

Effective Date: July 30, 2026

Welcome to MultiformAI Generator 3D Model (the “App”), developed by Jaroslav Šťastný (“Developer,” “we,” “us,” “our”). By downloading or using the App, you agree to these Terms of Use (the “Terms”). If you do not agree, please do not use the App.

1. Use of the App

The App lets you generate 3D models from text descriptions or images using artificial intelligence. You are responsible for the content you input and the models you create. You agree not to use the App for any unlawful or infringing purpose. We reserve the right to suspend access for violations.

2. Intellectual Property

The App, its underlying AI technology, and all related software are owned by the Developer. You retain ownership of the 3D models you generate, subject to your compliance with these Terms. You grant us a limited, non-exclusive license to process your input solely for the purpose of providing the generation service.

3. Privacy & Data Handling

We value your privacy. The App does not collect, store, or share any personal information. When you generate a model, your text or image is transmitted to our own servers, processed, and immediately and permanently deleted once the model is ready.

We may collect fully anonymized, non-personal usage data (e.g., which features are used) for analytical purposes only – this data cannot be linked to any individual user.

No facial data, biometric identifiers, or face-related information is ever collected, extracted, or stored.

All AI processing stays on our private infrastructure; no third-party AI services or cloud processing providers are involved. For details, see our Privacy Policy.

5. Refunds

All purchases are final. Refund requests are handled solely by Apple according to its policies. We do not process refunds directly.

6. Disclaimers & Limitation of Liability

The App is provided “as is” without warranties of any kind. We do not guarantee uninterrupted, error-free operation or specific results from AI generation. To the fullest extent permitted by law, the Developer shall not be liable for any direct, indirect, or consequential damages arising from your use of the App.
