6.EEI.2. Progress Report - Round 1

1. Sam and Tim are reading a 256 page book together for their ELA project. If Sam reads 53 pages aloud and Tim reads 45 pages aloud, how many pages left do they have to read?

2. Solve the numerical expression:

   $(25 \div 5) \times 2 - 4$

3. Solve the numerical expression:

   $[4(2 + 3)] - 15$
