Adventure
in
Equestria

hay (get it, cause ponies eat hay im soo witty) guiz i dediced to right a ponific, thats right hayters (see i did it again) just get out now

so here it is, hope you like it

chapter 1 the beginning of adventure

so there i was in english class alomst faling asleep (cuz english is soooo boring, i mean who needs grammer otside of scool anyways) when suddenly i acshully fell asleep accept not really cause i was just falling normally instead of falling asleep

and then suddenly i was in equstia (dont ask me how i knew that, i just know) in the sky! but then i was falling rilly fast towards the ground and i was like ohnoez if i fall on the ground ill defs be so super dead so then i casted a speel to steal the wings of the nerest pagasas pony so i wouldnt fall to my death

omg dis picture sucks balls i should be a PONY, because im in equstia not earth anemone! jeez cant you get anything right????? and i should be a unicorn, because how else would i use MAGHICKSS??? ill tell you how, with a HORN, not some STUPID WAND

so anyway i caste the speel and it worked prefectly (cause my specail talent is magick), using my fancy blue wings i flue down to the ground without diing but wait whos wings were

these??? usings my magics i found out that it was rainbow dish's wings so i was like ohno what if she fell down too and dwas all dead like i was gonna be before

so i telopert to rainbow dish (usin my super awesoem madgics) and there she was on the ground all dead and stuff and then i use my heeling speel to heel her and then she was all fine

ugh why do you SUCK so much at drawing what i want you to draw i mean OBVOUSLY i ment heel like heeling speel, not heal like high heals and why am i STILL A FRIGGIN HUMAN I TOLD YOU THAT I WASNT A HUMAN ANEMONE

'ohemgee wow thank u so much for heeling me from the dead i was so scarred when my wings disapeppered and i started to fall from the sky but its all ok now bcause you saved me from being dead' sed rainbow dish

'oh its fine, i made you fall cuz i needd wings so i wouldnt fall on the ground and die' i said

'oh no were are my wings i dun have wing anemone how will i get into the wonderbots now' sed ran bow dish

RD

dat's bet'r tho i dunno wht the thin on the homan hed is and why is there robo on wonderbot??

also what is dat cuti mark thas not elemonts of hayrmoney (hehe see wut i did there)
wait omg why am i pink its so uncool color mak me brite gren pls

'its ok, ill copy my wings and give u the copy' i sayd, and then i copied my wings and gave her the copy. i am so generous!

'thank you so much i love you so much i could just kiss you right now except i am les so there is a probrem' sed rainbow dash but then i caste a spel and she is no longer les (AN - wuldnt it be soo gross if she was les i mean jus cause she has rainbows doesnt mean she likes gurls)

and then we kissed

mean while

'omg i can't belive that huss rainbow dish is kissing that hot stallon' saided flutterchai 'im going to show her what happen when you steel my stallon from me'

Dat Andrew Hussie!

dis is flutterchai but whos dude on left wit de tcup whats wit the egstra things you put keeping in?

floattershy went up to ran bow dish and pnuched her in the face wit her hoof

'ow what was that for flutterchai' ssid rainbow dihs

'hes mine you huss' said floadershy

'who whoa whoa clam down you two you can both have me' i staid

'wow really??? you are so generous... uh whats your name' saidd flosstershy

'i am the great and powerfull and one and only and super duper speshil awseome hocus pocus abaracadabara hayrmoney the soseror' i sed, appeering 9999999999992349083 zilean different firewoks into the are at the sam time with mi super magick abilitis

ok idunno who the dude on the fierwoks is but oderwise the fireworks r good
 you splelt mi name rong its hayRmoney not hay money (tho thatd be a god name 2)
 also i liek how deres like no wite space left dat mens de pichurs good (mi art techer from 2
 yers ago told me dat)

oh did i menshun that me cuti mark is acshully all 6 elemenopents of harmoney (see thats
 why mi name is hayrmoney, cause im harmoney and hay cause ponis eat hay hehehehehe
 hehehahaha im so funny oh man i laughed for like 100000 hours at that) so dats why mi
 speshul tlent is majiks and also slaughter and also kidness and also generousness and also
 loyalness but not onestness (because appuljeck sucks and who needs to be onest anyway i
 mean liing is so much better espeshully with my parents cuz they always tell me i cant hit
 my little sister but i just do it and say i didnt acshully and they dont care)

'take me now, harymoney' they both said

and then we had sex

end of chapter 1

i hope the bad pictures didn't ruin the awesome story for you

chapter 2 the real beginning of adventure

so then we started walking to poniville but then we were stopped by princess celendia

'hey haymoney i need you to go save the world' she said

'aw man, again?? but i already saved earth like 9001 times' i replied

'yeah lets go'

'wait i have to get my friends'

'who, the old elementals? we don't need them anymore cause your haymoney'

'but i like them they're my friends'

'ugh fine, meet me in the library when your done'

'thanks for sticking up for us haymoney' said rainbow dash and fluttershy

'no problem, now lets go find pinky pie'

so we walked to poniville and then there was pinky pie sleeping in the street like the hobo she is

'hey pinky'

then pinky suddenly woke up cause her best friend was talking to her

'GASSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSP its haymoneys omigod omigod i have to go throw a PARTY because thats what i do throw PARTYS all day everyday' she talked and went off to throw a super rad PARTY

'no wait pinky we don't have time' i said and she heard even tho she was really far away cause of my special talent

'awww she said but why not???

sorry pinky this is important we have to save the world again go to the library and ill be right

there

god i tolded you mak me brite gren not pink an wat kinda lamo horn is that it needs to be 20% bigur (c wut i did there cause ran bow dish sais hur dres neds 20% cooler) and cuti mark stil isnt elemopnets of hayrmoney (hehe did it agin) wut is dat poni for? nd wht is ded ponies 4?? slaughter powrs make ppl slaugh not ded you betr fix it bi next pichur

then i telemaprted me an flottershai an rainbow dish to the librari

'you know i dont like her celly' i said

'mk whatevs lets go save the world again'

'wait what are we saving the world from' i askded

'idk lol' said celerystia 'thats for you to figur out cause im a lazy princes'

'ughhhhhhhhh fine' i saided

then i used my magicks to find the stoopid thing thats gonna destroy equestia nd teleperted it

'mk jobs done' but it wasnt acshully done (this is called fourshadowing)

'theres a meteor about to distroy de liberry i talked

'whew twilight relived

oh crap brb i have to go do my homework (stupid englihs homework again) dont touch anithng
bro

well be right back after these mesages

(Seeing as how my brother's doing his homework and left this open, I thought I'd give my skills at BSing a try and write a little bit of his story for him. Let me know what you think.)

Twilight looked through her various shelves of books on grammar, attempting to decide which book to give to "hayrmoney" [sic] so he wouldn't keep talking like a bumbling illiterate dyslexic (no offense meant to dyslexics). She settled on "The Foal's First Guide to Grammar" and levitated it over to him. "Here, I think you could put this to good use."

"but whi i nid dat i so gud at gramer n evrything" [Translation: "But why would I

need that, I'm perfect at everything, including grammar." said "hayrmoney".

"Uh, I beg to differ," said Twilight, "now hurry up and get out before I have to kick you out."

"hayrmoney" left the library to go back to his house. Oh wait a second, he didn't have a house. He sat down on the dirt road outside the library, and opened the book to page one. But because he was illiterate, he couldn't read any of it, even if it was in English instead of Equestrian. He settled for looking at the pictures of foals, because he found them irresistibly attractive.

After he was done "perusing" the book, he returned it to Twilight. "I hope you learned something about grammar today, 'hayrmoney'."

"oh dun wori i lerndded soooo much 2day!!!" [Translation: Oh, don't worry, I learned so much today!"]

"I'm glad to hear that," Twilight responded.

"ok imma go bk 2 mi haus nao" said "hayrmoney". [Translation: "Ok, I'm going to go back to my house now"]

"hayrmoney" then left the library and walked the streets of Ponyville. He felt a strange tingling sensation in his sides and head, and then suddenly his horn and wings fell off. He didn't notice immediately, but after two hours or so (his standard reaction time), he tried to kill an innocent pony with his OP magical powers because he was bored.

He tried for a good fifteen minutes, attracting strange looks from at least thirty other ponies before he gave up. Then he looked up and saw nothing where there should have been a horn. He was so shocked at this frightening revelation that he passed out in the middle of the street.

(Oh, it looks like he's pretty much done his homework. Hope you enjoyed the proper grammar and spelling, because it won't be back anytime soon. Also, if you're reading this (which I doubt because you never proofread your stuff), Mom wants you down for dinner in ten minutes.)
