

Introduction

All students are required to have at least one Chair or two Co-Chairs approved to serve on their committee. Some programs require that additional members also serve on the committee. This document shows how to add, remove, and change faculty roles on your committee.

Locating the Faculty Committee

1. Access your iPOS through your MyASU page.
2. Click on Advisors.

3. Click on Faculty Committee.

Adding Faculty

The Faculty Committee page displays the minimum number of qualified faculty members required to complete the committee for your program. If your culminating experience is a thesis or dissertation, you will need to have an approved, completed committee in order to schedule your defense (additional conditions may apply).

Faculty Committee

Your graduate faculty committee is a resource for advice and guidance on course selections, project topics, and program requirements. Your program requires that you have a committee of 3, although some program paths may require additional members. Your staff advisor, program handbook, and program website will provide you with support as you set up your faculty committee. You may also utilize the [Graduate Faculty website](#) which is a resource for PhD endorsed faculty.

IMPORTANT: All faculty must meet the qualifications to be approved to serve on committees. Refer to the [Graduate Faculty](#) to review the approval areas for faculty in your program. Note that all faculty approved to serve on a PhD committee are also automatically endorsed to serve on the committee for students in the associated Master's degree.

Below is an example of the faculty approved to serve on the committee for students in the History PhD program. Students in the History Master's degree program can also utilize these faculty for their committee. Note the level of endorsement, or approval type, for serving on the committee.
