The Services may use such information and pool it with other information to track, for example, the total number of visitors to our Sites, the number of visitors to each page of our Sites, and the domain names of our visitors' Internet service providers. It is important to note that no Personal Data is available or used in this process.

In operating the Services, we may use a technology called "cookies." A cookie is a piece of information that the computer that hosts our Services gives to your browser when you access the Services. Our cookies help provide additional functionality to the Services and help us analyze Services usage more accurately. For instance, our Sites may set a cookie on your browser that allows you to access the Services without needing to remember and then enter a password more than once during a visit to the Sites. In all cases in which we use cookies, we will not collect Personal Data except with your permission. On most web browsers, you will find a "help" section on the toolbar. Please refer to such "help" section for information on how to receive notification when you are receiving a new cookie and how to turn cookies off. We recommend that you leave cookies turned on because they allow you to take advantage of some of the Service features.

Aggregated Personal Data: In an ongoing effort to better understand and serve the users of the Services, Company often conducts research on its customer demographics, interests and behavior based on the Personal Data and other information provided to us. This research may be compiled and analyzed on an aggregate basis, and Company may share this aggregate data with its affiliates, agents and business partners. This aggregate information does not identify you personally. Company may also disclose aggregated user statistics in order to describe our services to current and prospective business partners, and to other third parties for other lawful purposes.

Google Analytics: We may allow third party service providers to use cookies or similar technologies to collect information about your browsing activities over time and across different websites following your use of the Services. For example, we may use Google Analytics, a web analytics service provided by Google, Inc. ("Google").
