Control/maintenance/daily medication(s):

Name _____ Amount & how often to be given_____
Name _____ Amount & how often to be given_____
Name _____ Amount & how often to be given_____
Name _____ Amount & how often to be given_____

Management at School:

Self-Carry/Self-Administer- the student may self-carry and self-administer his/her own rescue medication
when:

- The parent approves and health care provider has signed approval on the "Self-Carry/Self-Administration" line of MCPS 525-13 or on the health care provider Asthma Action Plan.
- The school nurse assesses the student's skill level and ensures proper and effective use of the medication in school, which includes storage of medication and when to ask for help.

When my child has an asthma episode at school, health/school staff will do the following:

- Administer emergency medication if prescribed.
- Permit student to rest in the health room.
- Permit student to self-carry inhaler and self-administer rescue/ emergency medication when the above requirements #1 and #2 are met.
- Contact Parent/guardian when student experiences symptoms and when medication is used.
- Call the rescue squad (911) as deemed necessary in emergency situations.
