EXPERIENCE

Freelance — *Fullstack Web Developer*

November 2024 - Current | Bradenton, FL

- Developing automation solutions for small businesses, streamlining workflows and improving efficiency.
- Building full-stack applications with React, Astro, Supabase, and Appwrite for scalable web solutions.
- Creating custom Excel macros in Visual Basic to automate data processing and reporting.

OnlyFlows — *Frontend Web Developer*

December 2023 - November 2024 | Bradenton, FL

- Built interactive user interfaces with React, Next.js, and TypeScript for real-time stock market analysis, integrating API data and charting libraries.
- Assisted with customer support, resolving technical issues and gathering user feedback.
- Coordinated task delegation between developers and the social media team.
- Created interactive social media features for real-time communication among traders.

State College of Florida — *Developmental Writing Tutor*

January 2020 - July 2023 | Bradenton, FL

- Provided personalized writing support for online and in-person students.
- Fostered students' critical thinking and professional communication skills.
- Boosted student confidence through constructive feedback and mentoring.

EDUCATION

State College of Florida — *Coding Bootcamp Graduate*

March 2023 - August 2023 | Bradenton, FL

- Developed expertise in JavaScript, React, Node.js, Express, and PostgreSQL.
- Designed intuitive UI with Figma, Tailwind CSS, Bootstrap, and Material UI.
- Strengthened collaboration and networking skills in technical environments, while under deadlines.

State College of Florida — *Associates in Art*

January 2019 - May 2022 | Bradenton, FL

- Graduated with academic honors; Dean's List (4x).
- Worked as a student tutor, mentoring peers in writing and communication.
- T.E.F.L certified, qualified to teach English as a Foreign Language.
