put in my place.

Now I know from the safety of my binder that men are much more capable of making these kinds of decisions for me. I obviously do not deserve equal pay because I am always asking for special accommodations, like leaving early to make dinner for my children- which is in no way, under any circumstances, a man's responsibility. Women are the one's who always cook dinner, every night. Asking to leave early for this purpose is a fair reason to pay us less for the same exact work. Also, sexual harassment I learned is actually just a man's way of showing his affection for me and reminding me of my weakness and inability to care for myself. Finally, birth control is in no way a right. Women are the vessels in which men plant their seed, from the safety of my binder I can be available for procreation at all times. I am so grateful for my binder. The world is such a simpler place from in here. It also has the added bonus of helping me control my emotions and preventing me from making irrational decisions like voting. 5 stars, Amazon!

5.0 out of 5 stars **A male perspective**, October 18, 2012

By

[Geoff Read](#) - [See all my reviews](#)

This review is from: Avery Durable View Binder with 2-Inch Slant Ring, Holds 8.5 x 11-Inch Paper, White, 1 Binder (17032) (Office Product)

While I've found all the reviews of this product most enlightening I couldn't help but notice that they all seemed to be penned by women. I thought I'd set the record straight with a male perspective. Ladies, take note.

I purchased the Avery binder about a year ago. Before I had this product, my women were everywhere. I ran into them in the halls, they were in my home, sometimes occupying the bathroom for long hours, it was basically chaos. Once I acquired my binder, however, everything just made sense. Whenever I need someone with an innate capacity for home economics to rush home and cook my dinner, I open my binder and presto, there's my lady. I usually let her know how much I appreciate her contribution with a firm open-palmed smack on the behind. In my experience, women love that kind of affirmation, and if they don't get it they lose self-esteem. If by chance, a woman I pull out of the binder doesn't live up to my expectations or objects to the pat on the bum, I've created a special section deep at the back of my binder and I consign her there never to be called upon again.

In short, the binder has created order from chaos. In many ways, it helps to restore what I think we all feel deep in our hearts to be the natural order. I recommend this product most highly.

What better way to teach the next generation how to behave in a police state than with a toy such as this? I'm really hoping that they come out with a toy in which the kids can play "interrogator". Think of all the fun the little folks can have waterboarding those who "hate our freedom".

I like the basic idea. I applaud Playmobile for attempting to provide us with the tools we need to teach our children to unquestioningly obey the commands of the State Security Apparatus, but unfortunately, this product falls short of doing that. There's no brown figure for little Josh to profile, taser, and detain? Where are all the frightened plastic Heartlanders pointing at the brown figure as they whisper "terrorist?" Where are the hippy couple figures being denied boarding passes? And shouldn't someone be forcing a mother figure to drink her own breast milk?

I bought my daughter this because she was developing an unhealthy attitude questioning authority. We used to run drills at home. I would tell her she had to stand in the microwave and she would just roll her eyes. Now that she's got this in her toy box she's been more understanding about her responsibility to subject herself to warrantless searches and cancer-causing radiation.

Still, not as good as the Falun Gong Forced Organ Harvest play set. She really dug that, but the tiny, plastic organs kept getting lost.

= Durability:3.0 out of 5 stars = Fun:5.0 out of 5 stars = Educational:4.0 out of 5 stars

Generally, this is a good product for teaching children to obey people who say you should obey them, which of course is how to be a good citizen and everybody knows it.

Unfortunately, the plastic is a lower grade than it should be. When my daughter was unable to make one of the terrorist passengers confess and applied a heated piece of coat hanger wire to the terrorist traveler's face, instead of divulging the lies he was withholding, his face melted. Very disappointing given the strength of other plastics on the market. If we are going to use this as a teaching tool, we need to think in terms of the future here.

We also quickly became aware that the nice security agents needs to give out audible voice commands to help children learn the cues for future submissive behavior. For example, when the TSA agent gropes the old lady in the extended pack, he should shout, "Either you do it, or I will have you arrested! Do you want to fly to see your children or spend tonight in a cold cement jail cell?!!"

There were other areas lacking realism, but that one seems an easy fix for later upgrades now that batteries have gotten smaller and speaking dolls are common.

I'd also have preferred not to pay so much extra just to get the working handcuffs and the holding cell for the traveling terrorists our children help apprehend to make the collective better.

4.0 out of 5 stars **These worked great in the cockpit for our transcontinental flights!**, November 4, 2009

By

Linky's Dad (Alexandria, KY) - [See all my reviews](#)

My copilot and I both used these during our "daily grind" transcontinental flights from San Diego to Minneapolis. We had to modify them a bit to fit snug against the instrument panels (when we bought them we didn't realize the planes we fly don't have steering wheels!), but in the end it did the job. With our laptops firmly in place we were able to focus our attention on what really mattered, participating in raids with our WoW clan. During our last flight we were so immersed in trying to take down Eranikus that we overshot Minneapolis by a full hour and a half before some annoying flight attendant interrupted us, babbling something about "FAA and F16 fighters."

We'll definitely use this product again at our next gig, whatever and whenever that happens to be...

Highly recommended!

Wow is this thing great! I use it as a "mini-bar" when the friends and I go out to the bars. I can quickly fix multiple shots of tequila for myself and the friends as we drive from one bar to the next. We also discovered that if you place a pillow on top of it and turn on the cruise control you can catch quick naps on the interstate. If you swerve to the left or right the rumble strips on the road wake you up in plenty of time before you get into trouble. I can now take longer trips without being tired!

Also, i am now dating a midget and she fits nicely on the steering wheel desk which allows us to experiment sexually while driving. This thing is like WD-40 or duct tape, it is a million and one uses!

As a cocaine addict on the go, I have lost countless ounces of blow as I have inefficiently tried to to snort lines from either from my dashboard or straight from the bag while navigating the modern motor way. But thanks to the AutoExec Steering Wheel Desk Tray, my life has changed forever! It's the perfect size for me to cut lines and still have room to rest my razors and rolled up bills. It also stops blood dripping on my lap when I get nose-bleeds! Now I can drive my children to soccer practice without having to choose between their safety and my coke habit.

Thanks AutoExec

The Parent Child Testing Product worked as well as I hoped. I tested both my children using this device and confirmed my hunch - the 1-year old was going to turn out as badly as I thought,

breaking my heart and living in the basement doing nothing but playing video games, and doing badly at that as well. Without this test, I'd have had to waste DECADES waiting for him to grow up before kicking him out. I'm taking him back to the hospital tomorrow morning.

I put this in the doorway to my 3 year old's room and then walked away. It's been 4 days now and he hasn't tried to leave the room. Heck, he hasn't even cried!! Every so often I put a bowl of water in the floor and some sandwiches and I see him rocking himself gently to sleep under his mattress, all tucked in. This is SOOOO much better than leaving him in the kennel - and guests are much less judgmental. You should get your today!

Several doctors had previously tried to test me in the conventional way but to no avail. They just couldn't tell.

Then my parents bought me this and got some great results. It was really easy to use and I was tested in no time at all! It's just an added bonus that this is a pack of five - it allowed them to take an average of my test results to be extra sure. The tests can be re-used, too, so there's really no downside. Safe, fun, educational, result-yielding.

Me and my mum and dad highly recommend this item.

Since the birth of my daughter I have found myself laying in bed many a night pondering the question, am I a parent? Is my daughter really a child? Is there a product that can answer this question so I can finally get some sleep? Thankfully Amazon has just a product.

The package arrived on time and in good condition. I eagerly opened the package and within minutes was taking the test. Half an hour later my suspicions were confirmed. I am a parent and my daughter is, in fact, a child.

Thanks, Amazon! Now I can get some rest!

5.0 out of 5 stars **These Pants Are Sick!!!**, September 23, 2012

By

This review is from: Zubaz Pants: Black/White Zubaz Zebra Pants (Misc.)

Ordinarily I wouldn't take time outta my busy routine of pumpin' iron, mirror flexin' and oiling my muscles to write a review for a friggin' pair of pants, but dude, I just gotta let everyone know how much I love Zubaz!! Of the 29 pairs of pants that I've ever owned in my life (I've kept track, bro), these are by far the most comfortable and are great for nearly every occasion. From lifting weights down on Venice Beach to dumpster diving behind the GNC, to just chillin' on the couch watching Ultimate Fighting matches. They help me stay "juiced & loose" and feel "wild & dangerous". Just like the company's motto. Some other thoughts on these pants:

Pros: They're not only comfy as hell, they're totally stylish too. When I'm wearing `em I look like a centaur with the torso of Hercules and the body of a French Zebra or something. Another bonus is that if you accidentally spill Muscle Mayo protein shake all over your Zubs, you don't ever need to worry about it ruining them. Any and all stains totally blend into the bitchin' design.

Cons: None. The only thing I'd really say is to make a suggestion. Zubaz, you totally need to expand your clothing line and go into formal wear. That's right, dudes, formal wear. I've got two words that will change the face of both your company and the world forever: Zubaz Tux!! I got

married a few years back and had to construct my own out of fabric from an old Zubaz sleeping bag, but if you came out with an official tux collection, I'd totally get remarried in one in a heartbeat.

Anyway, I hope they're reading this and heed my advice someday (hire me as a consultant dudes!!), but until then all you need know is one thing. Hands down, these are the sickest SICKEST pair of pants that you'll ever wear!!!

I have found most pants do not possess the sheer testicular capacity needed to house a woman-pleaser of my caliber.

So I was a little skeptical upon ordering these Zubaz pants. But after wearing these pants I can only say they are, without a doubt, the pants of the gods! How else could one explain the quality and style detailed in these 60/40 poly-cotton elastic purple zebra print man-pants? Nay, not man-pants, but from henceforth, MANTS!

From the first moment these mants caressed my groin area, my gonads immediately felt cradled and secure, yet free enough to sway hither and fro upon the slightest movement.

The reactions I received upon sporting these diety inspired mants were amazing to say the least. Upon approaching women, I found they could not take their eyes off of my sugar bulge. Their eyes were transfixed as if staring into the face of God! I also noticed their pants or skirts would drop almost immediately upon my arrival and their panties would explode off of their bodies in a blast of sexual anticipation. It was incredible!

And the male reactions were equally amazing! I noticed even the biggest, toughest guys would avert their eyes and cower in fear upon my approach. I mean, honestly, who wants to get a roundhouse kick to the face by a guy sporting these bad boys? Answer: NOBODY!

Bottom line is, I highly recommend these mants! Buy them in every color for every occasion! It changed my life and it can change yours too!
