About Us

Our Mission and Vision

Our Mission
Our mission is to provide, in a community-based setting, the highest quality health care to communities in Boston's northern suburbs.

Our Vision
Hallmark Health will be the system of choice in our region, with demonstrated service to and support from area residents and physicians.

Community Benefits Mission Statement
Hallmark Health System, Inc. is committed to building and sustaining a strong, vibrant and healthy community. Hallmark Health System dedicates appropriate resources to collaborations with community partners and the utilization of community member's input toward improving health services. Hallmark Health System pledges to act as a resource and to work with the community during emergencies; improve access to care; identify, monitor, and address the unique health care needs within its core communities; and promote healthier lifestyles for residents through health education and prevention activities

Corporate Diversity Statement
Hallmark Health embraces diversity at all levels of our organization and strives to deliver culturally competent care to all of our patients. At Hallmark Health we are committed to exploring, understanding, and respecting the differences that exist among our patients and our co-workers. Through these efforts we can provide the most effective and highest quality of care to our ever-changing communities and create a culturally sensitive environment for our employees.

Corporate Compliance Program and Standards of Conduct

19. Tips from local fire department

Fire Prevention

The Fire Prevention Officer is responsible to ensure all life safety systems for new construction and renovations are designed and installed properly. This requires pre-construction meetings, plan review, code research and continual site visits to ensure proper installation. In 2013 the Department issued 829 permits and monitored several building renovations. Major projects include: Pulte Homes, Planet Fitness, Portland Pie, M.F. Charles Building and Johnson Woods.

For existing buildings, the Fire Prevention Officer is responsible to ensure all life safety systems are maintained properly. Other areas of responsibility include ensuring the safety and code compliance of flammable and combustible product storage.
