

Here are what the labels on the list mean:

(HD): Clips already uploaded on my channel at either 720p/1080p.

(Upscaled): Clips already uploaded on my channel that were originally under 720p, but upscaled in order to maintain quality. If you find 720p/1080p versions of these clips or the source material that these clips come from, please let me know.

(Uploaded): These clips are archive/test/misc clips that I found on YouTube or another online source, and I've re-uploaded them in the quality that I found them in. It is unlikely that better quality versions of these clips exist.

(Copyright issue): Clip was uploaded but blocked due to copyright issues. These clips will eventually be resolved and re-uploaded in a manner that they won't be blocked/removed.

[Can't find source material]: Pretty self-explanatory. This means I can't find the actual movie/show/commercial anywhere which means I can't get high quality versions of these clips, or find them at all. These scenes may already be on YouTube so please, don't refer me to videos from other airbag fetish related channels such as beltsandbags, airbagguy, etc. I'm very aware of those channels and their content.

[Multiple episodes]: Airbag content is known to be present in 2 or more episodes of these shows.

[More Episodes?]: I listed the episode(s) of the show that I know of, but have a gut feeling that there may be 1 or more episodes out there that have an airbag scene that I don't recall.

[Release Date:mm/yyyy]: Scene was found or exists from a source that won't be releasing until a future date.
