Why do I always Keep seeing 666

666 is the sum of all the numbers from one to thirty-six.

666 is also a highly recognized biblical reference since it is one of the 7 Hebrew "unclean" numbers and because $6+6+6=18$, which means in the biblical gematria system that 666 equates with Nebuchadnezzar (who transformed into an animal). Some believe this is due to apocalyptic interpretations of Biblical prophecy or astrological references. Others believe it's just random coincidence--after all, there are so many other high-value combinations including 1111 and 8888 for example.

One possibility might be that when identifying sequential repetitions of "threes", people only go up to 36 before starting over at one.

Many people believe that the number 666 is a sign of bad luck when someone looks at it. Twin Flames who see the angel number 666 are not always experiencing negative phenomena. You can also read about [655 angel number](#) on our website..

I have two sets of [twin flames imbued with angel numbers](#) and they're both 6's :)

If someone tells you some crazy story involving an alternative meaning to your name such as a satanic history then maybe this person is just kidding themselves and trying to rationalize their own fear rather than facing their issues. In general, judging others only pushes negativity forward instead of bouncing it back so raise your consciousness by taking charge and do something trusting like praying
