

Summer Work Art and Design

In preparation for your induction week and getting to know you, we would like you to create a visual diary of your summer. This can be done using any format that you choose for example in a small notebook or using found pieces of paper that you collect and bind together.

We would like you to be as experimental as possible with materials, use collage, stick in scraps that you collect from days out, do observational drawings of the things you do and people you see, take photographs, record observational key words about the things you have done (do this by including words to describe the events for example, colour, textures, shapes and your feelings)

Try and complete 10 pages (don't worry if you don't go anywhere during the summer, record the things you do at home, the films you watch, the games you play etc)

We will be looking at your diaries in the induction week to help us get to know you and your interests.

Have a lovely Summer and we look forward to meeting you in September!

Trudie and Erik
