

THE DRUPBOT FILES (beginning)

THE STARYA/DRUPBOT FILES

(WARNING: MOST OF THIS IS UNCENSORED)

Everything in this doc is about exposing someone named Starya/Drupbot, along with other people that participated like Xynraw and Indie. (Old name was Drupbot) He said the n word and lied about their gender multiple times. He even threatened people over really unserious stuff. He even made weird svg sprites of underage OCs with some of his friends along with talking about them in a really inappropriate way. Most of the stuff here are just screenshots. Xynraw is also mentioned due to him participating in some of the screenshots in this doc. If you want context on what Mia did, here are the 3 videos.

Note: There's no note, the person that was mentioned here wants to be anonymous.

Weird behavior with OCs

So Minoria for the past months has been acting really weird with specific OCs like Penz, Aqua, Aero, Frostia, Sky, his own OCs and one of my friends's OC. He would be asking people to make really weird svgs of the mentioned OCs, and even send weird messages like this.

im gona say this agen what if you made tis wil drupbot

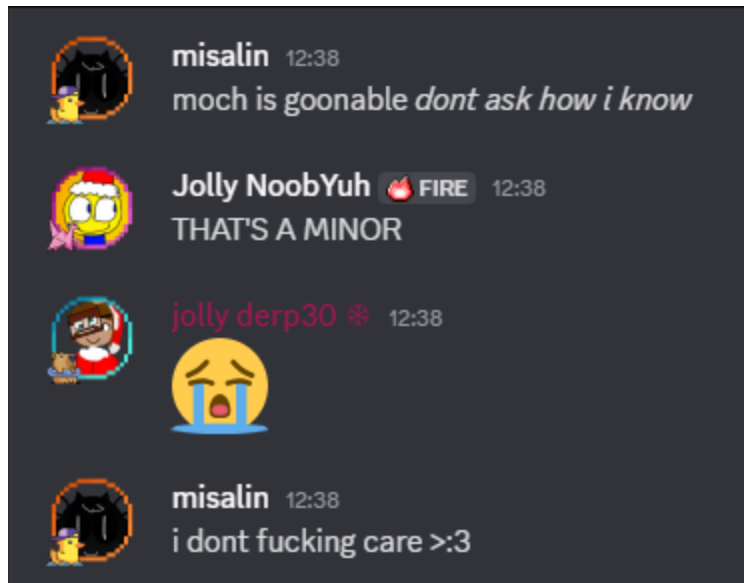

Minoria being aware of ACID3X's actions still asks someone to make an adult version of penz to be made. It goes for the same with the Aqua OC and more to come.

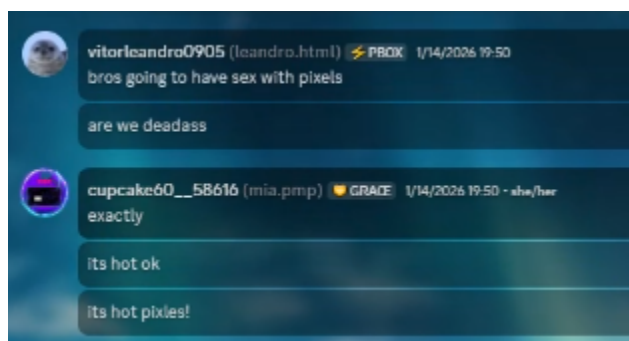

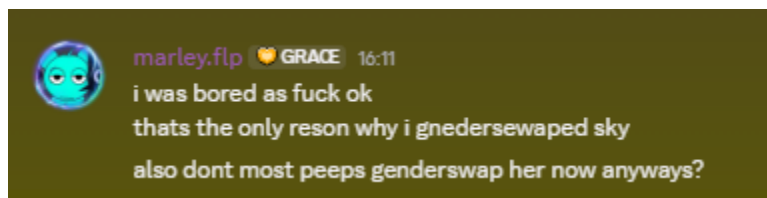

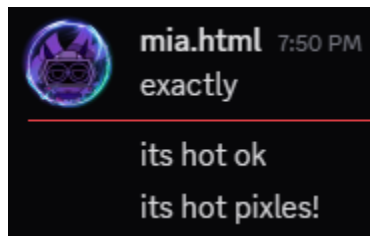

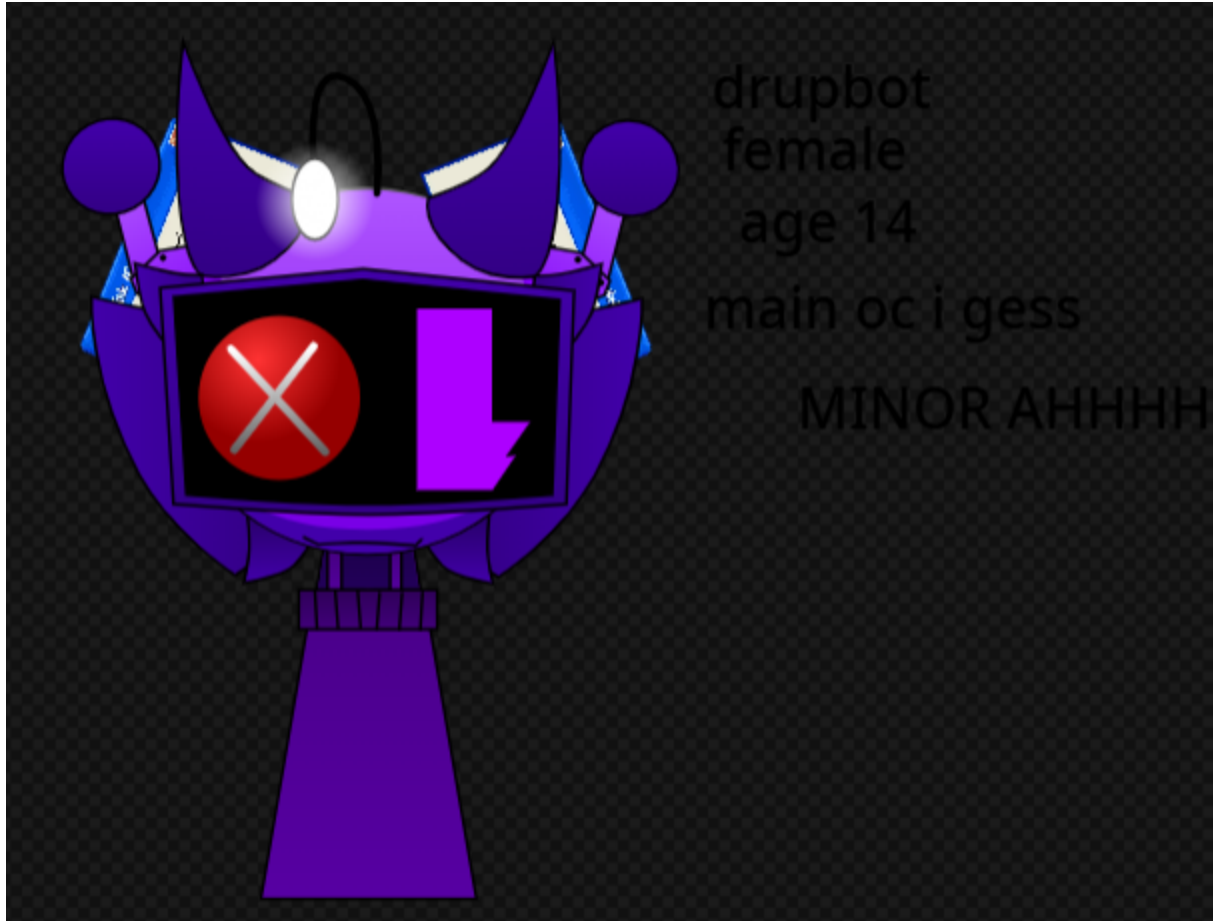

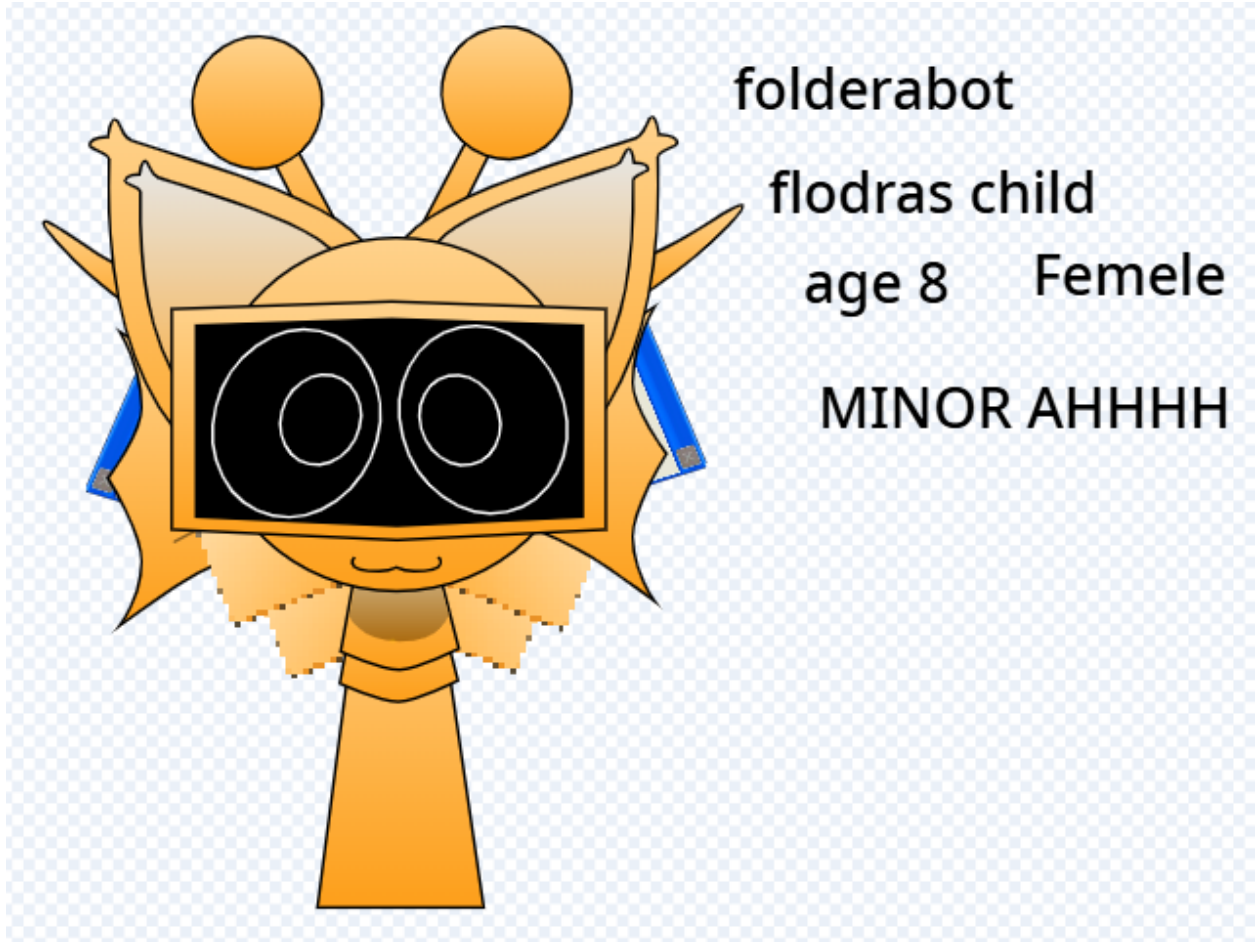

Even after getting called out by one of their friends, they use excuses like this

Back in October, he made an svg of his OWN OC (Drupbot) that he said himself was 14 years old and then when I called him out for it, he decided to lie and say that his age was pretty high.

Not only this, supposedly, his oc apparently had a "child" called "Folderabot". If you're wondering what's wrong about that, in an unreleased project of his, he decided it was a good idea to make it pregnant. Just a little reminder that the child is 8 years old and at the time of the project being made, his oc was 14 (and probably still is).

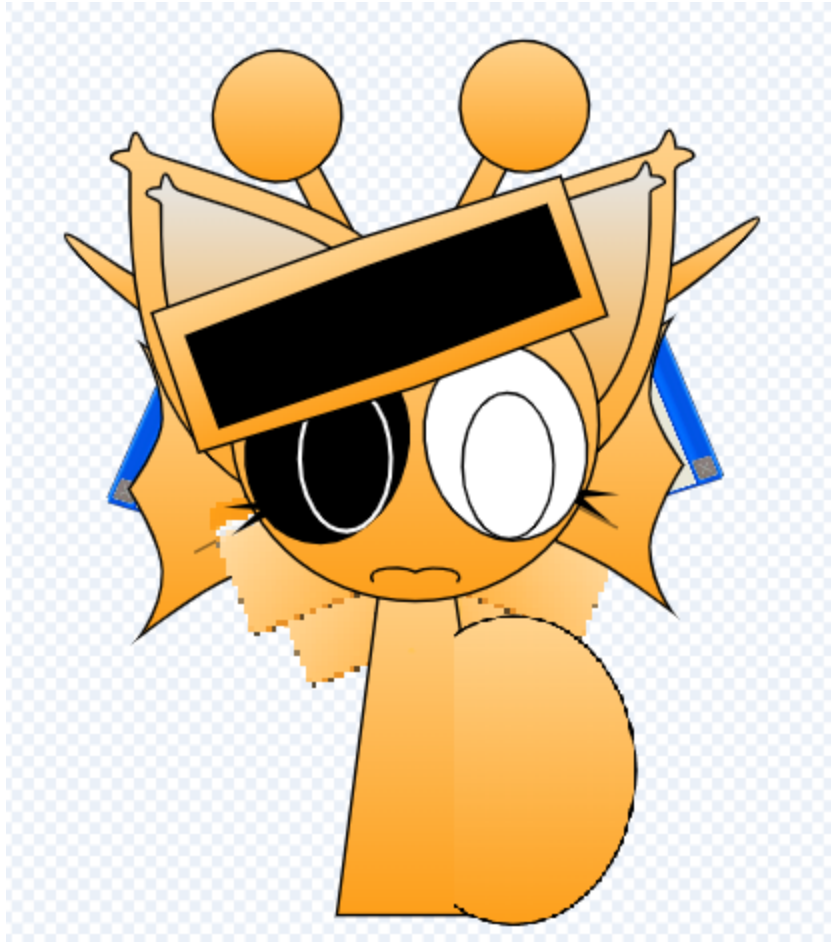

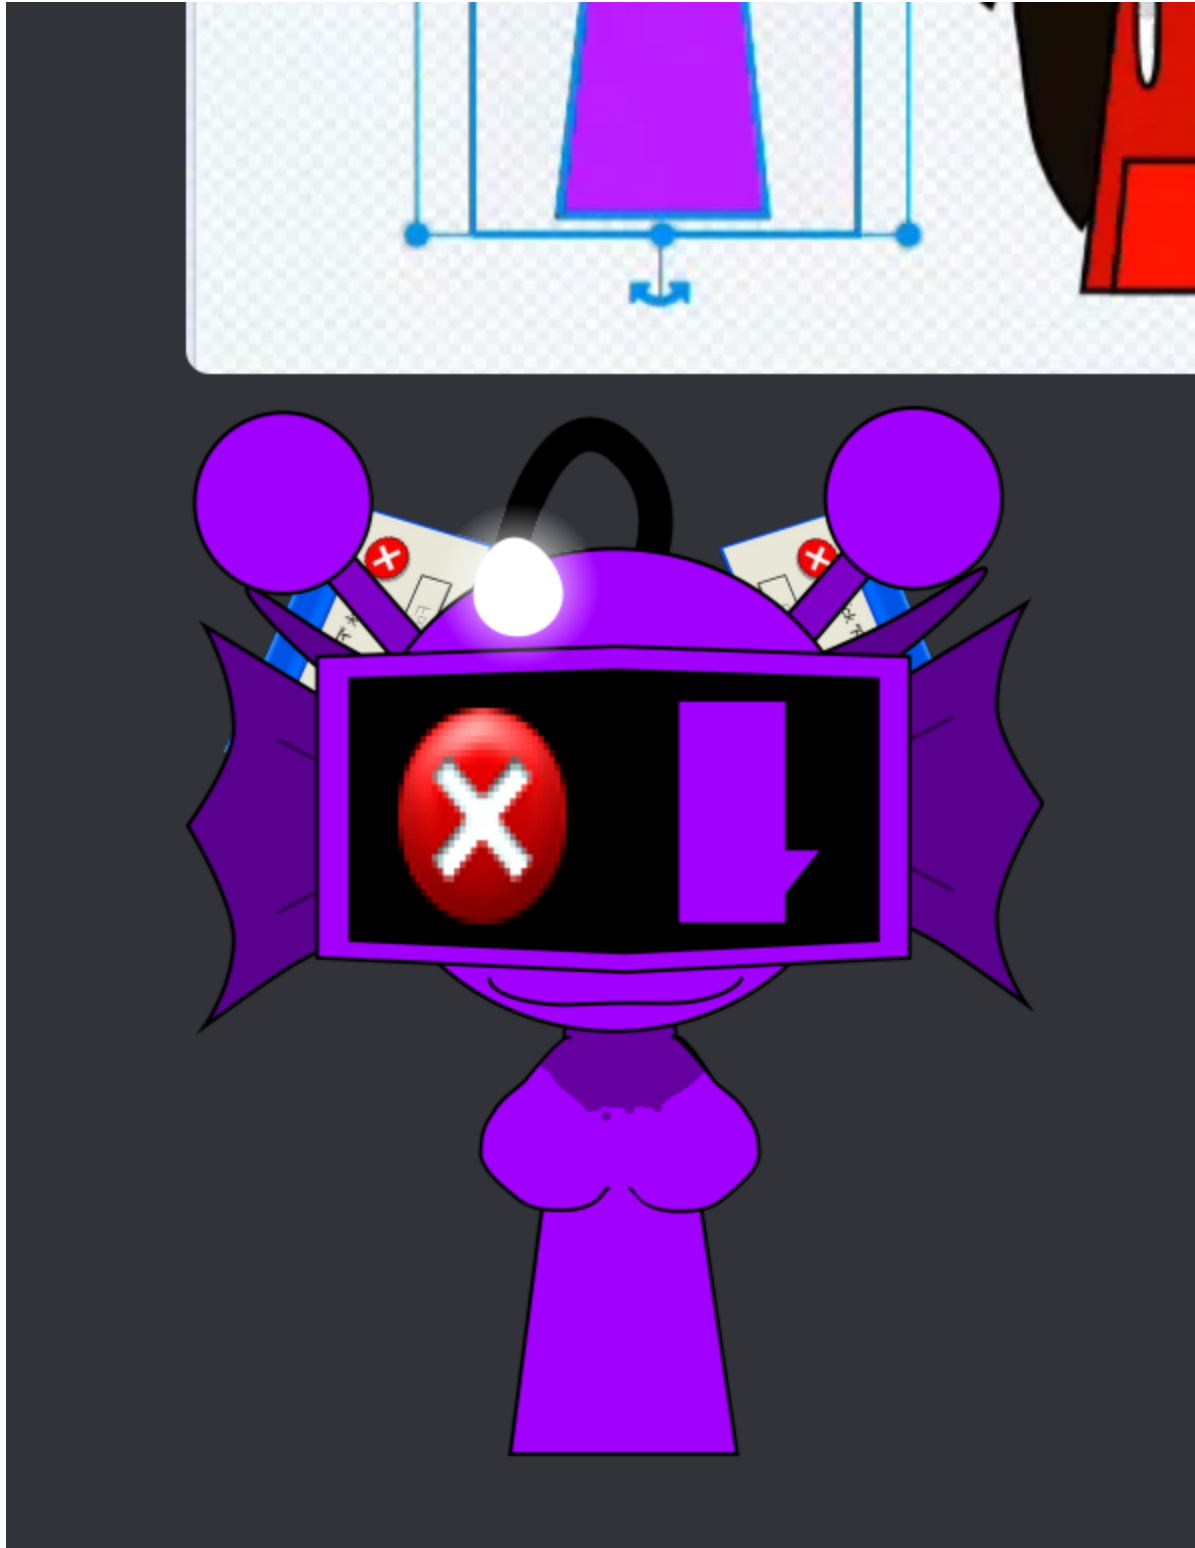

folderabot

flodras child

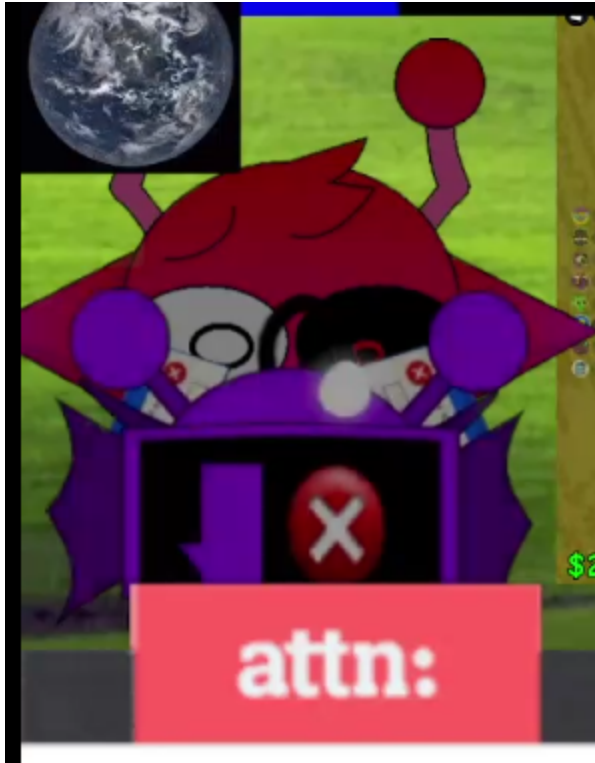

age 8 Femele

MINOR AHFFF

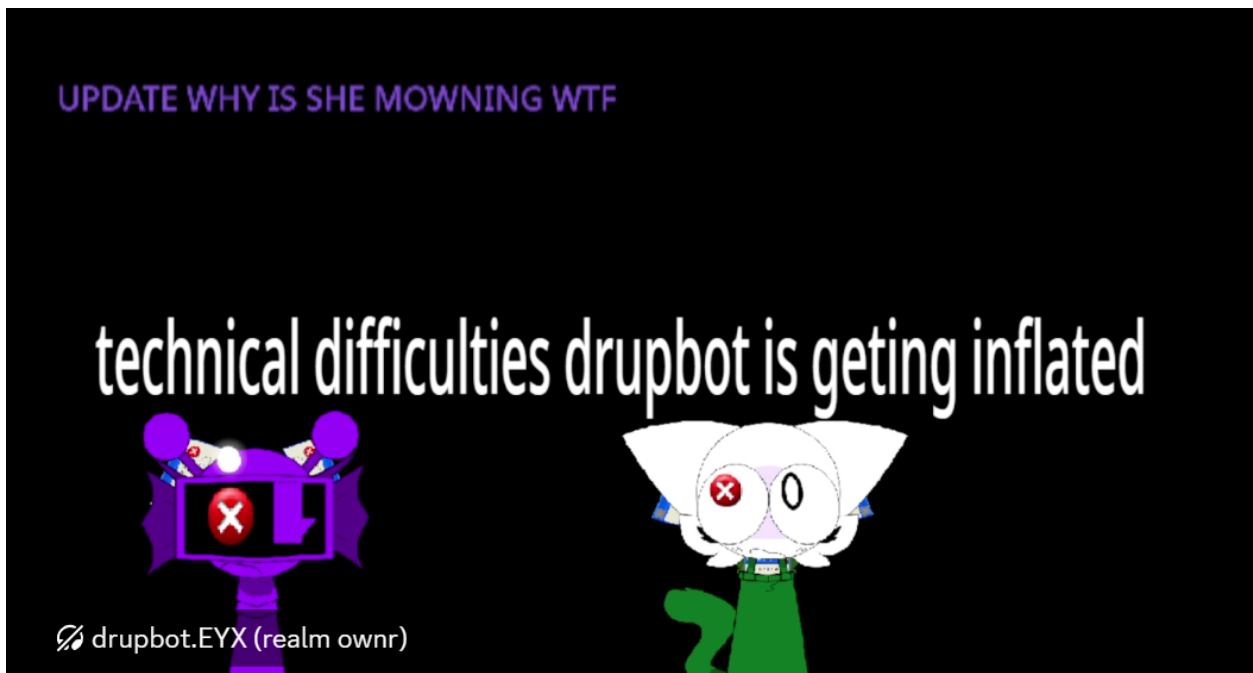

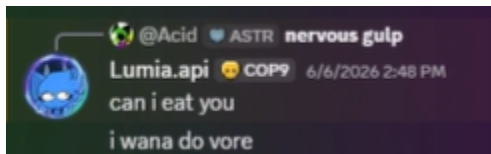

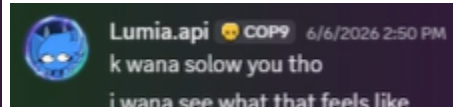

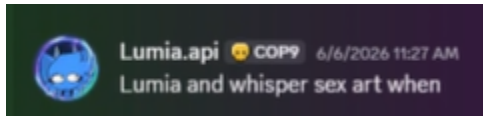

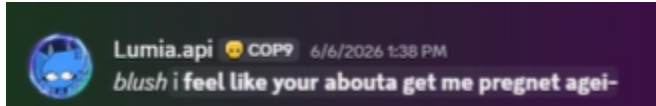

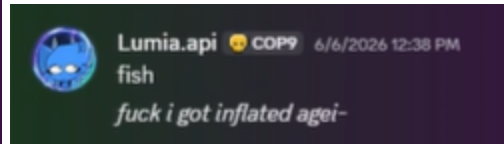

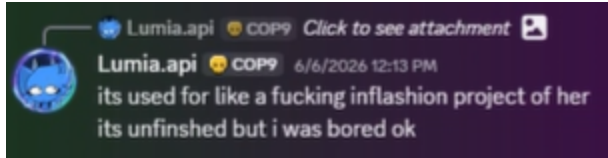

In his OBS, he would also move his reactive under another person's reactive with a boy OC.

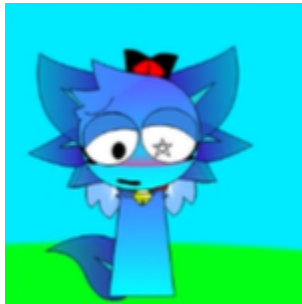

What makes it crazier is that every time he would need to go afk, he would set this screen on his OBS.

Now what's worse is that in this page, he also wanted to make an inflation project out of his OC and said more disgusting messages which is really disgusting of him.

What's worse is that he made his own OC naked in the picture right below.

Talking about the weird behavior shown in this page, he has been also having erp with a 12 year old (AKA Xynraw), another user, surprisingly themselves. The info is in the next page.

Drupbot's ERP

There was a 2-3 month old removed server made by minori called "air pump" where he would have weird interactions with himself and with Xynraw and saying racist stuff (This will come up later) The OCs that would be mainly used in this server would be Mia/Drupbot, Wormley (An OC he STOLE from me) and ski. Not only in this server, he would also do erp in a PUBLIC server where over 44-48 members were in there.

 Xynraw  2/7/2026 1:39 AM
Hi
i want an air pump

you know what actually keep me as your bloon-
too-

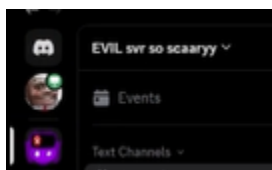

(For more context here, AGAIN those 3 screenshots were on a public server.)

He even lied at that time saying that he changed while he was hiding this server to not be exposed again. There was also an alternate server which he did the same thing with Xynraw which is also deleted by now. If you thought this was weird, the next subject is even worse. Not only have they been doing it with Xynraw, they have been also doing it with one of my best friends and forcing them to do it with him. Not only that, Drupbot also tried to attempt ERP while being in a discord call with other people listening AND saying weird shit and considering it as a joke. The footage for both of those is right in the following links.

Drupbot's weird actions

From September to March-April, Drupbot has been sending some pretty weird messages in public AND in private servers, even mentioning about him touching himself in weird ways. Starting off with him saying in a erp way that he's milking me.

This screenshot on top was originally deleted but was archived.

He would even hide his weird actions so he doesn't get exposed again but he knows he will.

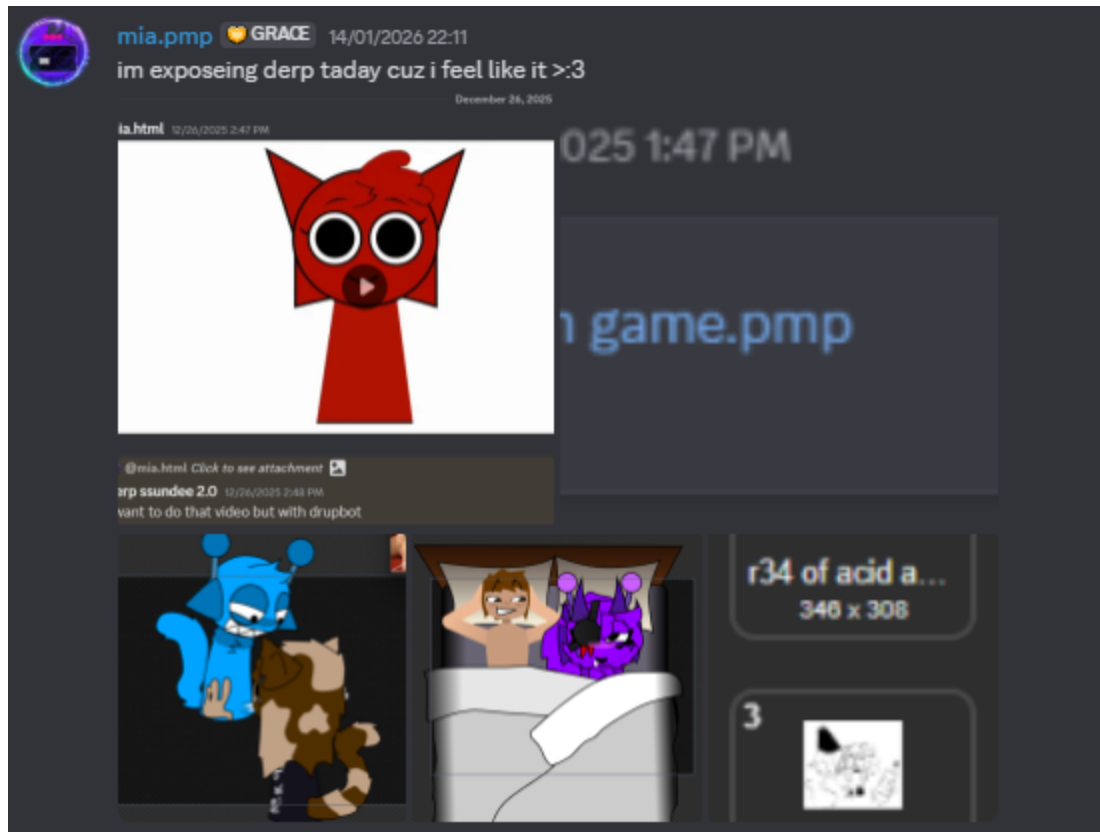

i creem to myself you dingus

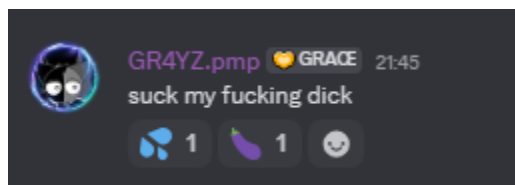

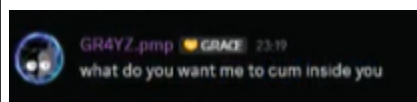

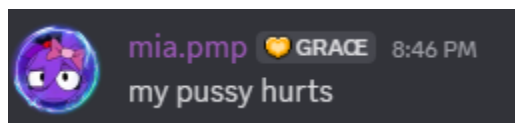

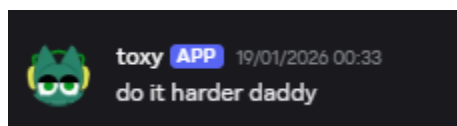

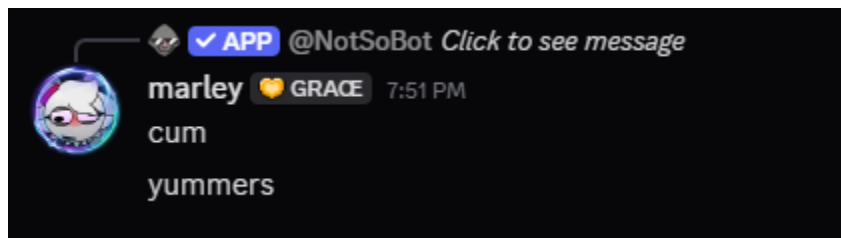

What's even weirder is that he would put weird statuses like this.

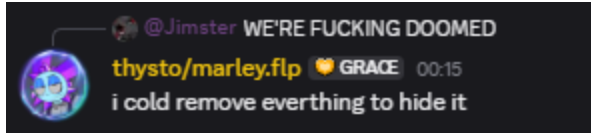

Not only this, he would claim that he is "exposing" someone while he's also guilty for being the person that asked them to do most of the stuff in the screenshot below, along with the pmp that's about infl*tion.

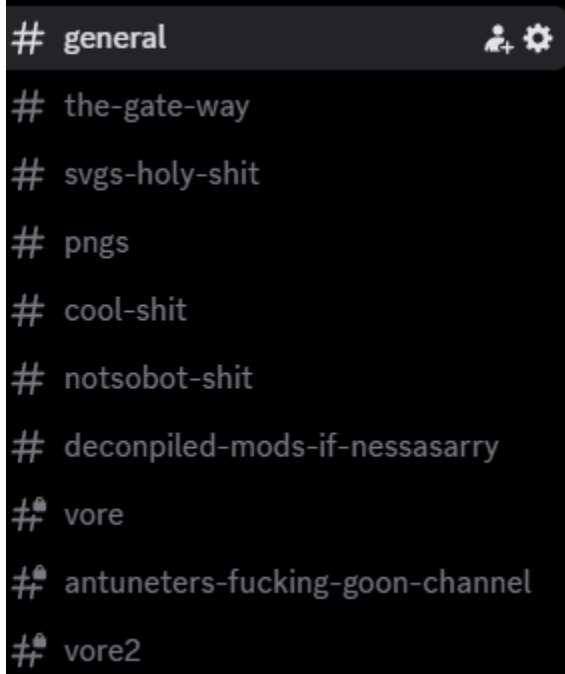

This even goes to saying weird things as his own OCs in private AND public servers.

Even knowing the fact that he could get exposed for stuff he did, instead of taking accountability, he hides it by saying this.

Man even had private channels to hide himself doing weird shit.

Just because Drupbot was caught decompiling someone's mod, he started to be really aggressive towards a person with the name of "Dark Jimmy" and telling him pretty bad slurs towards him, like the n word.

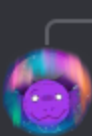

Dark Jimmy 17:57

Talking about the N word, over a week or two ago, he spammed the n word in someone's dms

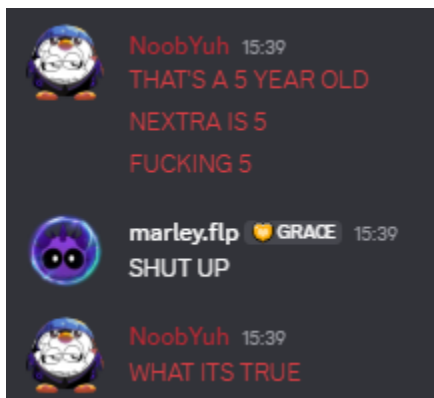

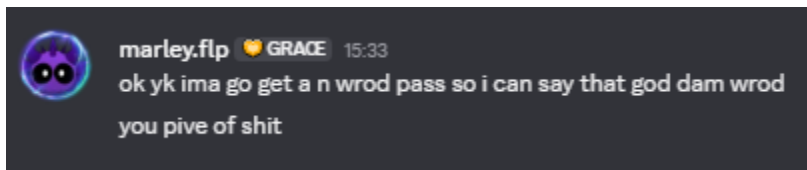

In January/February while the first expose video of him got made, he got furious and wanted me to take it down or else he would spam report my channel which is pretty stupid instead of taking responsibility and actually apologizing genuinely.

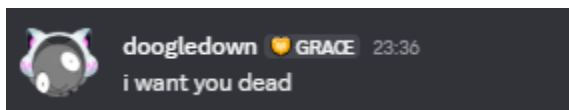

He even did a weird joke about one of his OCs which is 5 YEARS OLD aka the youngest OC he ever made. Drupbot also purposely misgenders him cuz he always wants to turn his boy OCs into females.

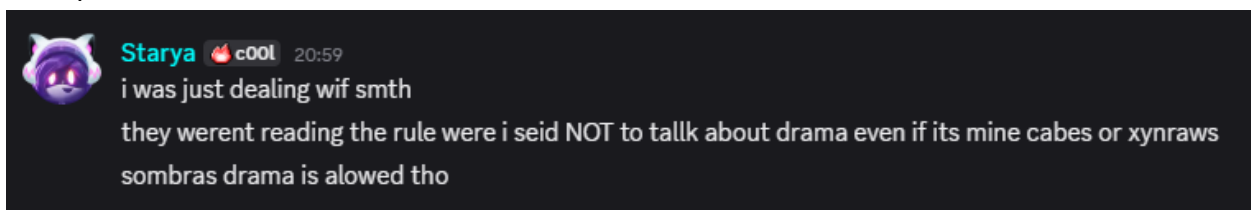

When i called him out on his own server for doing that, he decided to be selfish and time me out for a week and remove all of my messages to hide the truth about him. Man even got so pissed about it he wanted to get a pass from someone that's black just to say it to me.

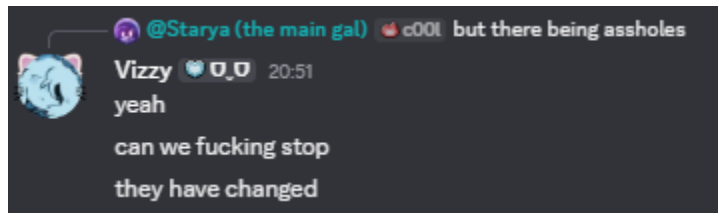

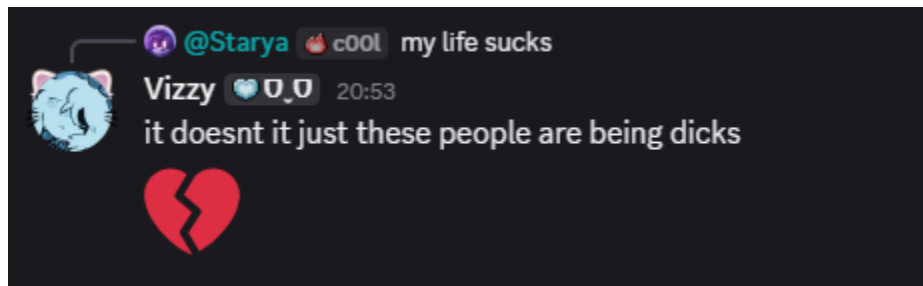

Death threats ain't gonna do shit.

In his newest server, he doesn't want people to talk about his drama, but he allows to talk about other problematic individuals while he's one himself.

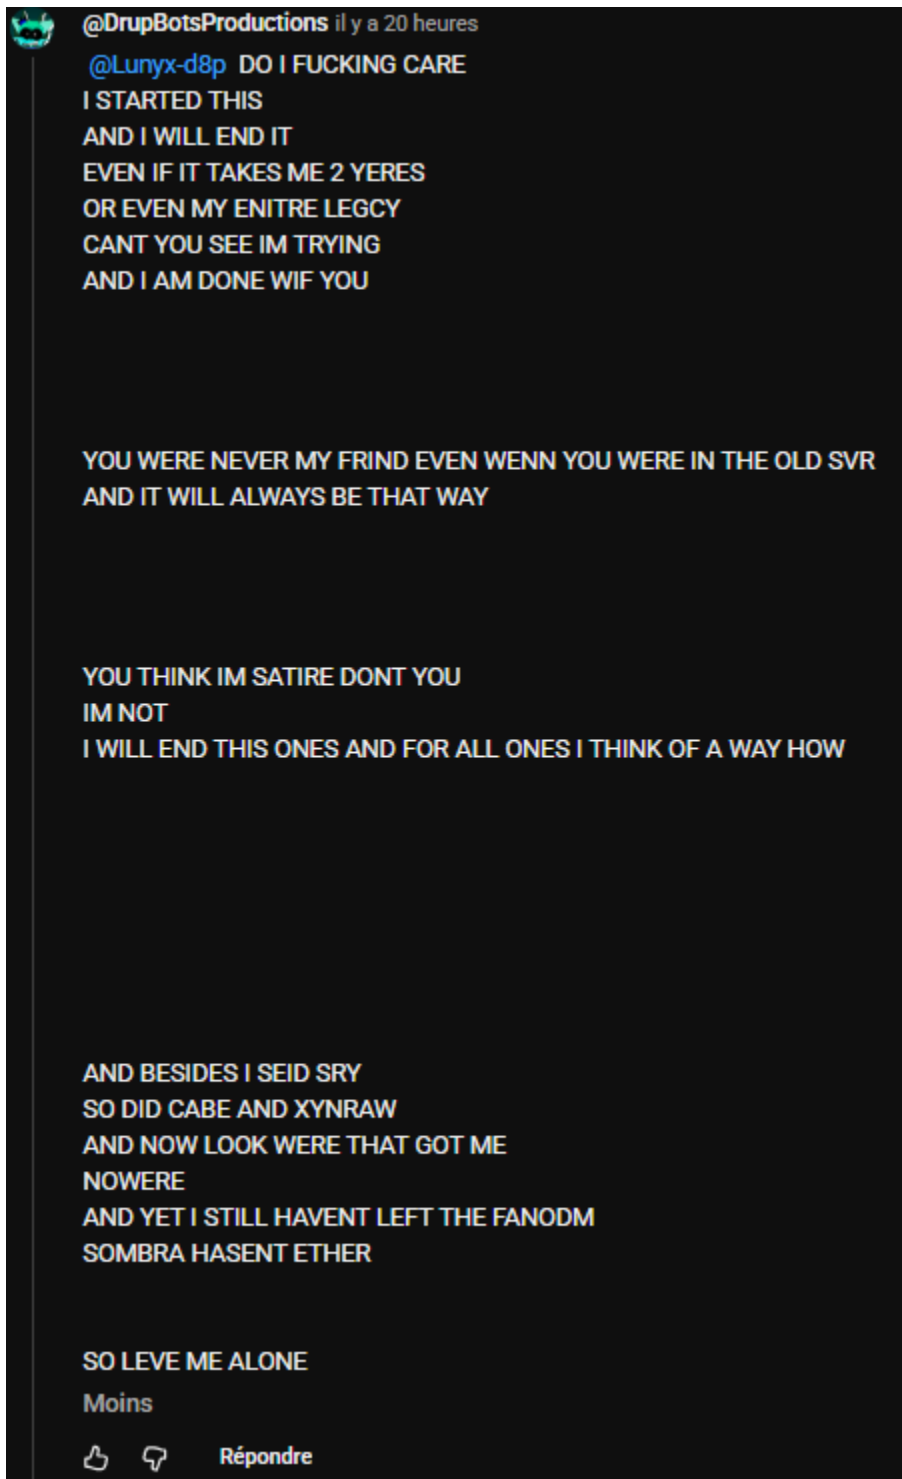

There's even someone defending him not being aware of what he did.

In Lunyx's post, he starts to make excuses like "i said sorry" meanwhile in his latest apology

he's not even being genuine at all and just wants to get his fame back.

im sorry ok
i just felt like it would be funny at times
and now look were that got me
im just a mistake

and yet
i make this so called apology
and you still treat me like this
its so god dam annoying

but please
forgive me
i will NEVER do anything like this again
this fandom is bullshit

The person called (CENSORED) that was in the screenshots refused to read the doc and counting most of the stuff he did as "Old drama" while most of the stuff here is pretty recent. Proof is in the screenshots below.

The funny thing is that they pretend to be a girl while people saw what his face looked like in a deleted message.

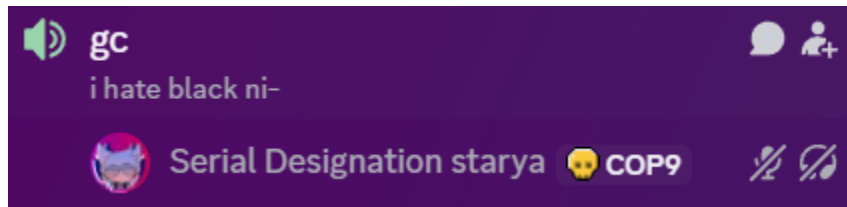

This was not the only time he pretended to be female, 2 months ago he did the same but with more explicit words.

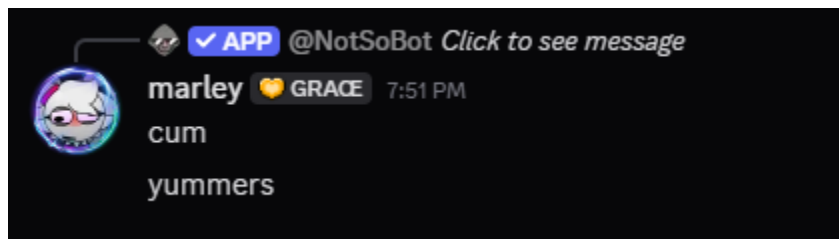

This shit is just sad to see how you have to pretend, Drupbot. Anyways that's not it, he even told people in his streams to k*ll themselves.

[https://file.garden/aZDR5CXYzUvzvco/20260412-1856-52.8410998%20\(1\).mp4](https://file.garden/aZDR5CXYzUvzvco/20260412-1856-52.8410998%20(1).mp4)

Not only this, they even set a status for a vc as the n word. It was not the full word, but still a part of it and even if it wasn't them that wrote it, they didn't remove it. The fact that this is the same person that said that wouldn't say it again is insane.

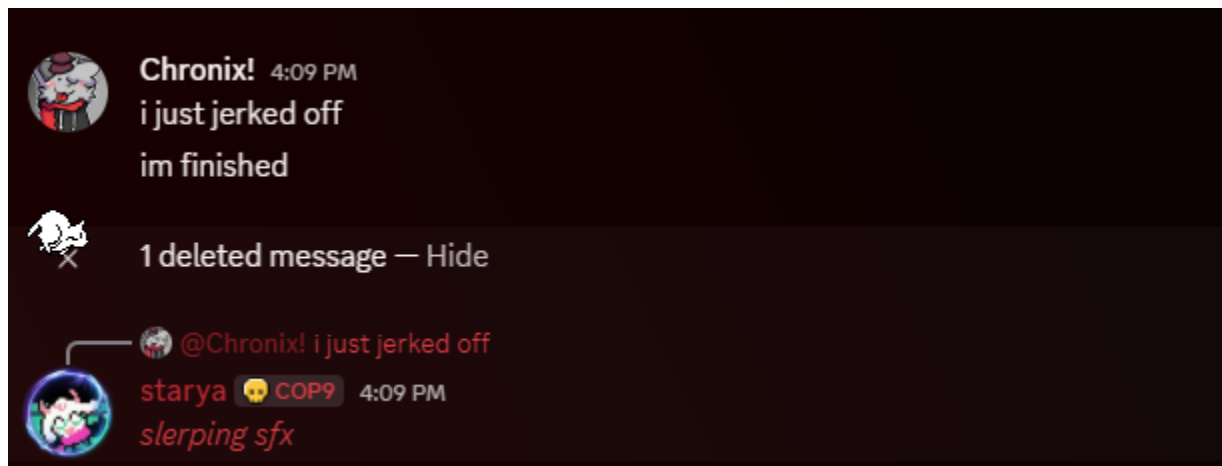

Not only this, they even called c*m yummy and stating that they were "drugged" at the time

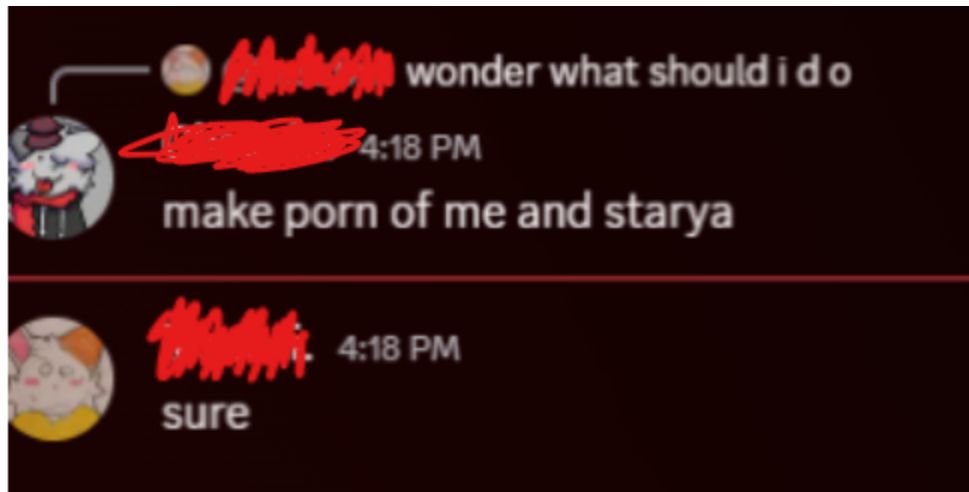

But wait! That's not the end yet, we have this interesting image.

(CENSORED) is (CENSORED) and asked someone to porn of his own oc. Also (CENSORED) said that he jerked off in chat and he finished. Equals to be a gooner and a bad person with Lumia

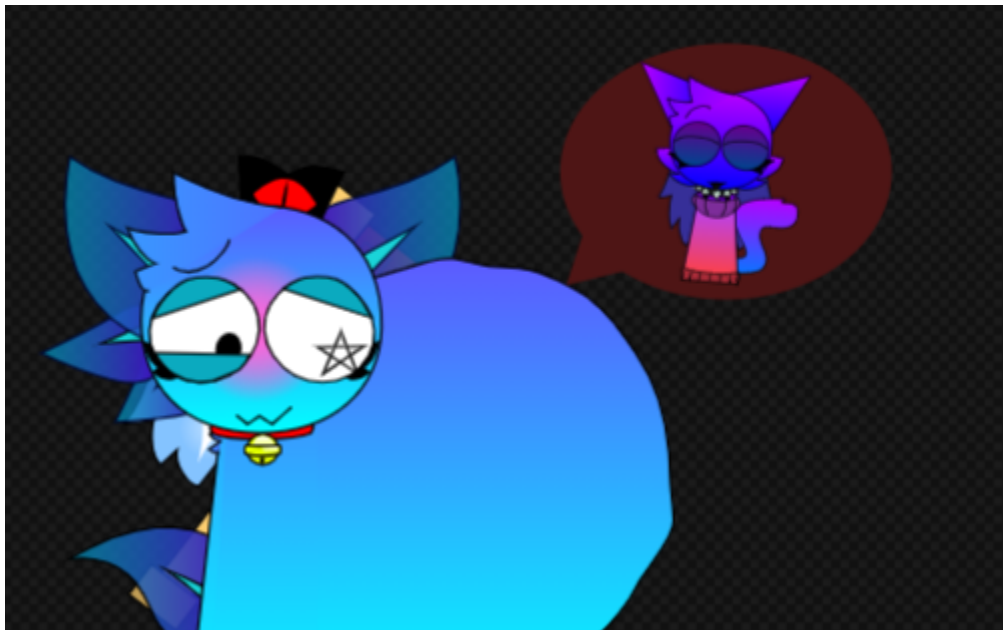

And btw there's also a video of them being weird. The link for it is right under this screenshot.

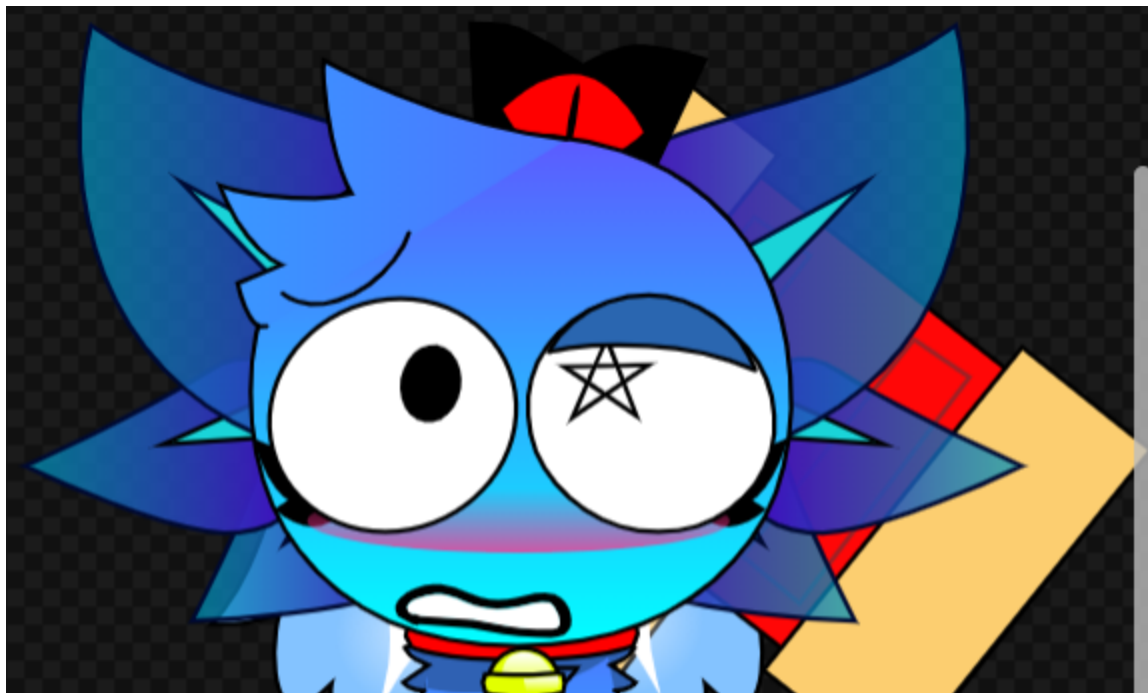

<https://file.garden/aZDR5CXYzUvzvco/both%20of%20you%20are%20weirdos>

Drupbot has also made really questionable svgs that were inside a folder he had on his computer. The proof is right below.

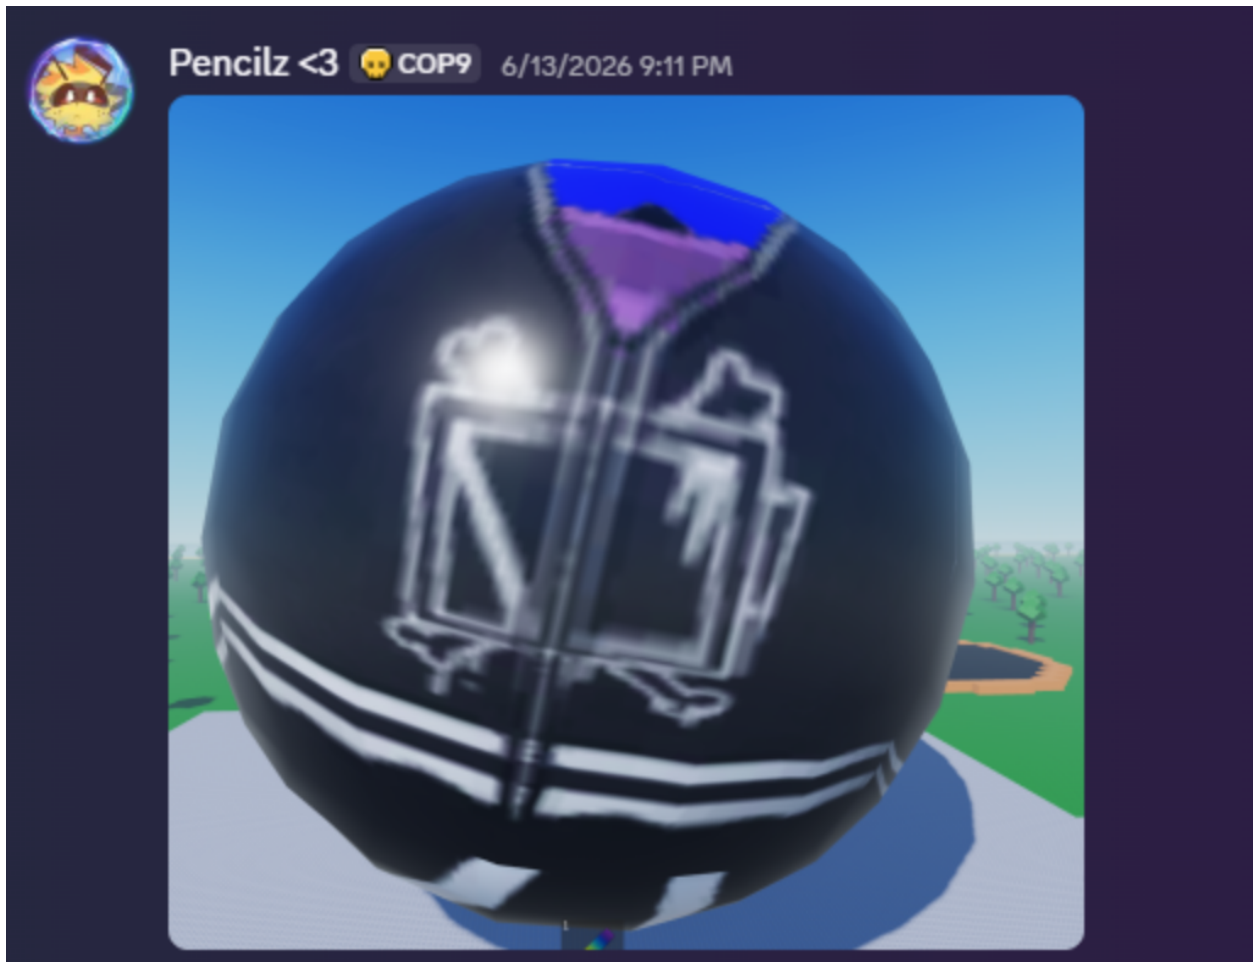

There's more disgusting things about him on the next page such as his name change, weird messages and others.

[CLICK HERE TO SEE THE REST](#)

Drupbot's name "Change"

VERY recently, Indie changed Lumia's name in discord to Pencilz as a friend name. If you're wondering why that name is considered weird is because this name comes from an oc of someone who is 10 years old and was used for stuff such as ERP and more. Proof is on the screenshot below along with another weird image they sent.

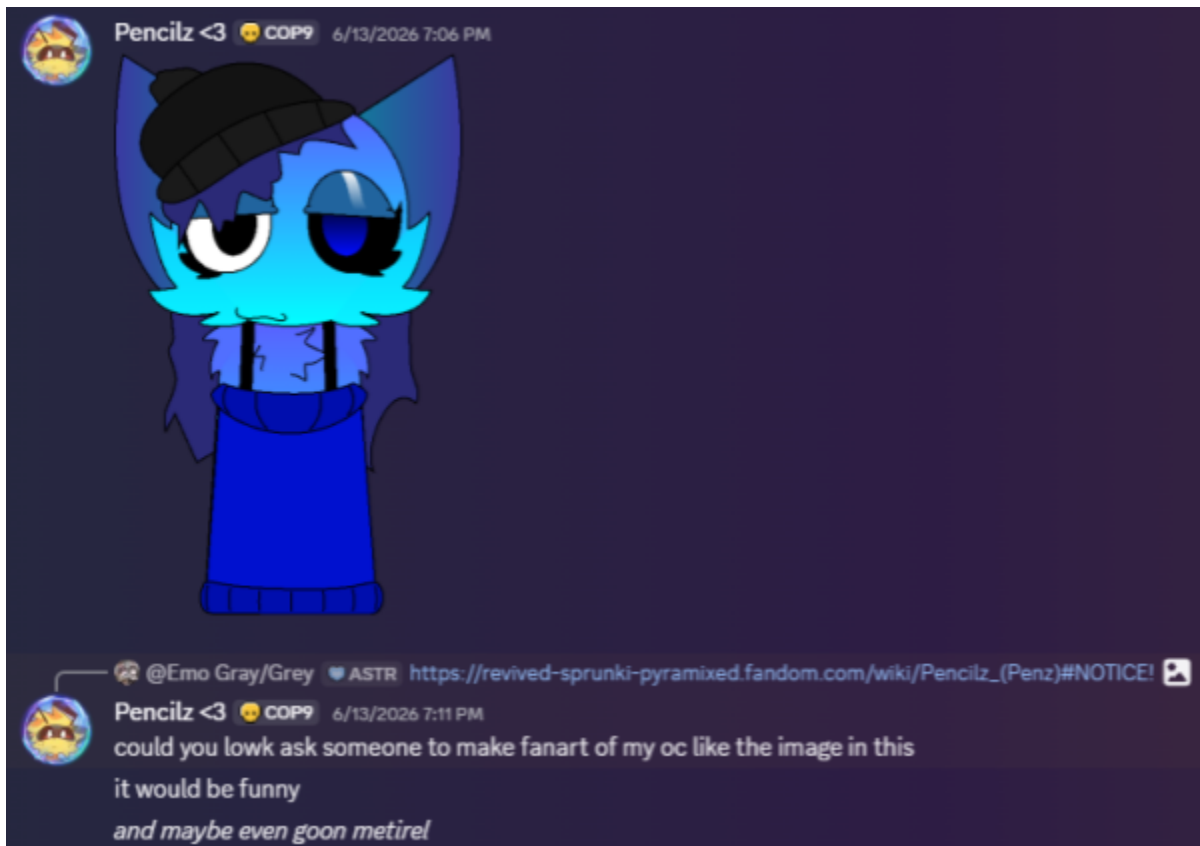

We're gonna talk a little more about his ex bf/gf or whatever bro. So basically, Whisper showed something Drupbot was not supposed to see on call. Eventually when someone finds out about it, he tries to put the blame on Drupbot which is pretty stupid.

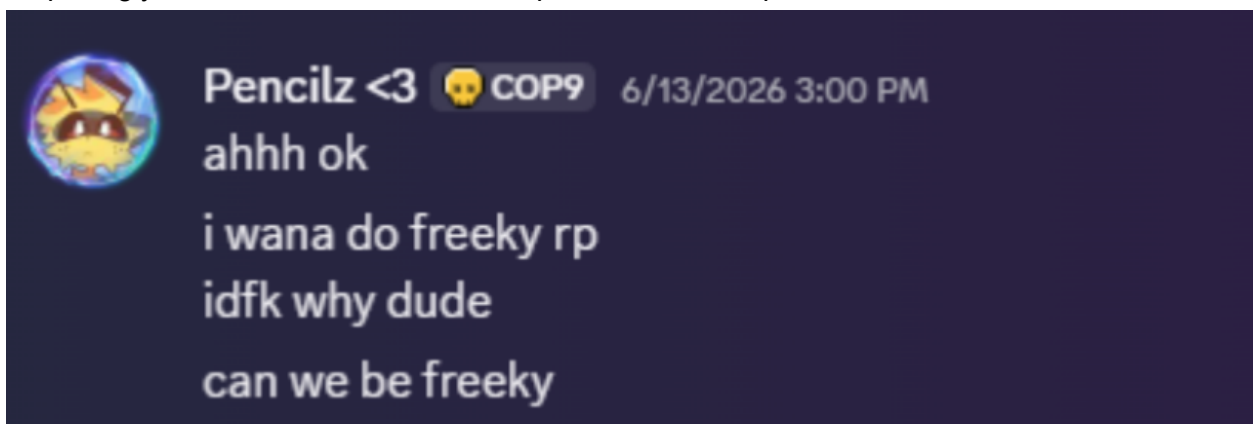

Whisper even was aware about the age gap about him being 16 and for Drupbot being 14 but still did it anyways.

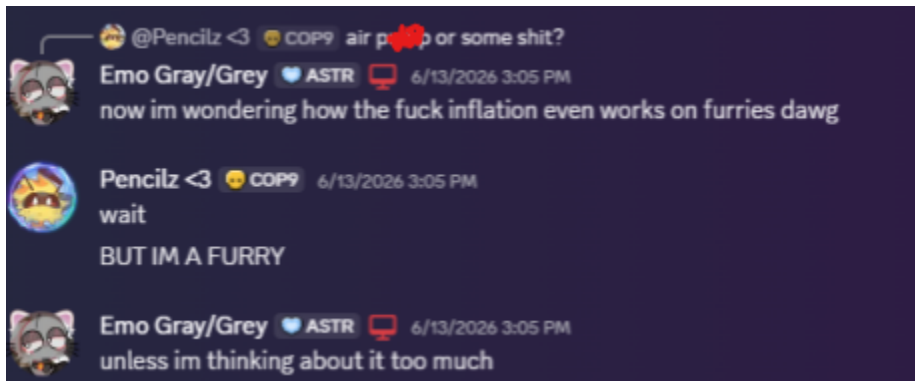

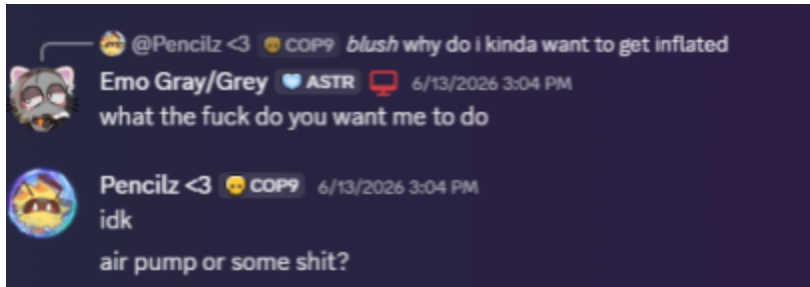

AGAIN, we are coming back to the classic “i changed what don’t you get” from Drupbot, because now, he is talking about getting fanarts but not any fanart. He asked Whisper to make it goon material in this screenshot.

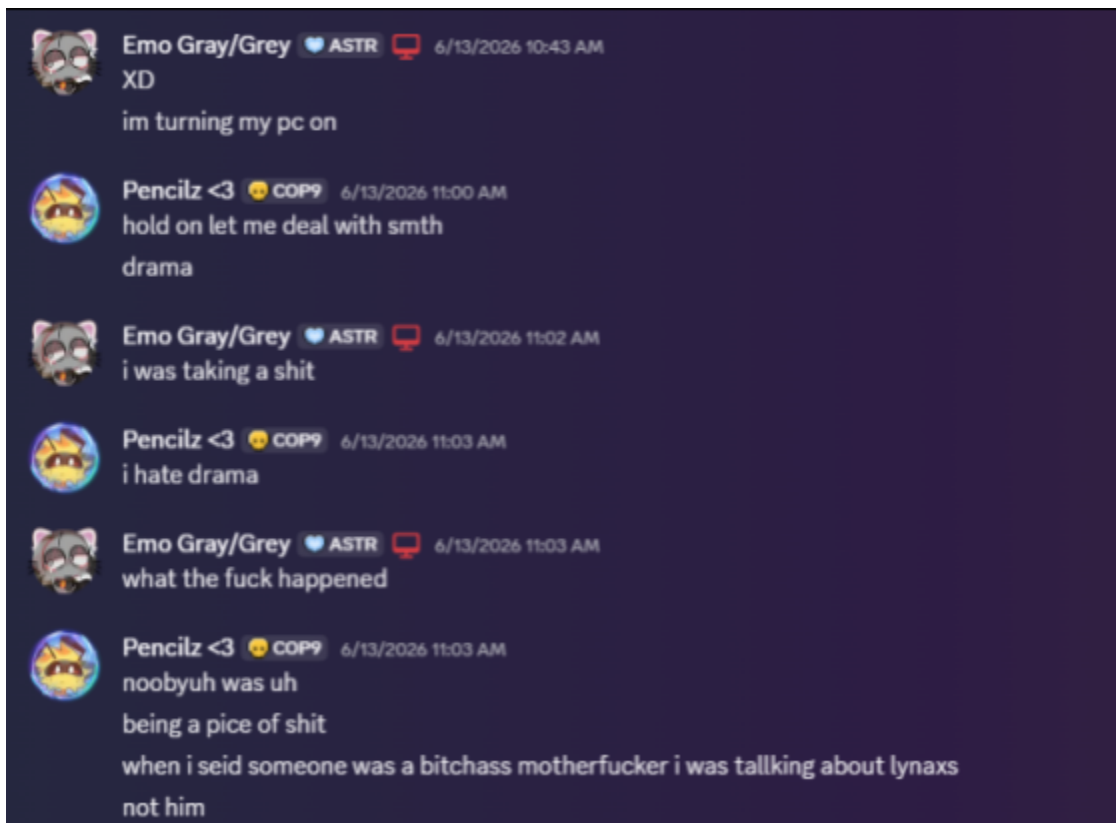

Surprisingly he also AGAIN tried to attempt ERP with Whisper in dms.

What’s even worse is that they started talking about shit like air p*mp and how it’s supposed to work on furries which is extremely weird.

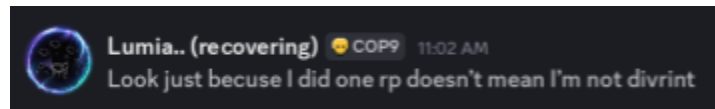

But hey that's not it, they tried to lie about calling me a bastard and put it on Lunyx in the screenshot below.

Not only that, a few hours today they both broke up and when he gets confronted about it, he starts to search for attention and talk about pulling his eyes out.

He even mentions the ERP and then has the brain to say that it doesn't make him unchanged.

NOT only that, he even lies about being transgender and lies about his gender 2 times.

The second time he lied about his gender was by showing an AI generated face reveal.

Lowkey crazy that you need to use AI to save your reputation.

But yeah, this is all you need to know about Lumia. If you have more proof, it will be added to the doc here.

If you want to ban him from your servers before he even gets in, here's his user and id.
