

Shake & Shake (For Tsuki Yorokashi)

Come and, look at what I've noticed from the start
don't wanna miss this, don't wanna miss this, you don't wanna miss this

Come now, gather 'round and feel it in your heart
don't wanna risk it, don't wanna risk it, won't let you risk it!

Over here and over there and
everywhere and all the time
Singing, dancing, proudly prancing, taking chances, you'll be fine
Look at this now look at that and
witness all the wonders of the world
Like a firework our chemistry will sparkle in the sky

Alright, alright, alright, we're flying higher

Shake it, la la la, shake it la la la
Let's mix it up, we're shining brightly
Shake it, la la la, shake it la la la
We'll form the most amazing parade
Shake it, la la la, shake it la la la
Shake it, la la la, shake it la la la
I know it may sound pretty strange
But everything is bound to work out

Shake it, la la la, shake it la la la
Let's mix it up, don't mix it lightly!
Shake it, la la la, shake it la la la
No room for desperation today!
Shake it, la la la, shake it la la la
Shake it, la la la, shake it la la la
We'll laugh and wave our fights away
We're born for this, I know without a doubt

My favorite future's gotta be one I share with you
No matter what they do, I'm gonna shine tonight
