Main text

Main Text starts from here.

Conflict of interest statement

The author declare that there is no conflict of interest related to the companies mentioned on this editorial.

References

Revista Estomatología uses **the Vancouver style of citation**. References should be limited to those that are necessary. Revista Estomatología does not restrict the number of references, however, it suggests not exceeding 15 for Editorial.

Do not cite the following sources in the reference list:

- Unavailable and unpublished work, including manuscripts that have been submitted but not yet accepted (eg, "Unpublished work", "data not shown"). Instead, include that data as supplemental material or deposit the data in a publicly available database.
- Personal communications (these must be supported by a letter from the relevant authors but not included in the reference list)
