

# THE SECRET HISTORY OF YET ANOTHER FUNKIN NIGHT

*aha see what i did there*

## SECTION 1: INKYUGUTZ

On 1/6/22, @Inkyugutz made a tweet blaming FNB for a raid that happened inside of their server, even though we have done nothing to provoke them. They didn't contact us about this privately and instead IMMEDIATELY brought it to twitter. When I found out about this, I tried asking them who specifically raided them. They refused to answer all of my questions.

(The tweets are now deleted for whatever reason, but I still have most of them archived.)

We NEVER harassed Kamex for perms to add his mod to FNB. This is a gigantic lie, and here's evidence to back it up. (both screenshots are from back in November)

 @Kmatexp [IRS] im pretty sure we're just fine cuz we originally have sonic exe perms still  
 evalyne 11/25/2021  
Alrighty then. I think we're "chill" with ace too cause dax told me he we have permission cause kamex just doesn't care (it's just the chart and songs and perhaps animation anyways)

Ok who

The tweet Inkyu made responding to the one above was deleted, but I KNOW she said word for word that he doesn't know who did it. If you don't know who's responsible, why are you blaming us for it?????

Also, I thought I should mention that we don't steal mods anymore. I admit that back in October we were all acting like pricks, but ever since we apologized, we haven't done anything related to mod stealing. Inkyu has still been spreading word that we were *still stealing mods and putting them into our game*, which is complete bullshit.

[Here's a list of mods we have permission to add.](#)

**Something that REALLY tipped my lid was the fact that Inkyu was intentionally sabotaging our game for No Fucking Reason. We did NOTHING to them ever since November, but they still decide to go after us for absolutely no reason. These screenshots were taken on 12/28/21.**

Jeez.

## The last image presented shows **CLEAR EVIDENCE** that inky is trying to ruin our game.

It's impossible to say that there's "no context to that image" or some other bullshit like that. All the context is there. You're trying to **FUCK US OVER FOR NO REASON.**

Also, here's something I feel like mentioning. I've never said ANYTHING inside of the image she sent related to me shittalking YAFN staff. When Melon was going through some personal shit in his life, I was there to support him. I was *Really Fucking Hurt* when I found out that he was talking shit behind my back like that. Another thing, when word of kizu saying the n word in the YAFN dev gc got out, their first instinct was to **hide all traces of it** rather than to apologize for it. Kizu himself can confirm that this is true.

## SECTION 2: FOGU

FoguDragon is a contributor for YAFN which has not only been spreading misinformation about us, but has also refused to settle the tension that *she* started with us. She's treated the entire FNB team like garbage despite our numerous efforts to redeem ourselves as good people.

Here's a picture from November showing off how she treated us back when we tried confronting her:

Message @Fogu

Here's an image of what she had to say on the same day that Inkyu made his tweets accusing FNB of doing bad shit to YAFN (Spoiler alert: It's a lie!!!!)

FYI, We have over *100 modders* in our server who can all tell you that they weren't harassed when we asked for permission to add their mod. :)

Finally, here's an image of her fakeass apology when I started talking about how I would compile together a document containing all of the horrid shit that YAFN has done to FNB within the past 3 months. I can smell through your lies, and I know pretty god damn well that you aren't sorry.

**robo2** Yesterday at 6:05 PM  
You shouldve listened when i tried confronting you originally

**Fogu** I realised it's dumb for me to blindly protect my friends so please, explain

**Fogu** Yesterday at 6:06 PM  
I was blindly protecting my friends  
It was unprofessional of me, i'm really sorry about that  
Let's just settle things please so i can leave this all

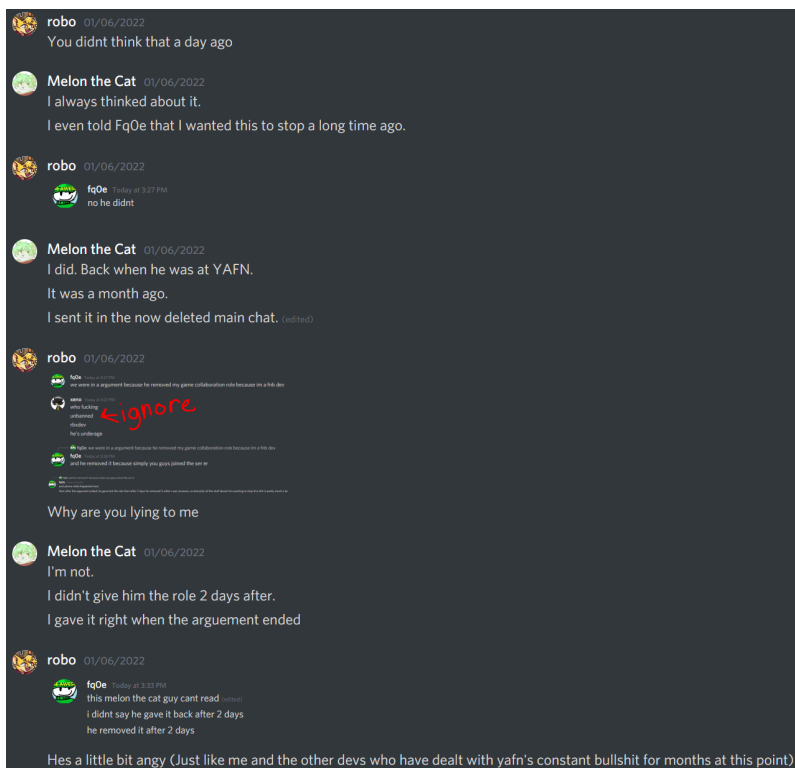

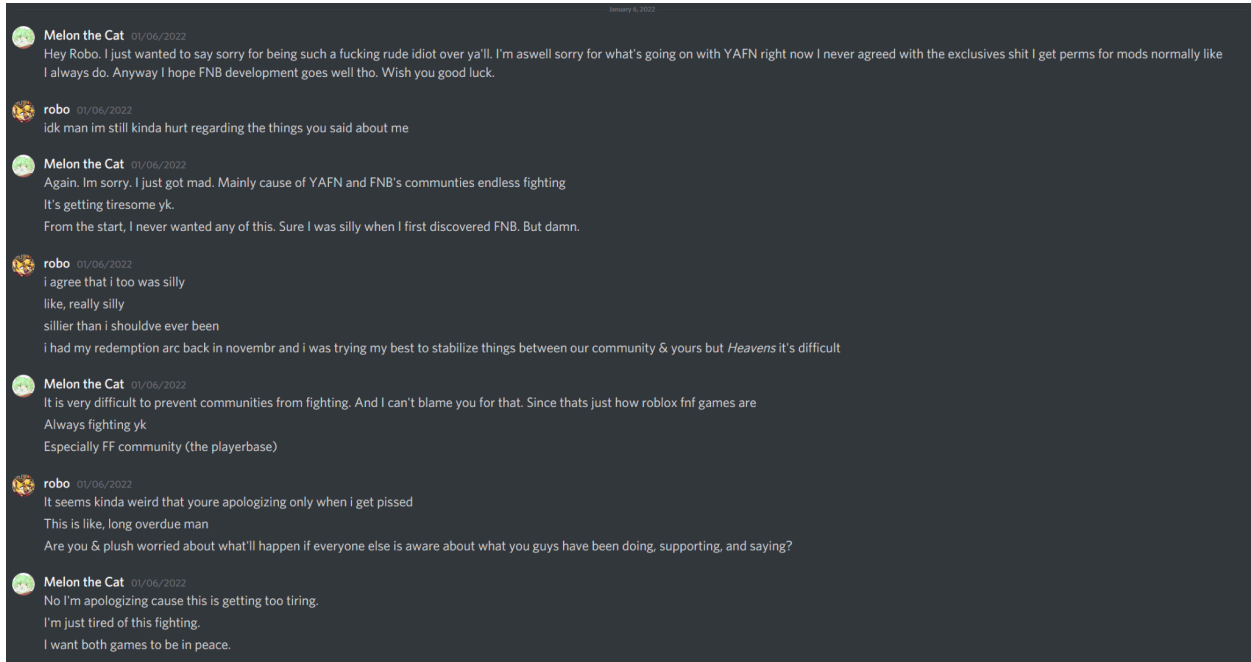

**robo2** Yesterday at 6:07 PM  
You tried getting  
SO MANY MODMAKERS  
to revoke perms for fnb  
and you wanna apologize now?

**Fogu** Yesterday at 6:07 PM  
Yeah, because i was being dumb and selfish  
And honestly just following a bandwagon  
I understand that you don't want to accept my apology, i'm completely fine with that, just know that i'm sorry

# SECTION 3: MELON

Melon's been CONSTANTLY bashing on FNB and it's developers for as long as I could remember. This dude apologized to me on the 6th, and his entire apology was stuffed to the brim with lies. Here's the entire thing.

If you couldn't tell already, he was lying about wanting the drama between FNB and YAFN to end. He had lots of beef with us for absolutely no reason at all and was lying about fq0e, our co-owner, to make himself look better. I've apologized for the shit I did back in September-early October so many times before, and they've always refused to acknowledge those apologies. The funniest part about this is that the ONE TIME they actually apologize to us is the time when they lie to us the most.

## SECTION 4: PLUSH

PlushtrapDev, a YAFN dev and a former EMFNF2 dev, is one of the dudes who brought the most hate to our community. When YAFN was hijacked, he immediately pinned the blame on us and publicly said that one of our developers (synergy) was responsible for it. When I confronted him, he later said that he wasn't actually sure who the hijacker was, though he suspected synergy. To tell **all** of your members that an FNB dev is responsible for basically nuking half of your server (without any proof btw) puts us in a really, **really** bad spotlight. Plush is most definitely aware of this considering that he's been slandering us for almost 3 months.

On 1/6/22, I confronted him about all of the accusations and harassment that he's been bringing us for the last 3 months. Here is our entire confrontation. I encourage you to read it and to decide who's the better person here on your own.

robo 01/06/2022

Hi lets chat a little bit  
Wuzzup with the accusations  
Where yo proof at  
[@PlustrapDev](#) This is rather important id like you to respond

PlustrapDev 01/06/2022

robo 01/06/2022

Is that the guy who hijacked you

PlustrapDev 01/06/2022

yes

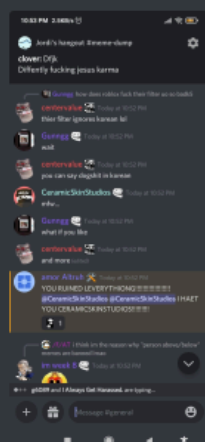

robo 01/06/2022

Ok do u know who it is

PlustrapDev 01/06/2022

Synergy seems to be the most likely from what I was given

robo 01/06/2022

Do you think there is a possibility he was fucking around because his name was ceramic skin studios  
And do you also think its a good idea to automatically throw out the assumption that it's synergy even though theres no definite proof  
Like, you & your staff made it known that you know its synergy  
There's no "maybe" or "possibly"  
Its a definite conclusion made by you & the staff  
(which is incorrect btw)

PlushtrapDev 01/06/2022

then do you maybe know who it was? cuz it was from the FNB cord, and it was done to slow us down  
they deleted all important channels  
and I'm sorry for jumping on Synergy right away, but both them and fq0e shit on us all the time to the point it gets tiring too  
we could try and see who it was behind it, but I just want you to know it 99% was from your server that it came from

robo 01/06/2022

it wasnt from fnb  
i can guarantee you that  
if it was actually from us, there would've been at LEAST one person talking about it before cassi mentioned it  
and hearing about shit like this infuriated me btw

xin/inkyu Today at 01:11

they dont know im spying on fnb.....

xin/inkyu Today at 01:12

@melon when you start asking for perms on high quality

next time i get a bigger mod to ask for ill ask if they would  
like for it to be yafn exclusive  
the more fnb cant get the more we win  
besides it looks like a really cool title and people like that

im carrying an elephant and a half to keep my own community from barraging at yafn out of the respect i have for maky, but that type of shit makes it REALLY DIFFICULT

they wouldnt talk to me about anything that they think we've done wrong so that we could sort things out on a peaceful note  
ive seen that theyve been telling modmakers that we're horrible individuals who do horrible things to others

yeah ive heard about that server that mushy and rotten have, it shows **porn** to people who are **<18**

It is not casual. It's not legal for someone who is under 18 to watch porn on the internet.  
It is illegal to show porn to people who are under 18. This means that if a young person is showing another young person a porn video, they could be committing an offence.

how about mushy  
mushy isnt 18 from what i remember 🤔

Dont ghost me like this buddy  
Ive given so many chances to you & yafn, thinking we could all be chill and happy  
And today i was shown that all that effort of being happy funtime rainbow party plaza Was Burnt To Fucking Ash

**PlushtrapDev** 01/06/2022  
I'm sorry I'm in the middle of something important in real life I don't mean to ghost you  
Also Mushy hasnt been staff for almost a month, shortly after that shit started happening

**robo** 01/06/2022  
Its been happening prior to that tho  
Im certain that ive heard about it before when i was still in the server  
But yknow, cant rily get proof of that anymore

**PlushtrapDev** 01/06/2022  
I still have my grudge against you for what you've said to people before, and for what you've said on FNB, but if it's to help both games get somewhat along I'd do fucking truces

truces? now? after the 3 months of harassment youve brought to me and the FNB dev team? this is LONG overdue, man

robo 01/06/2022

What i did was offend others

What YOU'RE doing is defending something illegal

This isnt similar at all

Ive apologized for what i did back in november btw, never heard anything back from you

robo 01/06/2022

Ok thats one thing out of the way lets go back to talking about the other 5

1. You accused synergy for no fucking reason
2. You also accused fnb for no fucking reason
3. Your permissions manager has been trying to gatekeep mods from FNB, intentionally trying to destroy our game
4. Your permissions manager is stalking FNB and constantly looking for things to take OOC so that we look bad
5. Your mods shittalk their own friends behind their backs just because theyre in FNB
6. Your permissions manager has once said that "because they have contacts with other popular fnf modmakers, they could get them to say bad shit about FNB to completely ruin us"
7. **You Guys keep Fucking Attacking FNB When We Do Literally Nothing To You And Its Been Like This For Quite Some Time Now** (edited)

and im SHOCKED that melon would get on my back as well

I might not like that guy as much as anyone else does but i felt so fucking bad for him when i heard about him & his relationship stuff

I tried helping him out in dms and idk if i managed to do anything or not but i still made the effort

PlushtrapDev 01/06/2022

Air let me BackTrack to them all and I'll try and see what I can do

1. I'm sorry, I assumed it due to DMs abt it from the faker and Synergy both being the same person and I'm sorry abt that

robo 01/06/2022

Sorry isnt enough plush, you couldve contacted me or literally anyone else about this and instead i found out it was brought to twitter

he stops at 2. because he knows he cant defend the other 5 things that YAFN has been doing to us

PlushtrapDev 01/06/2022

2. Same as above as it being FNB, due to how some people there attack YAFN constantly too I thought one had gone that far

I dont like all this either, it gets tiring to hear  
It just gets a little annoying when people start saying death Threats or that Melon's GF should have always left him from the start, coming from FNB

I honestly dont even know who did that

@robo Mr. I-spent-a-night-at-dinner-with-a-black-guy

**PlushtrapDev** 01/06/2022

Ight yeah that was fucking stupid

**robo** 01/06/2022

robo 01/06/2022

I have SO Many screenshots of shit that yafn staff+ has said & done and it outrages me how bad you guys are compared to us  
Sure, our community isnt the best  
But Yours?  
Holy.Fucking.Shit dude.

PlushtapDev 01/06/2022

Who are the people holding a grudge against you.

Yeah I know I myself am not the best abt it, but I'm willing to just shut up if it isn't true  
I just hear what Im told or shown in the screenshots and, if it is what you say, as in poorly OoC to make you all look bad, jesus fuck  
I dont want a war, nor I want a rivalry when both of the games themselves are good in Quality

robo 01/06/2022

Think About The Community Though

The difference between undertale & deltarune is that one has a good community & the other one is Shitty  
which is why people respect deltarune fans more when compared to undertale fans (edited)  
My community is Shite™, but Your community is DogShite™

Rules fluctuate every hour, nobody knows what can get them banned & what wont

I heard that The Moment a funky friday contributor joined that discord, every higher up put on gallons of makeup and started saying that FF was a good game  
But you & i both know thats not true, is it?

I think FF is shite compared to other roblox fnf games and i know you do too

I dont hide the fact that i feel that way even though ponko and aussie are in our server

They can think that its unfunny as much as they want, im not gonna play pretend for them (Unlike You 🤡)

PlushtapDev 01/06/2022

Yes FF ticks and sucks compared to other games, I just want to seem friendly to them because they felt unwelcome in EMFNf due to the constant hate.  
Yes I know our Community isn't the best and me and the other try and get it to be decent. No, our Community isn't the best, none of them is, FF's prob is the childest of em (not even Deez Nuts jokes 🤡) but yes you are right, us Attacking FNB isn't Right either and we shouldnt ever be doing it from the start. I feel bad for it after I know what you've had to go through as well from this shit. I am just trying to be a good person, idk what Im doing half the time. I'm sorry.

Sorry for the late response, eating rrr

robo 01/06/2022

So you wanted to be friendly to FF because they weren't welcome in one (1) server, but you wont welcome our developers despite our attempts to have good interactions?

PlushtapDev 01/06/2022

Also wanna know something funny

PlushtapDev 01/06/2022

Yeah that was, me due to the blind hatred to FNB's Community

robo 01/06/2022

This is like the first time yafn's apologized for doing anything and its not even a public apology

DO you know how many times we've had to make announcements about shit YOU guys have put us through

Our game was FUCKING CANCELLED, DUDE

this whole thing is a lie  
to butter me up btw

PlushtrapDev Yeah that was, me due to the blind hatred to FNB's Community

PlushtrapDev 01/06/2022  
Also due to fq0e simply being there to hate on us

@robo Our game was FUCKING CANCELLED, DUDE

PlushtrapDev 01/06/2022  
I can see that you guys have shown change

robo 01/06/2022

fq0e Today at 3:42 PM  
@robo  
thats a fucking lie  
i was just chatting and sending memes

Kassatto Today at 3:42 PM

fq0e Today at 3:42 PM  
thats all i did

PlushtrapDev 01/06/2022  
Alongside getting permissions and other good content

robo 01/06/2022  
Did you think we changed a week ago  
Because a week ago you were Still Talking Shit about FNB  
Not even a week ago it was moreso like  
3 days  
Getting permission from modmakers to use their mods ingame has been *SO FUCKING DIFFICULT* because of you  
AND I PUT UP WITH IT  
FOR MONTHS  
**MONTHS PLUSH**

yet another lie

PlushtrapDev 01/06/2022  
In honestly, I knew you all changed abt a week ago  
I was told abt it due to the Mic of Time dev  
And yeah I started feeling bad abt the shit we had make you all go through

robo 01/06/2022  
So You Kept Talking Shit?

PlushtrapDev 01/06/2022  
In public, yeah, but I do regret hiding the Change  
I didn't mean to cause you all issues on the long run, it was more so because more and more people came to us abt how the game fucking sucked and that FNB was way better for no reason that made me go full on stupid mode  
Yes I'm seriously sorry Robo  
I Dont WANT you all to be damaged cuz of shit that's untrue  
And I know you dont really want the reverse either  
This is all just fucking nonsense Over Roblox games which both have the same intentions  
"just for fun"

robo 01/06/2022  
I started working on fnb for fun  
Everyone was happy playing the game, the devs were happy making the game  
Sure, the beginning was rough, but we managed to stabilize ourselves  
*But Even After That, You Guys Kept Fucking With Us*  
Youve left permanent damage to our community & how people view us  
Im not accepting a half assed apology from you that came as a result of my dozens of screenshots regarding YAFN's corruption

90% sure this is a lie too but i can't confirm

PlushtrapDev 01/06/2022

What can I do for you to accept my apologies

robo 01/06/2022

Let your community know about the stuff youve done to us & to the other members, and the things you guys defend

PlushtrapDev 01/06/2022

Ok yeah I can do an Announcement regarding FNB's hatred being lies

But what do you mean "defend"?

If it's about the mushy situation I alr told you all I know and what my view on it is

It's disgusting they do that

robo 01/06/2022

Maky's in it, she can see porn

Isnt that kind of weird

(She is 16 D:)

PlushtrapDev 01/06/2022

Talk to her abt that, I know you both are friends, she might explain that to you

But I can show on the Discord that FNB has changed yes

Is that ok for you?

robo 01/06/2022  
"Hey guys fnb has changed. No more harassment plz. thx"

PlushtrapDev 01/06/2022  
No not that

robo 01/06/2022  
That wont fix anything

PlushtrapDev 01/06/2022  
Full on fucking explanation

robo 01/06/2022  
You should also explain the stuff about yafn staff  
What theyve been doing to us

PlushtrapDev 01/06/2022  
Maky today purged 90% of YAFN staff

robo 01/06/2022  
I Wonder Why!!!!

PlushtrapDev 01/06/2022  
Yeah due to all this

robo 01/06/2022  
Some friends were telling me she was gonna do this a while ago  
and even said she would  
and she literally just changed role names & colors  
Im Quite Pissed

PlushtrapDev 01/06/2022  
I'll write the Announcement to you and I'll let you tell me What's missing about it alr?

robo 01/06/2022  
I want you to write it yourself without guidance from me  
I'll see if you learned anything today

PlushtrapDev 01/06/2022  
No what I mean is, I do it all by myself and show you the final thing  
And what your thoughts on it are  
I just dont want any missinformatkon

robo 01/06/2022  
ironic coming from you :D  
i wont be giving you any suggestions  
if what you said here is true, youll know what to say

said this because i wanted to know whether or not he was lying during our confrontation

**PlushtrapDev** 01/06/2022  
Here's on a more serious announcement:  
**Friday Night Bloxxin' does not do half of what is publicly said against them.**

They ask for mod permissions before adding the mods into their game, the developers too simply want to have fun with the game like all other games do.  
No, Robo isn't an asshole as some people say, hes quite a nice person, simply what's shown is terribly out of context or are very much false. We don't condone any harassment to anyone on the team of said game for things that aren't their fault. It's already been too long for this whole "war" between YAFN and FNB, we don't want both communities to end up hating each other for lies.  
In fact on that topic, I'll even say that some of our old staff had hated on the game for lies and they were demoted for it too. Yes myself included came to this as well for hating on FNB alot and I've talked with Robo about all of it and what's true and what isn't.  
On another note, if any Bloxxin' developers / contributors want the collab role (role for games which are on good terms with YAFN), feel free to DM or Ping me about it.

Thank you for reading this and remember to never attack anyone for lies. We're trying to change this and we hope you do too.  
Is that ok for you and the other devs?

**PlushtrapDev** 01/06/2022  
I unbanned you on YAFN if you wanna come back

*I responded to the things wrong with this statement in a twitter post a while ago its a bit hard to read stuff on there but it calls out whatever the fuck type of "apology post" this is*

**PlushtrapDev** 01/06/2022  
I unbanned you on YAFN if you wanna come back

**PlushtrapDev** 01/06/2022  
dm me everything I need to say, word for word, I'm not mentally fine to do this all myself and I don't want this to end up worse than it needs to.

I'm done myself, I just want the game itself to live without me.  
I'll say it all tomorrow morning, going to bed.

**robo** 01/06/2022  
im not telling you anything  
im disappointed that you didnt know what to say after the hours we spent talking

**PlushtrapDev** 01/06/2022  
I'm dissappointed too.  
My brain is fucking stupid, and I'm the fucking reason the games gonna die. Hooray 0-2 for me  
I just don't want to even get this again. I'm just gonna move on to nothing now.  
I really wish you tell me what I missed and I'll address it tomorrow, no buts, no ifs, no changes, I just want no more of this.  
I made you feel bad before, nows my turn to feel bad.

**robo** 01/06/2022  
ill send evyrrthing tmrw probab;ly

**PlushtrapDev** 01/06/2022  
I'm sorry for existing in this community. Hit me with everything you have.  
Someone will also contact CaptainJackAttack to make him take down the og video and reread the whole thing regarding FNB.

**robo** 01/06/2022  
its not about captainjack anymore  
he can do whatever he wants with his life idc

**PlushtrapDev** 01/06/2022  
It's about me, yeah, I know.

**robo** 01/06/2022  
if it wasnt for him i wouldnt have apologized for the shit i did

*realization that his "apology" wasn't truthful*

*was planning to send him this complete document*

## SECTION 5: MAKY

Here's some pretty bad shit that Maky's done not only to us, but to her own contributors as well.

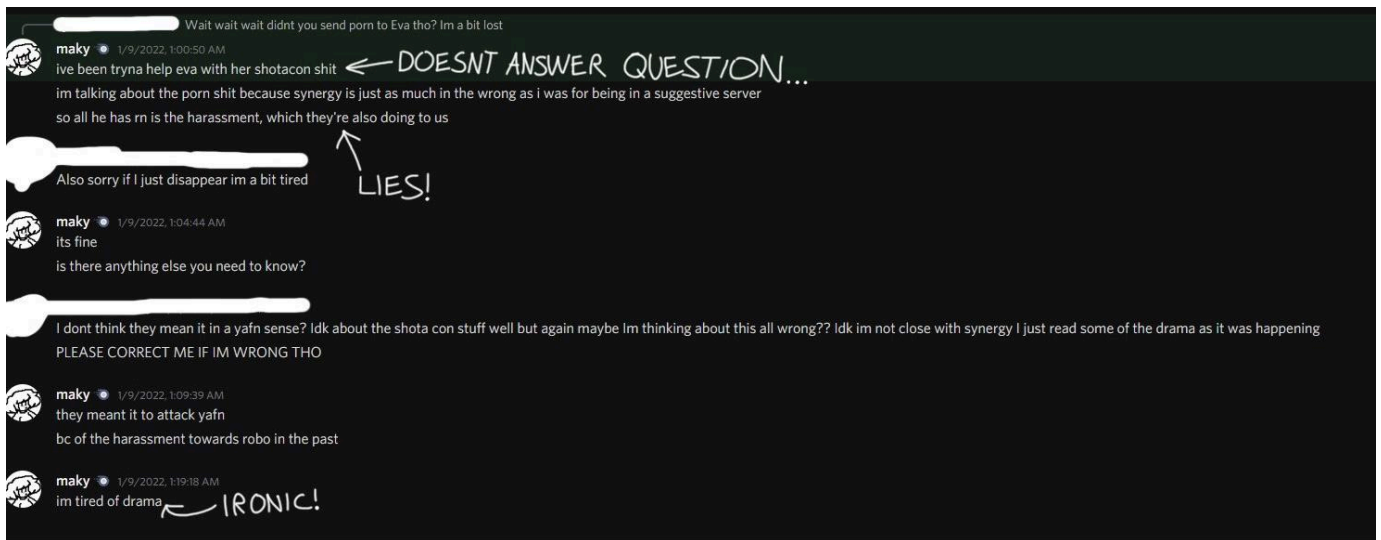

- + Allowed people to harass FNB
- + Doesn't pay her devs/contributors
- + Defended a pedophile (twice!)
- + Contributed towards some **pretty illegal shit** (view next section)

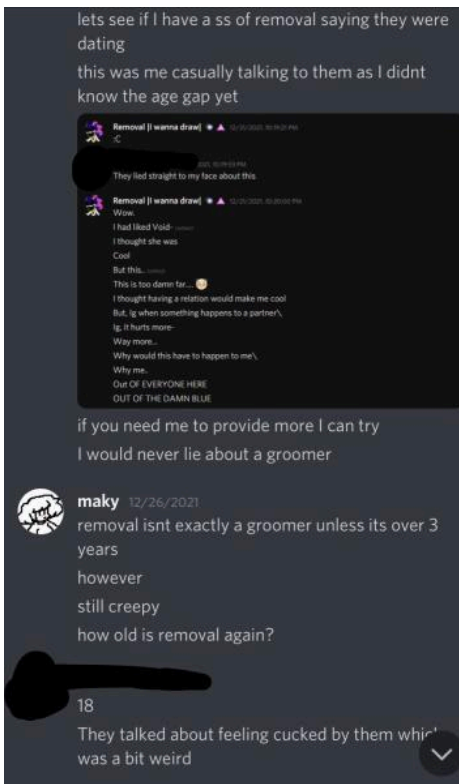

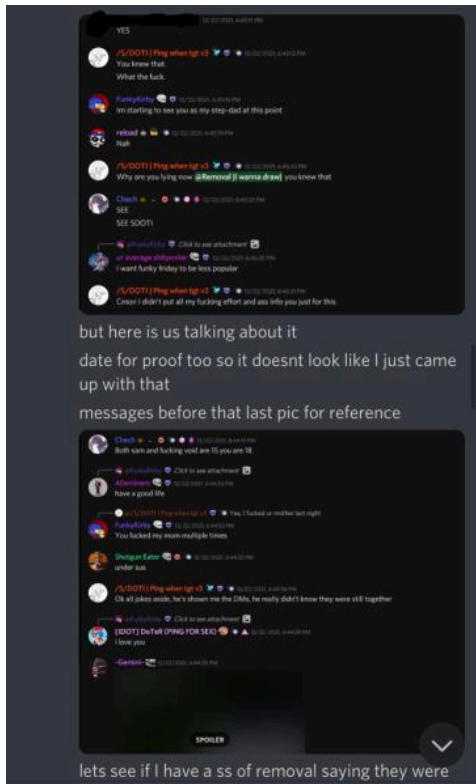

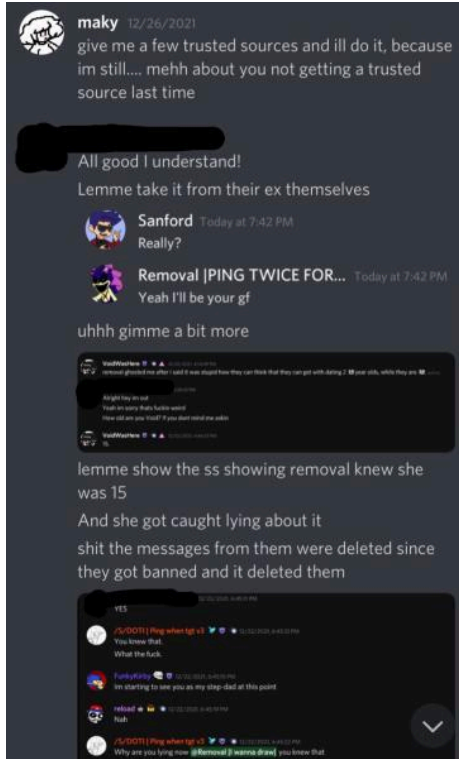

Although I have no proof of her constant harassment towards our community (yafn's main channels were deleted), I DO have an ingame screenshot of their developers literally pissing on a mimic of me in their game. Pretty rude of them.

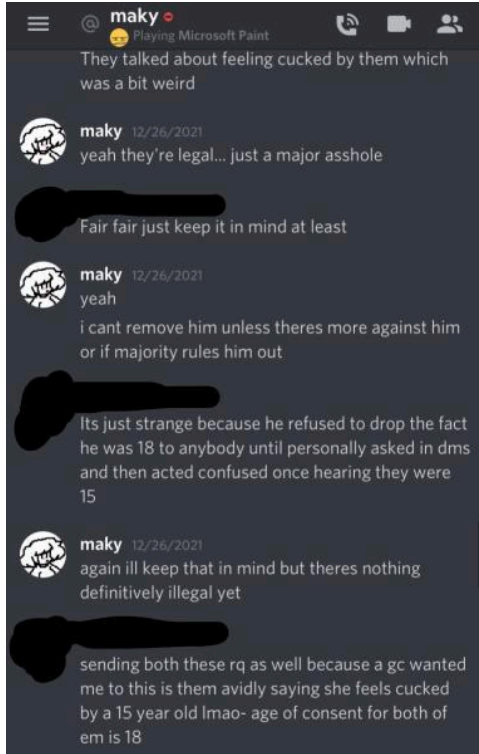

Also, here's a [video taken by one of the developers](#) when they were adding a trash can w/ me in it into their game.

As for their defense towards **literal fucking pedophiles**, have a few images:

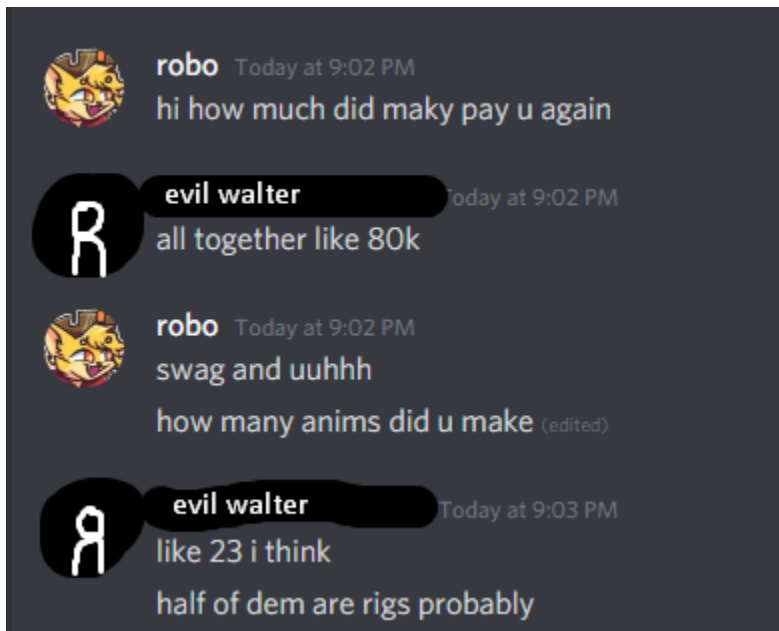

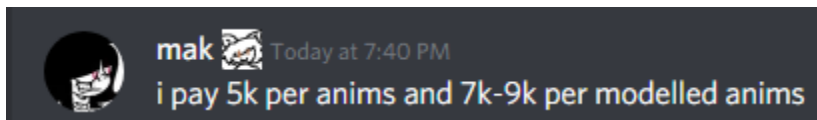

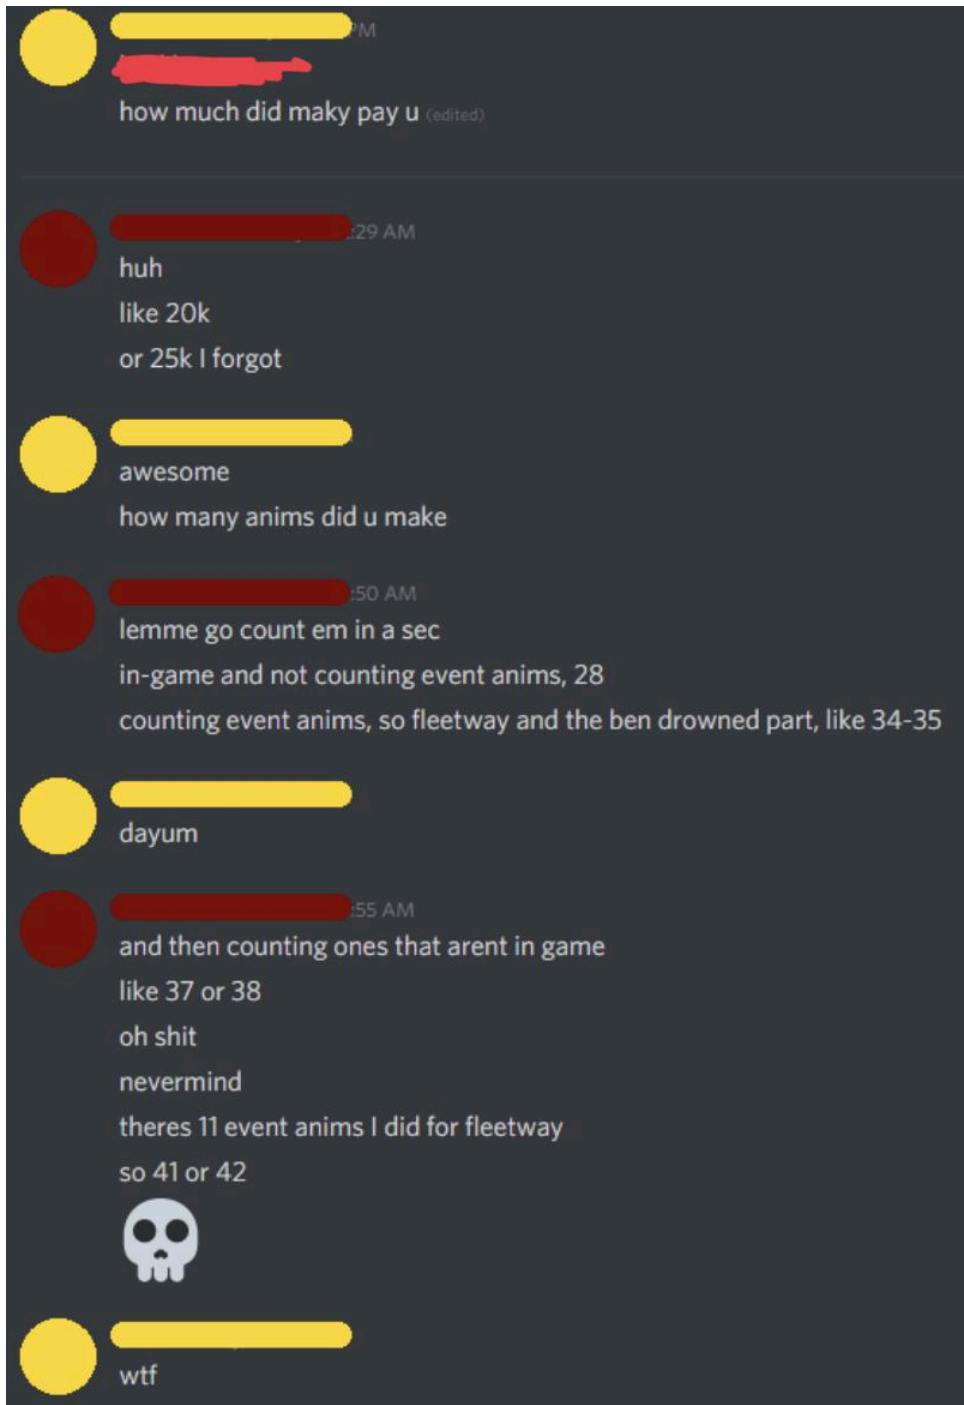

Note: Removal was banned from the YAFN server as of 1/12/22, but it wasn't for evident pedophilia. It was because they stole art.

As for the proof of her underpaid developers:

Assuming that 11 of anon's animations are rigged (and that they were worth 7k R\$), they were supposed to be paid **181k** R\$. Compared to the 80k they were paid with instead, that's a *GIGANTIC* scam.

This anon should've been paid at **LEAST 190k R\$** for their hard work. **They received not even a fifth of what they were supposed to be paid.**

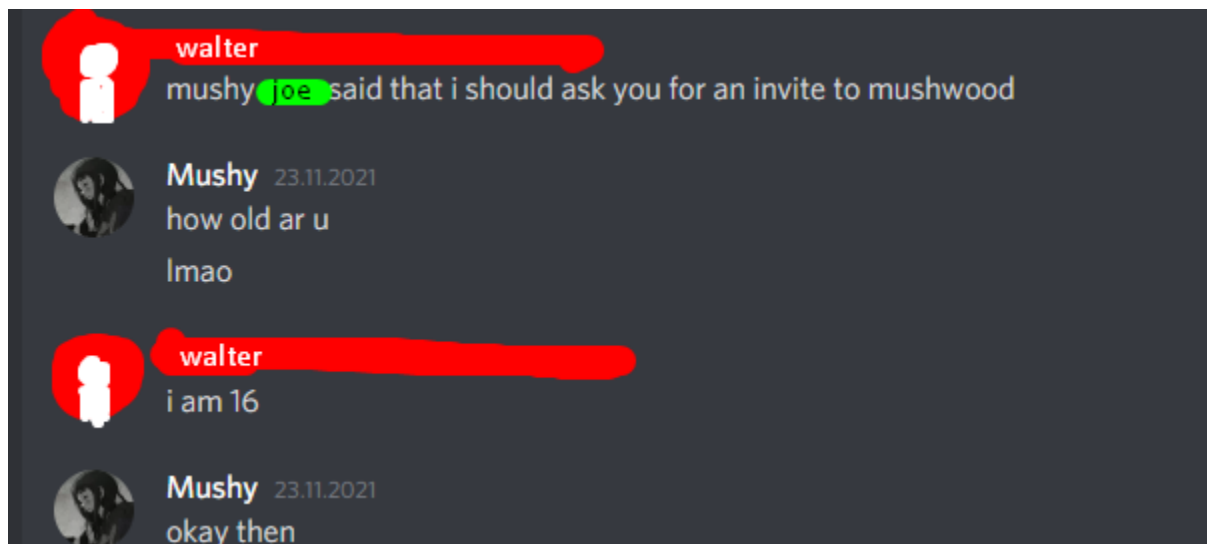

Now, onto the pretty weird shit...

## SECTION 6: THE ACTUALLY ILLEGAL SHIT

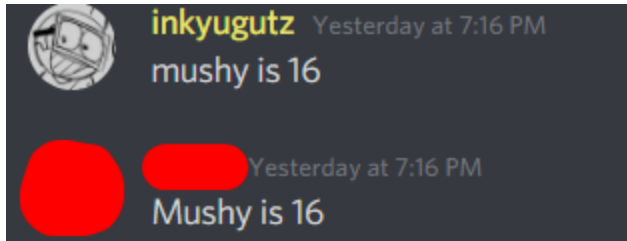

You wanna know something that most of the YAFN higher ups have been participating in? They've been **distributing pornography to people below the age of 18**. Pretty fucking crazy, right?

Some people who I know were involved in this are **Maky, Inkyu, Melon, Mushy, and Rotten** (rotten is the only one who's 18 btw)

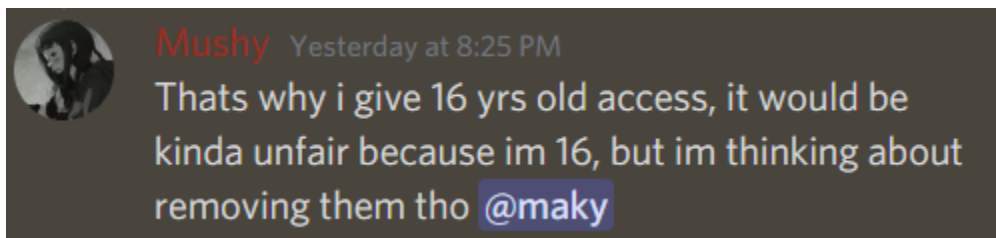

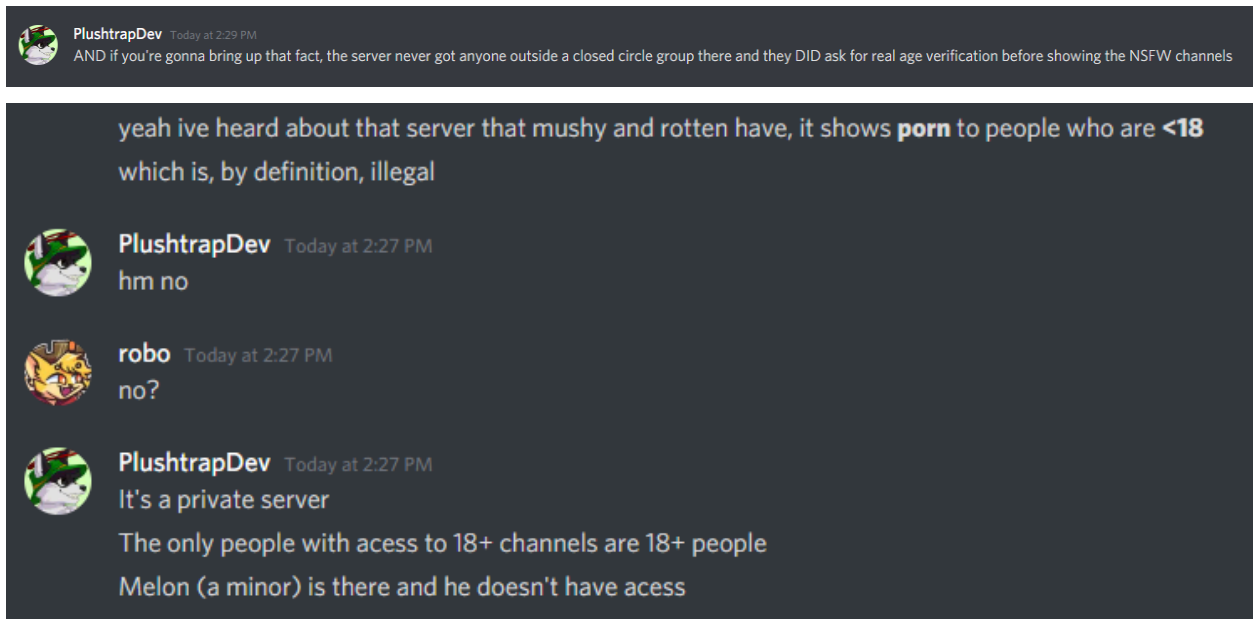

Mushy, a former moderator & a welcomed member in the YAFN server, had a server which was used for hanging out, sharing art, and *sharing porn*. Guess who was in it... a bunch of sixteen year olds!

Fun fact: Mushy itself is also 16.

Another fun fact: Plush, the guy I mentioned earlier, tried defending that monstrosity of a discord server. He also lied to me when I was confronting him. People who are <18 still have access to those NSFW channels.

(What does it mean by “kinda unfair”? Does it think that abiding by the law is “unfair”?)

Here’s an example of the type of stuff that they shared on the discord server.

[\(NSFW\)](#)    [\(SUGGESTIVE, PUBLICLY POSTED ON TWITTER\)](#)

Also, I KNOW that maky is going to try to defend herself and say that she wasn't involved in the server's actions. However, That's COMPLETELY untrue. She was, indeed, participating in the distribution of porn to minors.

 **evalyne** 01/02/2022

 **@evalyne** Tap to see attachment 

 name of artist? 

 **evalyne** 01/02/2022  
I don't remember. Maky send it to me

 she's a minor

 **evalyne** 01/02/2022  
I'm 16

# CONCLUSION

I originally wanted to create this document to show people how YAFN treats their competition. However, upon further research, my reason behind creating this document has changed. Not only has YAFN been getting modmakers to harass me and the other FNB devs for *no reason*, but they've also been doing some really shady shit within their community. It disgusts me to know that people who defend pedophilia and share porn with *minors* have been able to get away with it for so long. I hope that I've succeeded in showing you the secret history of YAFN. *(lol get it)*

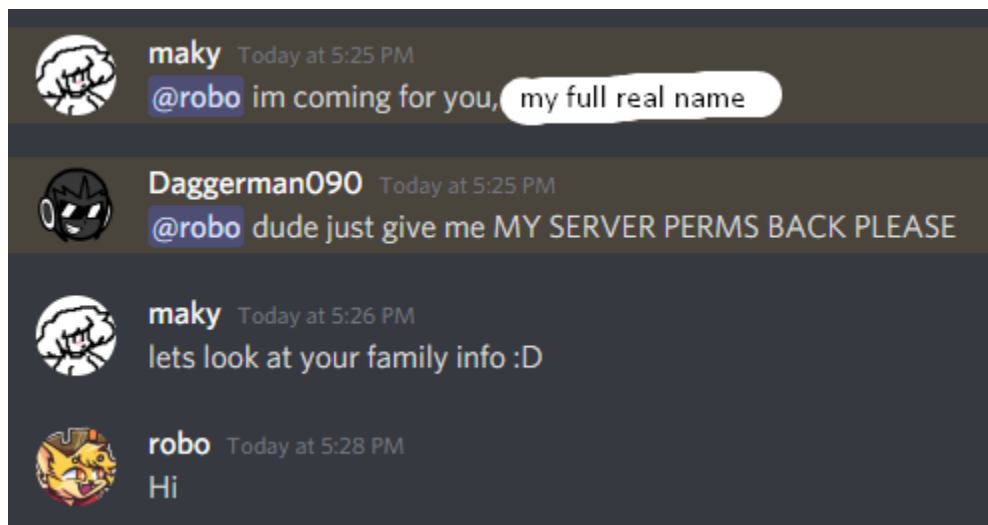

Yes, inkyu! The harassment you've been bringing us for 3+ months and the illegal shit that the YAFN staff have been involved in is MUCH worse than some edgy community!

## 1/13/2022 EDIT:

As of today, maky has become aware of this document and has decided to make a response.

Here is her response.

They're literally fucking doxxing me over this.  
Not cool, dude
