Bullying Explained

When someone underage bullies another child they may not really understand what they are doing. Bullying may occur on impulse, but may turn into a bad habit. And the bullying can get violent. A child guilty of bullying may eventually be charged as an adult.

The child may be having trouble with understanding deep rooted emotions and does not know how to keep their feelings in check. Children should start learning the difference between right and wrong as well as common courtesy, as soon as possible.

Of course, each individual and each circumstance can be complex. Sometimes children or adults have trouble with understanding how things are transpiring.

Every child needs careful care and nurturing every day which should include a thorough understanding of any deep rooted emotions they may be keeping to themselves.

[My idea is to organize the manufacture of research papers with the help of AI. The statements written out by AI need to be carefully examined before the entire work is published. I have attempted to indicate where writing by AI begins and ends. The AI writing sometimes requires minor editing.]
