The Beauty of On-Demand

This course features step-by-step teachings and experiential practices from Deborah. Each session builds harmoniously upon the previous ones, so you'll develop a complete holistic understanding of the practices, tools, and principles you'll need to discover more secrets along the path of initiation, and receive practical exercises and mystical tools that allow you to clear and balance your core energy so the sutras can be seeded in the fertile ground of your consciousness.

Module 1: Clearing Your Personal Energy Field to Receive the First 5 Sutras

In Module 1, Deborah shares a special space-clearing exercise that you can do anywhere, anytime — no fuss, no muss. A clear space is crucial if you want to fully take in the spiritual energies of the sutras.

This module also lays the groundwork for the sutras and then seed the first 5 sutras in you. These first five are revolutionary — they will take action, first in your personal energy field, and then in your body/mind, sweeping out all the old trauma that you've stored there since

day one. They often work instantly — so you're likely to notice their effect within just a few days.

- Be guided in a space clearing practice so that you can receive the sacred energies of the sutras
- Experience the seeding with you of the first 5 sutras
- Begin to activate their alchemical powers so that you receive your unique gifts from these sutras
- Notice the shifts in your mind, body and emotions — which may be subtle or dramatic

Module 2: Receiving Your Spiritual Gifts & Seeding the Next 6 Sutras
