

Materials List

Intro to Drawing

This is the list of supplies posted at the start of the course.

- metal ruler or wood ruler with a metal edge
- newsprint pad (30 lb. standard weight), 18" by 24"
- fixative
- drawing paper (60 or 80 lb. standard weight) 18" by 24", at least 30 sheets; recycled paper is acceptable
- a variety of graphite pencils, ranging from HB to 8B
- gum eraser
- kneaded eraser

If you are unable to get the above items, see this modified list of ESSENTIALS that you MUST have to complete all assignments. Let me know if you are unable to get any of the items below.

- **Blank, white paper**
 - Minimum size should be 8x10". Maximum size of 18x24".
 - You can use a sketchbook to easily keep all work together, or loose sheets are fine too.
 - Drawing paper is preferred (60-80 lb is standard weight) but you can use printer paper if that is all you have.
- **A pencil**
 - Or a smaller set of graphite drawing pencils.
 - Minimum of 3 that include HB, 2B and 4B
- **Eraser of any kind** (FYI some pencil sets will come with an eraser)
- **Pencil sharpener**
- **A ruler (can be metal, wood or plastic)**
 - Or something to help you draw straight lines (the edge of a book or folder will work)

These items can be bought from multiple stores for varying prices. I would suggest the following locations:

- [Walmart](#)
- [Michaels](#)
- [Amazon](#)
- Dollar Stores (may have sketchbooks and rulers but probably not drawing pencils)
