

Message from the MS/HS Arabic Department & Library

We are excited to announce that Mr. Sameh Abdel Khalek has published his *Arabic Reading Club* website as one of the sources for Arabic classes at our school. Besides having a HUGE collection of short stories and articles, the website acknowledges diversity and inclusiveness through the different cultures and celebrations throughout the world, in order to be true to the Schutz Learner Profile Traits of being knowledgeable and to present to the world "confident global citizens".

A link to the website will be sent to the students on google classroom.

Closely related to that is our summer reading campaign hosted by the MS/HS Arabic Department in coordination with the MS/HS library. Reading platforms to be used are: *The Arabic Reading Club*, and <u>Hindawi</u>. The Arabic teachers will select some short stories with different reading levels and post them on Google Classroom. Students will be discussing the reading material with the Arabic teachers and the MS/HS librarian during the first week of school, and would be expected to present their reading projects as well.
